WEDNESDAY, NOVEMBER 25, 1896.

A New York court has ruled that a young woman who sues to recover damages for a sprained ankle need not show it to the jury. The emancipation of the sex goes on in spite of all hindering influences.

WHILE in attendance at the Union Thanksgiving services to-morrow do not overlook the worthy object for which a collection is to be made. Give of your worldly goods and your reward will be in the world beyond.

EX-GOV. FLOWER, whose reputation in the Chicago convention of "New York declines to vote" was one of the dramatic incidents of that wild gathering, says to the wanderers from the old Democratic faith: "If you ever take up those doctrines again; if you stand on the Chicago platform in other campaigns, we will again defeat you." The sound money Democrats will wipe up the earth with Populists if the latter want another round.

ISN'T it about time that the Hon. Samuel A. Losh, Senator-elect from the 30th dist. had again subjected himself to a newspaper interview on the United States Senatorship. The last one was made last week, and the reporters are only waiting the tip to herald the news as to where Sam stands on this momentous question. It is true the "dicks" are flying high, but our good-natured friend from Schuylkill Haven has always had a propensity for reaching skyward and getting in out of the wet.

CONTROLLER SEVERN is justly proud of his newly furnished quarters at the court house, and he can now receive his friends in one of the most comfortable offices on the hill. A new steel vault has been placed in position, handsomely painted, stained and varnished. The floor is covered with body brussels carpet to conform with the furniture. The Controller has also a roll-top desk of antique oak, furnished by Shenandoah's old and reliable firm, Williams & Son, who carry no inferior stock in their line of goods. We congratulate the Controller upon his new quarters.

If the government reports of various countries are to be credited, there is no single disease more generally prevalent or which works such frightful ravages among the human race as consumption. The census figures for 1890 show that in the previous year 192,190 persons died of consumption in the United States and 76,496 of pneumonia. In some parts of Europe the pulmonary diseases are far more common and deadly than in the United States. In Great Britain alone, the approximate ratio of consumption was 1100 in 10,000 deaths in France, 1120; in Germany, 1273; in Russia, 1699; in Italy, 993; in Switzerland, 1110; in Belgium, 1829; in the Netherlands, 937, and Scandinavia, 1323 in 10,000 deaths. The enormous death rate from consumption in Russia is unquestionably due not only to the lengthy winters and bitter cold which compel long indoor residence, but also to the filthy habits of the people, sanitation among the Russian peasantry being an unknown art. Appleton says it is probable that not less than 85,000,000 of the human race die every year of consumption.

QUAY IS FOR PENROSE.

A great deal of interest is being occasioned by the contest for United States Senator to succeed J. Donald Cameron, especially among the politicians of the state. The contest is regarded as one between the friends of Senator Quay and the followers of the Combe, led by David Martin and Chris. Magee. In fact, the lines will be drawn as closely as was the case in the now famous battle for state-chairman, in which the friends of the Junior Senator came out victorious.

While Senator Quay has so far refrained from public announcement as to which of the several candidates he favors for Senator, it is believed that his preference is for Penrose, the brilliant and brainy young leader of Philadelphia. There is no reason why he should be for either of the other candidates. In an interview yesterday Senator Quay emphatically said, "I am not for John Wamaker for Senator."

There is a rumor to the effect that Senator Quay will be tendered the navy portfolio in President McKinley's cabinet, and if he accepts the same that may pave the way for Governor Hastings reaching the United States Senate. In that event Quay's faithful friend and trusted lieutenant, Lieutenant Governor Walter Lyon, would step into Hastings's shoes. The latter has no claims upon the Junior Senator, for it will be remembered that the Governor joined forces with the Combe a year and a half ago. It is true that Hastings is now an ardent supporter of the Beaver standard, but there is no likelihood of the "Old Man" deserting a true and trusted lieutenant for any new convert. In fact, the Governor has not yet declared that he is a candidate, and is probably waiting for the lightning to strike him.

The Quay adherents in Schuylkill county are for Penrose for United States Senator. This county is no exception in this respect, as the same state of affairs exists in other parts of the state, and especially in Philadelphia. The latter city is graciously acknowledged to be entitled to the Senatorship, and among the names so far mentioned from that Gibraltar Republicanism name have met with more than that of Boles Penrose. He has high distinction in the State Senate,

where he has shown the highest traits of a leader and statesman. His selection would be especially pleasing to the young Republicans of Pennsylvania, and would be proof positive that the party recognizes ability, courage and statesmanship. Mr. Penrose is justly entitled to the preference for the work he has done in behalf of Republican success, and there is not much doubt but that he will succeed Don Cameron. Everything points in that direction.

News Which is Good News.

It pays everyone to follow the thousands who are accepting that remarkable free offer of Dr. Greene, of 35 West 14th St., New York City, the most successful specialist in curing nervous and chronic diseases. He has established a system of free letter consultation to tell the sick and suffering everywhere just what their trouble is and how to get well. All you need to do is to write him a letter, telling him your symptoms and how you feel. He will answer it, explaining your case minutely, and giving all possible information. And for all this he charges nothing. It is the best opportunity you ever had to consult the highest authority, without leaving your home, and without paying any fee.

He gives such careful attention to every letter, that you understand instantly just what ails you. It was the same successful physician who discovered that remarkable medicine, Dr. Greene's Nervine, blood and nerve remedy. Eczema ON BABY

Grew Worse under Treatment of Best Physicians, Tried

CUTICURA REMEDIES

Great Change in Five Days and To-day is Entirely Cured.

My baby had Eczema in its worst form. One of the best physicians in the city attended her, but she continued to get worse all the time. He finally admitted he was at his wit's end. I then got CUTICURA REMEDIES, and in a few days noticed a great change in her condition. She continued to improve and today is entirely cured, has nice blond hair, and is lively and hearty. I spent considerable money for drugs and doctor's bills, which was useless. J. B. JACOBS, 3031 Wilkins Ave., Balt., Md.

NEVER USE CUTICURA.—Warm baths with Cuticura are the only application of Cuticura to the skin. The great aim here, and most doses of CUTICURA REMEDIES, is to get the blood pure. "How to Cure Every Skin Disease," mailed free.

The secretary was instructed to write to the secretary of the Board of Health of Tamaqua, Pottsville, Shenandoah, Girardville and Ashland for information bearing on the subject.

Electric Bitters. Electric Bitters is a medicine suited for any season, but perhaps more generally needed in the spring, when the languid exhausted feeling prevails when the liver is torpid and sluggish and the need of a tonic and alterative is felt. A prompt use of this medicine has often averted long and perhaps fatal bilious fevers. No medicine will act more surely in counteracting and freeing the system from the malarial poison. Headache, Indigestion, Constipation, Dizziness yield to Electric Bitters. Only fifty cents per bottle at A. Wasley's drug store.

Marvelous Results. From a letter written by Rev. J. Gunderman, of Diamond, Mich., we are permitted to make this extract: "I have no hesitation in recommending Dr. King's New Discovery, as the results were almost marvelous in the case of my wife. While I was pastor of the Baptist church at Rives Junction she was brought down with Pneumonia succeeding La Grippe. Terrible paroxysms of coughing would last hours with little interruption and it seemed as if she could not survive them. A friend recommended Dr. King's New Discovery; it was quick in its work and highly satisfactory in results." Trial bottles free at A. Wasley's drug store. Regular size 50c and \$1.00.

ANARCHISTS' COURT MARTIAL.

Twenty-eight May be Executed and Fifty-six Get Life Imprisonment.

BARCELONA, Nov. 25.—The attorney general, who is personally conducting the prosecution of the prisoners who are under arrest for connection with the throwing of a bomb in a crowded street while a religious procession was passing on June 7 last, has announced that he will ask the court that twenty-eight of the prisoners be sentenced to death and fifty-six condemned to penal servitude for life. Great precautions will be taken against disorder when the sentences are published.

The court will sit in the vault of the fortress of Mons Juteh, and only military officers will be admitted to its proceedings.

The crime for which the prisoners are to answer to a military court was one of the most fiendish of the many similar outrages committed by anarchists within the last few years. The usual religious observances of the feast of Corpus Christi were being observed, and thousands of people lined the streets to witness the procession on its way to the ancient church of Santa Maria del Mar. Just as the procession was entering the church a bomb was exploded in the crowd, killing a dozen persons outright and wounding about fifty others, some of whom died from their injuries.

Southern Railroad Enterprise. LOUISVILLE, Nov. 25.—A smashing blow to old traditions was delivered yesterday by the Louisville and Nashville railroad and the Plant system. It came in the form of an order for changes to commence to-day, which meant the upsetting of existing passenger train regulations and methods clear across the United States, from the southeast border to the great lakes and the Missouri river. The net result is something never before accomplished or even attempted in the railway service. One of the central ideas is to put St. Louis and Chicago within less than forty-eight hours of Tampa, Fla.

THEY RIDICULE IT. Many People Ridicule the Idea of an Absolute Cure for Dyspepsia and Stomach Troubles.

Ridicule, However, is Not Argument, and Facts are Stubborn Things.

Stomach troubles are so common and in many cases so obstinate to cure that people are apt to look with suspicion on any remedy claiming to
