TUESDAY, NOVEMBER 24, 1896.

It is a significant fact that Lord Salisbury did not make his surrender in the Venezuela matter until after the United States had elected a Republican President.

The Supreme Court of Indiana has made a decision which will be of very great importance to telephone subscribers. The court says a subscriber can permit his neighbor and as many other people as he desires, to use his telephone, and whether the company likes it or not. The suit on which the decision was made was one appealed from Columbus, Ind.

The local ice men are beginning to feel somewhat anxious in regard to the outlook for weather in this vicinity sufficiently frigid to enable them to fill their storehouses. That they should feel somewhat exercised on the subject is only natural, but there is an old proverb which is specially commended to their notice at this time, "Don't attempt to cross a bridge till you come to it."

The Republicans of West Virginia deserve special credit and congratulation. Of the fifty-five counties of the state they carried thirty-one, including nine that went for Cleveland in 1892, and the increased majorities in the Republican counties far exceed the increased majorities in the Democratic counties. This is a splendid victory, and it means that West Virginia has come into the Republican fold to stay.

The efforts of the Annunciation Literary Society to replace their present quarters with a more imposing and convenient edifice, should be encouraged by our people. For this purpose they will hold an entertainment and turkey supper on Thanksgiving evening, in their hall, and it goes without saying that the culinary as well as the literary part of the program will be well worth the price of admission. Besides, the aim of the society is one that should be encouraged in every way.

Our state militia are informed by Gen. Miles that in the event of a war they would have to be called out at once, as the regular army numbers only 25,000 men, while it should aggregate fully twice that number. While we do not feel very apprehensive in regard to a warlike invasion of our territory, we heartily approve of Gen. Miles' suggestion that the regular army should be increased to double its present size, and all needful measures adopted to enable the Government to successfully resist anything in the form of an invasion by an enemy.

The union Thanksgiving services to be held in the Methodist Episcopal church on Thursday morning will be of special interest and the attendance bids fair to exceed that of previous years. Rev. D. I. Evans, of the Welsh Baptist church, will deliver the sermon. The collection to be made in the interest of the Pottsville hospital is one worthy of popular support and encouragement. It is to be hoped that the donations will be worthy the cause for which they are to be made.

The differences between the Philadelphia & Reading Railway Company and the Little Schuylkill and East Mahanoy companies' have reached such a stage that the former will not likely lease the latter companies lines. Preparations are being made to handle their business by other routes on Monday next. It looks as if an amicable agreement had been entered into with the Pennsylvania R. R. and if the Little Schuylkill people do not recede from their position a great many changes in railroad affairs in the county will result. It is difficult to understand how the latter company can make their line pay without the Reading, as the latter owns all the coal mines upon which it formerly depended for business, and it looks like a foolish proceeding to refuse 5 per cent. dividends in these days when 5 per cent. is considered good return on money invested.

ARCHBISHOP IRELAND.

Archbishop Ireland has heretofore adhered firmly to his first decision not to speak of the repeated rumors, purporting to come from Rome, stating in one way or another that he was to be called to account for some of his views or actions. A reporter, however, succeeded in getting from him the following statement:

"In all the reports recently published as to my relations with the Vatican there is not one syllable of truth. Not one word has come to me from Rome indicating the smallest change in the kind feelings which the sovereign Pontiff and his immediate advisers have been pleased to entertain toward me. It is false to say that I have been summoned to Rome. I have not been asked to give an explanation of any act or any writing of mine. And certainly, if the sovereign Pontiff had desired to approve or blame me, he would have communicated his will to myself, instead of making it known through the gossip of newspaper reporters of Europe or of America.

"What may be the sources of the reports or the motives of the men who put these reports into circulation—whether the enemies be political or ecclesiastical—I do not know, nor do I care to inquire.

"The Roman paper quoted in this morning's dispatches is a bitter and malicious adversary of the Vatican, and surely can not be quoted as representing the views of the Pope. Whether the report published in this Roman paper originated in Rome or in America is a matter that need not be discussed at present. The absurdity of all these reports reached the climax when even Cardinal Gibbons was reported as likely to be disciplined by Rome."

To Abolish Overtime Expenses.

Washington, Nov. 24.—The system of allowing overtime claims of letter carriers throughout the country will be practically abolished soon. At the beginning of the present administration claims for extra compensation for overtime were accumulating at the rate of 70,000 hours a month. This source of expense has been steadily diminished, and the reports for October show that the amount for that month was only 181 hours for regular letter carriers and 137 hours for substitutes. The department regards the overtime in nine cases out of ten as unnecessary, and Assistant Postmaster General Jones says it will do away with overtime altogether save in rare cases.

Stabbed to Death by Robbers.

Hazleton, Pa., Nov. 24.—Mrs. Casper Laboy, of Nesquehoning, was stabbed to death and her husband badly cut by robbers, who had forced an entrance into their home. Laboy heard the robbers in the house and attacked one of them, who stabbed him in several places. Mrs. Laboy tried to reach the street to call for help, when she was met in the hallway by another thief, who stabbed her to death. The alarm was spread, but the men escaped. Three Hungarians are under arrest on suspicion, and there is strong evidence against them.

Bishop Keane May be Cardinal.

San Jose, Cal., Nov. 24.—Bishop John J. Keane, late rector of the Catholic university at Washington, left this city on Saturday afternoon for Rome, where he will pay his respects to the holy father in person. His friends are confident that he will be made a cardinal.

Eckard Must Hang Dec. 8.

Harrisburg, Nov. 24.—Governor Hastings has refused to further interfere with the sentence of Abram I. Eckard, of Wilkesbarre, the date of whose execution has been fixed for Dec. 8. Eckard has been granted three respites since last May in order that his counsel might present his case to the board of pardons on an application for a commutation of sentence to life imprisonment. The attorneys have never taken the case before the board. The governor received a letter yesterday from the attorneys asking for another respite in order that the case may be presented before the board Dec. 18. He declined to again stay the execution.

Killed by a Constable.

Scranton, Pa., Nov. 24.—John Kerychi, of Priceburg, was shot and killed yesterday by Max Koehler, a constable. The latter, accompanied by another constable and two citizens, went to Kerychi's house to serve a warrant on him for assault. Kerychi refused to come out whereupon Koehler forced open a window where Kerychi was standing and placing a revolver against Kerychi's abdomen fired. The wounded man died three hours later. Koehler was locked up.

Frank Slavin Again Defeated.

New York, Nov. 24.—"Bob" Armstrong, of Chicago, defeated Frank P. Slavin, of Australia, last night in the fourth round. They met for a twenty round go at catch weight before the Union Park Athletic club, and 2,500 persons went out to witness the go. They were third on the program and their appearance was delayed twenty-five minutes longer by Slavin insisting on payment of his percentage before entering the ring. He finally won and the fight began. It was sharp, short and decisive, Armstrong showing his superiority throughout. In the third round the men threw science aside and indulged in slugging. This was continued in the fourth round, when Armstrong pummeled Slavin so hard that the Australian threw up his hands.

(Continued from First Page.)

ville, and thence to Port Clinton and on to Philadelphia.

There will be no little rejoicing at Frackville to-night when the people of that place read the Herald and learn for the first time that their town is to be one of the destinations of the trains plying between Philadelphia and Williamsport and that an unexpected disagreement has suddenly transplanted their town to one of the main lines of the P. & R. system. But in the same measure that the people of Frackville rejoice will the people of Mahanoy City bemoan the course of human events, for in the event of the Frackville branch going into operation, their town will be practically side tracked.

In refusing the P. & R. company's offer of five per cent. the directors of the Little Schuylkill and East Mahanoy railroads evidently think they have a lead pipe cinch on the seven per cent. and a hip lock on the P. & R., but in this they are sadly mistaken for, with the possible exception of East Mahanoy Junction, the P. & R. company can reach every point it does under the agreement. In the first place Mahanoy City will not be cut out, nor will Buck Mountain. The East Mahanoy Railroad owns only one of the tracks from Buck Mountain to St Nicholas. The Mahanoy and Shamokin Railroad Company, which is a part of the P. & R. system, originally only extended its line to Mahanoy City, but the company has since extended the line all the way to Buck Mountain and its own line forms part of the double track system to that point, so that should the P. & R. Company be obliged to vacate the single track leased from the East Mahanoy Railroad Company it will still have a single track line to Mahanoy City and Buck Mountain, the latter point being the eastern terminus. In such an event the people of those places will probably receive service from trains to run between Mahanoy City and Ashland and Shamokin.

The only real difficulty to be experienced by the P. & R. will be in connecting with the Catawissa branch. The Little Schuylkill Railroad Company owns the line between Port Clinton and Tamaqua, via East Mahanoy Junction, and a failure in agreement will cut off the P. & R. company's service between Philadelphia and Milton over this branch. Still, in this event, the P. & R. company will have ample outlet for its freight service between Milton and Philadelphia, as it can connect with the Mauch Chunk branch of the Jersey Central at Tamaqua and all through freight can be carried over the Shamokin, Sunbury and Lewisburg road.

Should the Frackville branch become established the distance between Mahanoy Plane and Port Clinton will be shortened ten miles and the P. & R. will be able to reclaim some of the passenger traffic between this town and Pottsville, as the great circuit from Mahanoy Plane to Pottsville via East Mahanoy Junction and Tamaqua will be cut off and the walk from Mahanoy Plane to Frackville will be obviated by the connection at Boston Run, and possibly a connection between the Shenandoah City colliery and P. & R. tracks.

Another result of the failure of agreement will be that Tamaqua will become a terminus and people of that place desiring to go to Philadelphia over the P. & R. system will travel via Pottsville, instead of Port Clinton direct. It is possible that the Frackville branch will be left almost entirely to passenger traffic and that the greater part of the freight will pass over Gordon plane, which was practically abandoned several months ago, and the coal traffic can be amply cared for under existing conditions.

It will thus be seen that the P. & R. company is amply prepared to meet the directors of the Little Schuylkill and East Mahanoy railroads on a shut-out and it is believed that when the latter realize the resources of the former they will prefer to accept a reduction from the war-time agreement, rather than have their roads thrown back on their hands—roads which are hemmed in on all sides by the P. & R. system and can only be operated independently between Port Clinton and St. Nicholas on the one side and the former place and Tamaqua on the other, and with practically no point of importance between either.

Advices received from Philadelphia to-day state that a meeting of the companies interested will be held in that city to-morrow, and that the Little Schuylkill Navigation & Railroad Company is likely to accept the terms of the Reading's new owners.

ALMOST MAGICAL CONSTRUCTION.

Railroad Company is constructing from Boston Run to connect its line with the Pennsylvania Railroad on the south side of the valley is almost completed. The rails have been joined to the P. & R. main line and a trestle across the creek is nearly finished. The work is being pushed with remarkable rapidity and will be entirely completed before the close of the week.

Mahanoy City, Nov. 24.—W. W. Lewis, of this place, has received from J. C. Phillips, proprietor of the Hotel Brunswick at Mt. Carmel, a letter stating that Mr. Phillips is a brother of Mrs. Louisa Benjamin, at Philadelphia, whose death was announced by letters in the newspapers of this town and Shenandoah, and in which information of friends of the deceased was asked. Mr. Phillips also says in the letter that he has claimed the body and made arrangements for interment. He thanks the newspapers for their publication of the letter asking for information, as it was through the publication that his attention was drawn to the case and he is enabled to pay a final tribute to a sister from whom he had been separated for many years.

No case of diphtheria was ever known where this medicine was used according to directions and failed to cure. Croup, hoarseness, quinsy, sore throat, etc., are equally removed by it. BRUTAL TREATMENT OF INSANE

One Inmate of Vermont's Asylum Dies from Injuries Inflicted.

Montpelier, Nov. 24.—The special committee which was appointed some time ago to investigate the management of the state institutions for the insane at Waterbury made its report to the legislature yesterday. It severely scores the state supervisors of the insane, Dr. W. H. Giddings, superintendent of the asylum, and others. The report declares that an inmate named Fitzsimmons died from injuries received in an assault committed by an attendant, though Bright's disease was given as a cause of death. The food furnished was insufficient in quantity and inferior in quality. The report finds that Dr. Giddings himself strapped and choked patients, and that patients were kept in a nude condition in rooms barren of furniture and having cement floors. These patients were allowed no rugs, and the rooms, the report charges, were unheated in cold weather.

A Grievance Against His Native Land.

Chicago, Nov. 24.—Street Foreman Antonio Constantino, a naturalized American, called on United States Commissioner Foote yesterday to learn whether his passport protected his wife and children in Italy. About three months ago Constantino visited Italy, his native land, taking with him his family. There he was impressed into the army, the authorities refusing to recognize his passports or naturalization papers. He was granted a furlough and immediately returned to America, leaving his family behind. He was told by the commissioner that his passport protected him from imprisonment in the Italian army, and he will endeavor to have the department of state investigate the matter.

Thieving Banker Admits His Guilt.

Chicago, Nov. 24.—Ex-Banker Anthony Kozol, who failed last May for over $100,000, admitted yesterday that he was guilty of crime in the handling of the bank's funds, and was surrendered by his bondsmen. He stated that he had decided to abandon any legal fight and to accept his punishment. It has been arranged that he plead guilty to larceny, and be sent to the penitentiary. He is the first banker in the state to be sent to prison for misusing funds entrusted to his care. Kozol's bank was patronized principally by workingmen and small tradesmen, who lost everything.

To Prosecute American Sportsmen.

The charge for a conditional license to shoot deer in the province is $2 for residents of the Dominion and $20 for outsiders. Several sportsmen from across the line represented themselves to the game wardens as Canadians, thereby securing their licenses for $2. The authorities will prosecute all of them to the full extent of the law.

So far as known those drowned are as follows: O. W. Scott, first assistant engineer; C. H. Condon, second assistant engineer; H. Prendergast, fireman; John H. Sheridan, mess boy; four seamen, names unknown.

The old lady was right when she said, the child might die if they waited for the doctor. She saved the little one's life with a few doses of One Minute Cough Cure. She had used it for croup before. C. H. Hagenbuch.

Mayor Hooper's Victory Complete.

Baltimore, Nov. 24.—The city council "combine" surrendered, and last night confirmed the appointments to municipal office made by Mayor Hooper last winter. These are the appointments which were "held up" so long without action, and which caused the council to pass an ordinance depriving the mayor of the appointing power. The decision of the court of appeals, rendered last week, declaring that the council had transcended its power doubtless served to bring the matter to a close.

Scaly eruptions of the head, chapped hands and lips, cuts, bruises, scalds, burns are quickly cured by DeWitt's Witch Hazel Salve. It is at present the article most used for piles, and it always cures them. C. H. Hagenbuch.

Suit Against Secretary Francis.

Washington, Nov. 24.—George S. Hodgins, of Windsor, Ont., yesterday sued David R. Francis, secretary of the interior, for writ of mandamus. He represents that on March 26, 1894, he filed in the patent office an application for a patent for a method of testing the railway airbrake and signal systems, and apparatus for carrying out the method. He claims the invention is worth $10,000 to him. Hodgins asserts that his attempts at appeal from the decision of the primary examiner rejecting his claims have been refused, and he now wants the secretary commanded to direct the commissioner of patents to perfect the appeal to the board of examiners in chief.
