

People shudder at the tales of Monte Carlo suicides, but look on with perfect equanimity while friends and loved ones commit just as certain suicide by neglecting their health. Triling disorders of the diagestion persistently neglected lead to impurity of the blood, the tissues of the body are imperfectly nourished, and emaciation and debility follow. In the case of that dread disease, consumption, imperfectly nourished tissue is built up in the lungs, forming a suitable soil for the germs of that deadly disease. One-seventh of all the deaths each year are due to consumption. This fearful death rate could be easily avoided if the proper remedy was tesorted to.

A sure preventive and cure of consump-tion is found in Dr. Pierre's Golden Med-ical Discovery. It cures of per cent. of all cases. It corrects all disorders of digestion, cases. It corrects all disorders of digestion, invigorates the liver, and makes the blood pure and plentiful. It is the great blood-maker, flesh-builder, and nerve invigorator. It gets into the blood and acts directly upon the lungs, building up healthy tissue and driving out all impurities and disease germs. Thousands have testified to its wonderful merits. Druggists sell it.

"I feel that I must write you telling you of the great benefits derived from the use of your Golden Medical Discovery," writes Miss Laura Plerset, of flast Bethehem, Washington Co. Fa. "Last summer my friends thought I was surely going into consumption, and having tried doctors before with no satisfactory results and hearing your medicine so highly spoken of, I took one bottle. My cough left me altogether with all the distressing symptoms, and in fact the cure seemed almost miraculous to all who saw me. I cannot say enough in praise of the medicine, and have done much to induce others to use it."

CONSUL LEE'S REPORT.

It Will Not be Favorable to the Spanish Contentions.

THE NECESSITY FOR ACTION

On the Part of Our Government, in the Interest of Humanity-Non-Combatants Are Made the Sufferers, Being Abused by Both Sides.

Washington, Dec. 3.—Reports were in quite general circulation here today to the effect that Secretary Olney, some time in November, had given the Spanish govern-ment courteously but firmly to understand that the Cuban rebellion must be crushed within three months or the United States would be compelled to intervene to stop hostilities. It was said that promi-ment Bepublican senators had been Informed of this ultimatum. No confirmation of the reports could be obtained in ficial circles here, and it was denied that Spain had been informed of any such ulti-matum, but it is expected that the president will take early occasion to send to congress the report Consul General Lec has submitted to the secretary of state on

the result of his observations in Cuba.

A prominent member of the senate cor mittee on foreign relations said today that mittee on foreign relations said today that it would not be possible for the president to send a pro-Spanish message to congress, in view of the report which Consul General Lee had made to Secretary Olney. Speaking generally of the views of General Lee the senator said that they were well enough known to make it clear that his report would not be forecastly to the Scorpish. would not be favorable to the Spanish contentions. It is known that the report which General Lee made presents a very grave, not to say horrifying condition of affairs in Cuba. One of the conditions he describes is that of the situation of the home secretary. Sir Mathew White Riddey. Doctor Jameson underwent a non-combatants, peaceable citizens, who have no interest in the war except to see

These people, whether within the Spanish lines or the Cuban lines, are sufferers.

If within the Cuban lines they plant their scops in order to obtain a living, only to African republic. crops in order to obtain a living, only to have their territory raided and occupied by the Spanish forces, who immediately destroy the crops, burn the houses and other property of the planters, and upon the slightest pretext, it is alleged, put the men to death or imprison them on the ground that they have been aiding the rebellion. In fact, it is regarded as aiding the Cubans if crops are raised which they might obtain. Non-combatants within Spanish territory, when occupied by the Gubans, are given like treatment on the ground that they sympathize with Spain.

The Discovery Saved His Life.

Mr. G. Caillouette, Druggist, Beaversville, Ill., says: "To br. King's New Discovery in the direct way and tried all the physicians for miles about, but of no avail and was given up and told I could not like. Having In. King's New Discovery in my store I sent for a bottle and began the unit like and from the first dose began to get better, and afterusing three bottles was up anniabout again. It is worth its weight in gold. We won't keep store or house without it." Get after the planters with Spain.

The report of General Lee, besides show-

The report of General Lee, besides show-ing what difficulties the non-combatants have to contend with in the matter of securing enough food to sustain life, also points out how they are often hurried to prisons and condemned without trial. It is known that General Lee's report shows that cruelty is practiced on both sides, but it is said that more cases have come to his knowledge of wrongs on the part of the Spanish.

ate committee on foreign relations said that the conditions in Cuba were such that intervention by the United States in the cause of humanity was demanded, and he had no doubt that congress would early take a stand in the matter.

Representative McCreary, of Kentucky, the leading Democratic member of the foreign affairs committee, who returned to the city yesterday, said he was in favor of the independence of Cuba. He thought there should first be friendly intervention with a view to bringing about peace, but if that should not cause hostilities to cease civilization and humanity would justify steps being taken looking to according belligerent rights to the insurgents or recognizing their independence.

Vice President and Mrs. Stevenson and the city yesterday. Concerning the Cuban question, Mr. Stevenson said he did not know what action was contemplated. There is, he said, a very strong feeling in the country in favor of independence. The sympathies of the great mass of people of the United States, in his judgment, were with the Cubans.

orer, living at N 1916 North Fifty-third street, were burned to death yesterday afternoon. They were: Joseph, aged 6 years; Rosa, 4 years: John, 2 years, and Louis, 1 year. Mrs. Bartco-Syears, and Louis, 1 years, years, younger, some of the house, left the three younger children in charge of Joseph, placing all four in the kitchen, and locking the doors. It is supposed they set fire to the house while playing. The building was a small one story frame affair, and in a sparsely settled district. All of the bodies were found in the ruins badly charred.

Merchant Murdered by Tramps,

GREENCASTLE, Ind., Dec. 3 — William E. Counts, 40 years old, a druggist and expostmaster at Reelsville, nine miles west of here, was killed Tuesday night by tramps. Counts and his clerk were just closing their general store when he was met at the door by two men, who ordered then to throw up their hands. The clerk did so and was relieved of his valuables. Counts resisted, and in the fight that fol-lowed he was shot in the left eye. The robters are still at large. Counts was one of the most prominent men in the county.

New Jersey's Divorce Law Void.

Thereon, Dec. 3.—Justice Barkalow has filed an opinion in the court of errors and appeals declaring the divorce law of 1861 inconstitutional. The opinion states that a law permitting a limited divorce at-tended by special consequences with re-gard to property rights on the application of a person holding scruples against abso-lute, and not otherwise, is contrary to the spirit of the constitution of the state and the United States. The opinion is in the suit of Middleton versus Middleton, of

"Excuss me," observed the man in spectacles, "but I am a surgeon, and that is not where the liver is." "Nover you mind where his liver is," reterted the other. PAYING FOR APPOINTMENTS.

Bigh Prices Demanded for "Positions" as Street Cleaners.

New York, Dec. 3.—Guiseppe Gentilesco and Vito Carbo, Italian street sweepers, have filed with Mayor Strong lengthy have filed with Mayor Strong lengthy affliavits alloging the payment of money for appointment as sweepers, and the pay-ment of additional sums in order to main-tain their places. Gentilesco claims to have paid a foreman \$85 for getting appointed. Another foreman who came into charge of the district shortly afterward. Gentilesco says, intimated that the man should pay \$5 more, and when the swe did not do this he was discharged. attorney representing the complainants told the mayor that the payment of \$30, \$50 and \$50 for positions was common.

The sweepers making the charges told the mayor that sweepers were every day paying foremen bribes to be taken off the eligible list and given permanent em-ployment. This was so common, they said, that nobody could get off the eligible list without paying the foreman. Gen-tilesco said that he was to have paid \$10 for promotion. He paid \$35, and when he did not come up with the other \$5 in time he was discharged. 'The sweepers' attorney said that all the facts in the case had been laid before Colonel Waring, but the commissioner had taken no action. Com-missioner Waring will be called upon by the mayor to investigate.

TOWN ENDANGERED.

The Flood That Threatens Disaster to Chippewa Falls.

THE GREAT GORGE STILL INTACT.

The Citizens Panic Stricken, and Men Bush Back and Forth with Blanched Faces. Developments of the Next Twenty-four Hours Anxiously Awaited.

CHIPPEWA FALLS, Wis., Dec. 8 .- The situation in Chippewa Falls is more hopeful. The water has receded about six inches at midnight, and it is believed that It may not rise higher, although the city has twice been deceived within the post forty-eight hours, by exactly the same con ditions. Tuesday night the water reached eight inches between the hours of 8 and 13, but after that hour it came up rapidly until it had gone eight feet above its former high water mark

The garge in the channel of the river has been added to, and it now seems a veritable mountain which tons of dynamits cannot affect. If the water succeeds in cutting a passage benoath this immense mass of frozen snow and ice a further rise may not be expected, but it is doubtful if a sufficient volume can find its way under it to save the city from further destruc-tion. At 6 o'clock last night an immense tion. At 6 o'clock last night an immense amount of anchor ice piled up in the river at the foot of Bridge street, indicating that the gorge had anchored on the bottom, and that the water was no longer finding its way beneath. The fact that the river had fallen fifteen in we at Eau Claire seamed to warrant this belief, but nevertheless the water did not continue to rive in this circulate that have I is not be rise in this city after that hour. It may be possible that the water found another means of passage down the river, but the citizens will not feel absolutely safe until it has been demonstrated by several day that the river has reached its maximum

The situation here is interesting in the extreme. The city is panic stricken, and men with blanched faces rush back and forth scarcely conscious of their actions. Wild reports reach town of the havoc wrought by floods, and a terrible catastrophe may overtake the city at any mo-

The river's course is serlously obstructed by the gorge, which has now reached to within a short distance of the dam, and the probable turning of the course of the stream upon the city seems so plansible that every one has become even more panic stricken. The higher portions of the city are fairly congested with the enormous amount of material that has been stored there for safety.

It is thought the flood may have spent its force in the outlying districts, but the

critical condition here continues to excite fear, and the developments of the next twenty-four hours will be anxiously awnited.

I had severe attacks of gravel and kidney I and severe attacks of graves and kinney trouble; and unable to get a medicine or doctor to cure me until I used Hop Ritters, and they cured me in a short time.—A DISTINGUISHED LAWYER OF WAYNE CO.,

COLORLESS AND COLD.-A young girl deeply regretted that she was so colorles and cold. Her face was too white, and her hands and feet felt as though the blood did not circulate. After one bottle of Hop Bitters had been taken she was the rosiest and healthiest girl in the town, with a vivacity and cheerfulness of mind gratifying Beer and Porter to her friends.

Delaware's Constitutional Convention. DOVER, Dec. 3.—The constitutional con

vention met again yesterday, and after transacting some unimportant business and appointing a few committees ad-journed to meet again on Monday. A committee was appointed to invite the governor, secretary of state and judiciary to the floor of the convention. A motion to appoint a special committee to take into consideration the advisability of making provision in the constitution for an agri-cultural department was laid on the table.

On the Verge of Starvation.

MONROE, La., Dec. 3.—A meeting of citizens of the Tenth, Eighth and Ninth zens of the Tenth, Eighth and Ninth wards was held near Mount Vernon church, Ouchita parish, to consider the condition of the people in that section, some of whom are absolutely on the verge of starvation. It was found that there was forty families who were entirely destinte, having neither bread nor meat. After a consulation, Mr. E. Eudicar, as president of the roller intry took the represident of the police jury took the re-sponsibility of buying meat and meal for the forty families. This, it is thought, will bridge them over until the relief from
