womanly woman knows this and would sacrifice all the diamonds of all the nations for

Thousands of women lead childless, loveless lives because of ill-health. They do not
understand the duties that they owe to them
selves. They neglect the most delicate and
important parts of woman's organism. They
suffer untold agonies from weakness and discase of the organs that make motherhood
possible, and never know the thrilling touch

Is this they are mistaken. Dr. Pierce's Favorite Prescription is a sure, safe, swift cure for all weakness and disease of the organs distinctly feminine. It acts directly and only on these organs. It prepares a woman for motherhood. It allays all discomfort during the expectant period. It insures the baby's health and makes its coming easy and almost painless. fully Seven Thousand Insurgents New En camped in Havana Province, Only Twenty Miles from Havana-A Movement on Foot to Capture Weyler.

KEY WEST, Fla., Doc. 7 .- The steamer Whitney brought Havana news yesterday in relation to Maceo and Weyler. Pas-sengers state that Weyler himself is now encamped ten miles from Artemisa, and his army is scattered along the trocha and through the Pinar Del Mo district. When Macco retreated from Weyler in his first campaign his plan was to surprise Weyler at the first opportunity, and now Macco has his army on either side of Weyler, and they are having daily skirmishes. Weyler is completely hommed in, and if he shall attempt to move he will be compelled to

go to Artemisa Small bands have crossed the trocha into Havana districts, and are attacking the outposts and villages of that district. Insurgents numbering 7,000 are encamped in Havana pro*since, twenty miles from Havana, and will go to Maceo's assistance when needed. Sples in Havana are keeping the Insurgents posted as to the move-ment of the Spanish troops. A movement is on foot to capture Weyler if he shall at-tempt to go to Havana by rail. Firemen and volunteers in Havana are being sont

and volunteers in Havana are being sent to Weyler's relief. Heretofore these troops were used in the defense of the city. Since last Tuesday's raid on Guanabacoa the city has been attacked almost every night, and Thursday night 250 Cuban cavalry rode for two hours through the city. The damage done amounts to thirty-six houses burned and a large quantity of simplies and amounting solved, also a supplies and ammunition seized, also a large number of mules loaded and ready

to leave the city were taken.

In Tuesday's raid the insurgents captured a large number of American pack mules and a dozen horses, all ready to go mules and a dozen horses, an ready to the assistance of Weyler, a large number of saddles and provisions and munitions of war. The attacking party rode into the city and took charge. The company of the into he city and took charge. The com-mander has been severely reprimanded for his feeble resistance. Hundreds of fami-lies haves left Guanabacoa for Havana.

Another dispatch says: Yesterday's Ha-vana advices report an excited conflict of opinion there as to whether the forcing of the trocha by the Cubans on Saturday was by guerilla bands or by the vanguard was by guerilla bands or by the vanguard of Macco's army, in a movement to unite with Gomez. Spaniards have given no definite news from the front for a week, and at the same time have redoubled their consorship of the press.

Sharp firing was heard again yesterday in Havana from the neighborhood of Guanabacoa and other suburbs of that section, and all Havana is excited over

section, and all Havana is excited over the occurrence. Over 500 refugees have passed into the city during the past five days from that section, fearing for their lives during the fights between the sol-

diers and insurgents.

Nearly all of the Havana volunteers have gone to the front, but as fast as they rout the guerillas in one place they en-counter thom in another, making a suc-cession of running fights, all within five or ton miles of the city. About a hundred soldiers have been killed or wounded so far in these engagements.

Bosron, Dec. 7.—A strong odor of gas, noticed by a passerby at a house in the Roxbury district, led to an investigation, which revealed the fact that the inmates of the house, three in number, had been killed by the furnes, while in the adjoin-ing house four persons were found in an unconscious condition, one being more seriously affected than the others. The Fight for Senator.

From Taggarts' Times (Philadelphia).
The blunt and positive declaration made The bitunt and positive declaration made by Senator Quay that he is not in favor of the election of John Wanamakor to the senate dispels any little doubt that may have lingered upon the point and places the contestants fairly in the field. the result.

Just look at the elements which make up Wanamaker's support. First of all there is his money, which according to report is being used in the most lavish manner. Apart from that, what is there?

The subshitzed and buildozed daily newspapers of Philadelphia and New York, but for reasons which we have al-

ready given, their influence doesn't amount to much. The people are on to them, and they well understand that it is the Wanamaker advertisements that talk. Besides it is a curious and significant thing that while the daily papers print yards of sick-ening slush in their local news columns about Wanamaker's virtues, slush sent out by the Wanamaker literary bureau none of them support him editorially They don't oppose aim as they would like to do, because they have nothing more than is expressly ordered to say in his

Last week these speculative "business men" gave it out that Quay was likely to men' gave it out that Quay was likely to be ignored in the disposal of the federal patronage of the state. Tours to California.

California has been most fittingly termed the "Italy of America." All the delicious balm, the cloudless sky, and the rich verdure of the great European peninsula are duplicated in this sunny land of the Pacific, Here nature basks in the sunshine of her own Here nature basks in the sunshine of her own beauty; and here she has established her own sanitarium, where eternal spring in-spires everlasting youth. With the snow-mantled peales of the Sierras upon the one hand, the calin Pacitic with its noft breezes upon the other, and a veritable paradise of flowers, fruits and plants between, man can feed and needs as localized hand. To visit find and needs no lovelier land. To visit such a country is a privilege, a blessing.

The Pennsylvania Ratiroad Company, recognizing the need of a more comfortable and pleasant way of crossing the continent, inaugurated a series of annual tours to Cali-fornia, running a through train of Pullman palace cars from New York to the Pacific Coast, and stopping at the principal points of interest en route. Chin Fee, the editor of the Chinese News in this city. China is on the eve of an up-heaved such as is now going on in Caba. He was shown the reports in the cables from Lendon to the effect that Sung Yat from Lendon to the effect that Sung Vat Sen, the Chinaman who was kidenped in London and only released from the Chinese embassy at the specific demand of Lord Salisbury, was a member of a sonery having for its object the liberation of Chinafrom its present dynasty.

He said that the report was true, and that he would have perferred to have kept the story see it for some time longer, but as it is out he wishes to confirm it in every particular. The glat of his statement is that there is in the Flowery Kingdom a society called Hing Chun Weer, which is allied to the Liberty League of American-lean Chinamen in this country, and to a similar or sinization in England. similar or anization in England. He said that the object of the organization was to do away with the exclusiveness of the Chinese kingdom and open it to mod-ern civilization. The present dynasty, according to him, will be asked to get out, and if it refu ea it will be put out. Only peaceable methods will at first be employed, but if these are not successful, then an appeal will be made to arms, and Eugland and the United States will be asked to recognize the reform party as bulligeronts.
Wong Chin Foo said that the reason

that Sung Yet Son was kidnapped by the Chinese embassy in London was solely because he was known to be a member of the reform party, and that if the Chinese government had succeeded in getting him government and succeeded in getting and to China his head would have been cut off at once. The reform movement is sched-uled to begin active operations in the very near future.

TO ESTABLISH A REPUBLIC. That Is the Object of the Chinese Progressive Society.

New York, Dec. 7.—Inquiries made among the Chinese in this city by a repre-sentative of the Associated Press estab-lished the fact that the "Hing Chung Wooy," which in plain English means "Chinese Progressive society," has a large and goodly increasing membership both and rapidly increasing membership, both

in this country and China.

Prominent Chinamen here, when first approached by the reporter were very re-ticent, but when they were assured that their names would not be made public their names would not be made public they consented to talk about the matter. Several of them acknowledged that there was such a society in existence, but not one of them would say that he was a mem-ber. As to the purport of the pregnitization, it was generally conceded that the Chinese subjects were dissatisfied with the ruling of the presence and they were companied.

of the emperor, and they were cognizant of no other way to overthrow the emperor's power than by secret means. None of those questioned would acknowledge that the headquarters of the society existed in this country, but one or two inadvertently spoke of leaders in San Francisco and New York. One of the best known Chinese merchants in this city said Sold by Druggists, or sent prepaid on receipt of price, 25c., or 5 for \$1.

DR. HUMPHREYS' HOMEOFATHIC MANUAL the substitution of a republican form of government. He said that the organization was more successful in point of num bers of cuthusiasts than the most sanguine anticipations of the leaders had looked for, and he claimed that in the United States alone its authorents could be numbered with six figures.

One more bold than the others volunteered this statement: "I cannot," he said, "disclose anything with reference to the work of the organization, but when the time comes to strike a blow for the overthrow of the present dynasty and the formation of a republic, on American lines, the system of government now ex-string in China will receive a severe-shock, and I think we will win. Were I in China my head would pay the penalty for these words. But I think I have said enough just now to give you an idea of how far reaching our society's work has gone. Like all secret bodies we have to be reti cent, and while our work is being carried on with a great deal of secreey, we have no fear of its ultimate success."
