### THE BOGART CASE.

The people of Shenandoah, since last May when the minority members of the school board failed in their efforts to secure the election of their candidate for Superintendent either by force of numbers or disaffection among the majority members of the board, have been arrayed one against the other and a bitter feeling has been engendered. It is not necessary to state here who is responsible for this state of affairs. That fact has been made plain during the progress of the case, and it has been without cause. This was conclusively shown by events that transpired at Pittsburgh last week, when the private counsel for the prosecution pleaded illness as an excuse for carrying the case over to the next term of court.

Ever since the charge of immorality was preferred against the Superintendent, the latter has insisted upon an early disposition of the case, and it was hoped, and justly expected, that the demand for a speedy trial at Pittsburgh last week would have been accorded the defendant. But such was not the case. It is an outrage perpetrated upon the people of Shenandoah, on both sides of the controversy, to compel witnesses to travel 300 and 400 miles, and spend the greater part of a week away from home, and then be compelled to return without a decision at the hands of the court, simply because the leaders in this prosecution deemed it to their advantage to further delay the case. The friends of Super. Bogart, as well as those opposed to him, will again be compelled to bear this expense and inconvenience, to satisfy the whims of a few persons.

The more the facts of the case are investigated, the more plain does it appear as simply a piece of persecution. The fact of the matter is the prosecution has no case, not a scintilla of evidence to prove their charge of immorality. If they had no one would be more anxious for a speedy trial than they. The truth of the matter is, the people of Shenandoah are being deceived. There are any number of people who have given moral and financial support to the prosecution in the honest belief—made to appear so by false statements on the part of the leaders—that they were doing right. But their eyes will be opened Sunday and the goose that laid the golden egg will have been killed, and certain people will then be out of a fat job, at the expense of the people they are now deceiving.

In making this statement we are in a position to know what we are talking about. We do it, too, upon the authority of the best citizens of Knoxville, who have no ulterior motives to serve and who are disinterested as to the outcome of the case, other than that of securing fair play for an American citizen. The Herald has assumed a conservative course from the very beginning of the difficulty and will continue to express a disinterested opinion whenever the occasion may demand. It has not yet found it necessary to make a false statement to its readers, and if it should be misled into such an error it will have the readiness to correct it. It would be better if some other newspapers (?) were induced with the same feeling towards their readers, who apparently pay for what they do not receive.

The people of Shenandoah, previous to the present unfortunate difficulty, lived together as neighbors should. Their social and business intercourse, without regard to nationality or creed, have been most friendly, and for this reason it was hoped that a speedy termination of the school trouble would be effected last week. Besides, it is unfair to the Superintendent, who has done everything in his power to face his accusers in court, to cause further delay. Those responsible for the present state of affairs should either accord him that right, or acknowledge that they are being deceived as to the true state of affairs. That would be the more honorable course. Will they do it?

A new college to accommodate 20,000 students is proposed for Philadelphia. If colleges keep on multiplying so rapidly the happy period will soon be reached when there will not be an individual in the Nation who will not know how to play any position in football.

The robbery perpetrated yesterday morning was a bold one, and the parties implicated in the affair should be shown no mercy. Shenandoah has been troubled with a gang of midnight marauders for some time, and the efforts of the authorities to break up the work of the gang should be heartily seconded by those having the execution of the law in their hands. The welfare and peace of the citizens of the town demands a rigid enforcement of the law, to the end that this nefarious gang should be broken up.

The project inaugurated by the Mahanoy City American for the erection of a hospital at a convenient point, between this town and Mahanoy City has so far met with flattering success. The fund to be raised by popular subscription is estimated at \$10,000, and that amount \$1,700 have already been subscribed. It is said the Philadelphia & Reading Coal & Iron Company officials have given positive assurances that they will donate the ground on which the hospital is to be erected, and an appropriation from the state is also assured. There is no question about the dire need of such an institution midway between the two largest towns in the county and in the very heart of the anthracite coal region. The state hospital at Fountain Springs is taxed to its utmost capacity to accommodate the demand made upon it, and it has been

found necessary within the past year or two to enlarge the buildings there. The hospital at Fountain Springs is inconvenient to railroads, and in the location of the proposed institution this can and should be avoided. The project should receive hearty support at the hands of the people of Shenandoah, and we have no doubt but that they will contribute liberally towards the fund. At the union services to be held on Thanksgiving Day an offering will be made and instead of donating that fund to the Gettysburg hospital our ministers should consider the advisability of giving all the support possible to the institution nearer home, and from which our people will derive greater benefit.

Sort of our esteemed contemporaries have worked themselves up considerably over the question as to which of the several aspirants shall succeed Don Cameron in the United States Senate from this state. While it is a privilege vouchsafed to each to have a preference in the Senatorial contest, there is no good reason why they should call each other hard names. Resorting to Billingsgate is no argument. Keep cool, brethren, and the contest will be settled in due time. The next United States Senator will be a worthy representative of the Keystone state.

**"Scaldy" Bill a Winner.**  
In the wind-up before the Art Athletic Club in Philadelphia Saturday night, "Scaldy" Bill Quinn, the colored venterweight of New York, and formerly of Mahanoy City, defeated Charley Johnson, of Philadelphia, in four rounds. A report of the contest says "Scaldy" started in to annihilate Johnson from the top of the bell, and landed a score of vicious lefts on the wind and rights on the face and jaw, twice sending Johnson to the floor. The latter was handicapped in much weight and failed to make much of a showing in the opening round. He did better in the second, and in the third landed several hard punches as well as avoiding many of the colored boxer's heavy swings. Although "Scaldy" had the advantage in every respect and appeared capable of besting Johnson, he did not evince the same desire to force the milling as his white antagonist and refused to emulate his example of making it stand up give and take affair. In the fourth Johnson went right at "Bill," and got home several hard right handers on the jaw, but these didn't seem to phase the colored man, who paid his white brother with interest. "Scaldy" easily had the better of the "go," and satisfied the spectators that when he feels inclined to go in and fight he is a dangerous customer for anyone outside of the first-class middle weights.

**Letters Granted.**  
Letters of administration were granted to Kate A. Ross on the estate of Anthony Ross, late of Mahanoy City, deceased.  
Letters testamentary were granted to Henry S. Steiner and Dr. J. Arthur Jones on the estate of Elizabeth Millard, late of Mahanoy City, deceased; also to Daniel J. Kelly and Thomas Kelly, on the estate of Daniel Kelly, late of Port Clinton, deceased.

**Never Saw Anything Like It.**  
It is always safe to profit by the experience of others, and especially when it concerns life and health. Maud Johnson, Brookside, Pa., writes: "I had diphtheria and starved very bad and used a bottle of Thompson's Diphtheria Cure. Never saw anything like it. It took nearly all the medicine out of my throat in one day, and also cured my stomach." Sold at Kirlin's Drug Store at 25 cents a bottle. **Wife Parents Danced Children Burned.**  
HAMPTON, Mo., Nov. 23.—Five children of Mrs. Snyder Neal, living seven miles north of this city, were burned to death late Saturday night. The Neal dwelling was burned while the parents were attending a dance. When they reached the burning building the father saw his 11-year-old girl lying burning in the front door, clasping her 3-year-old brother in her arms. The flames prevented rescue. The father fell in a swoon, and has been a raving maniac since. None of years old, is the only survivor of the fire. The dead children are: Callie, aged 13; Hattie, 11; Willie, 7; Clarence, 5; and Julian, 3.

Before the end of the present week the price may, it is said, be down to \$1.25 per keg, or within thirty cents of the lowest price they ever sold here. ### THEY RIDICULE IT.

**Many People Ridicule the Idea of an Absolute Cure for Dyspepsia and Stomach Troubles.**  
Ridicule, However, is Not Argument, and Facts are Stubborn Things.  
Stomach troubles are so common and in many cases so obstinate to cure that people are apt to look with suspicion on any remedy claiming to be a radical, permanent cure for dyspepsia and indigestion. Many such pride themselves on their acuteness in never being humbugged, especially on medicines.  
This fear of being humbugged may be carried too far; so far, in fact, that many persons suffer for years with weak digestion rather than risk a little time and money in faithfully testing the claims of a preparation so reliable and universally used as Stuart's Dyspepsia Tablets.  
Now Stuart's Dyspepsia Tablets are vastly different in one important respect from ordinary proprietary medicines for the reason that they are not a secret patent medicine, no secret is made of their ingredients, but analysis shows them to contain the natural digestive ferments, pure aseptic pepsin, the digestive acids, Golden Seal, bismuth, hydrastis and nux. They are not cathartic, neither do they act powerfully on any organ, but they cure indigestion on the common sense plan of digesting the food eaten thoroughly before it has time to ferment, sour and cause the mischief. This is the only secret of their success.  
Cathartic pills never have and never can cure indigestion and stomach troubles because they act entirely upon the bowels, whereas the whole trouble is really in the stomach.  
Stuart's Dyspepsia Tablets, taken after meals, digest the food. That is all there is to it. Food not digested or half digested is poison as it creates gas, acidity, headaches, palpitation of the heart, loss of flesh and appetite and many other troubles which are often called by some other name.  
They are sold by druggists everywhere at 25 cents per package. Address Stuart Co., Marshall, Mich., for little book on stomach diseases, sent free.

**Another Law Declared Unconstitutional.**

The object of the proceedings was to test the validity of the law.

Electric Bitters is a medicine suited for any season, but perhaps more generally needed in the spring, when the languid, exhausted feeling prevails, when the liver is torpid and sluggish and the need of a tonic and alternative is felt. ### INVENTOR FERRIS DEAD.

**He Became Famous Through His Monster Wheel at Chicago.**  
PITTSBURGH, Nov. 23.—George W. G. Ferris, who conceived and built the world famous Ferris wheel, died at the Mercy hospital in this city yesterday of typhoid fever. His illness has been brief, and it was only last Friday that he was taken to the hospital. The attending physicians say his system was greatly run down by overwork. His wife came here from Canton, O., on Saturday that she might be with her husband in his dying moments.  
George Ferris was born at Galesburg, Ill., Feb. 14, 1850. When he was but very young the family removed to Carson City, Nev., and it was there the young wheel builder spent the years of his early boyhood. In 1876 he came east. He began a course at the University of New York City in that year, and in 1881 graduated with honors. In 1883 he accepted a position with the Louisville Bridge company, of Louisville, Ky., and afterward engaged in the inspection of structural work on his own account. In 1887 the firm of G. W. G. Ferris & Co. was established here. This concern still exists. It was in 1892 that Mr. Ferris conceived the idea of the wonderful Ferris wheel that has attracted the attention of all the people of the world, and which will go down in history as one of the greatest wonders of the century.

**Empire William Designated.**  
LOUISVILLE, Nov. 23.—The Daily Mail's Berlin correspondent says he hears that Emperor William is disgusted with the proceedings in the Reichstag, and is determined to dissolve that body unless the increased naval credits are voted. He regards them as the minimum consistent with the efficiency of the navy, and considers that the navy will prove a splendid electioneering organ.

**During several years residence in the far west, I had many opportunities for observing the wonderful effects of Chamberlain's Colic, Cholera and Diarrhoea Remedy. Its efficacy was demonstrated in the alkali regions, where the water produces violent purging. It allayed the attack when all other remedies failed. I repeatedly saw the greatest distress and diarrhea cured in a few minutes. I used the remedy myself with the most satisfactory results, and can recommend it for the complaints for which it is indicated. H. Y. GILSON, editor of the Republican, Phoenixville, Pa. ### Let The Whole World Know The Good Dr. Miles' Heart Cure Does

**HEART DISEASE** has its victim at a disadvantage. Always taught that heart disease is incurable, when the symptoms become well defined, the patient becomes alarmed and a nervous panic takes place. But when a sure remedy is found and a cure effected, after years of suffering, there is great rejoicing and desire to "let the whole world know." Mrs. Laura Wineinger, of Selkirk, Kansas, writes: "I desire to let the whole world know what Dr. Miles' Heart Cure has done for me. For ten years I had pain in my heart, shortness of breath, palpitation, pain in my left side, oppressed feeling in my chest, weak and hungry spells, bad dreams, could not lie on either side, was numb and suffered terribly. I took Dr. Miles' Heart Cure and before I finished the second bottle I felt its good effects, I feel now that I am fully recovered, and that Dr. Miles' Heart Cure saved my life."  
Dr. Miles' Heart Cure is sold on guarantee that first bottle benefits, or money refunded.
