BANDITS IN ST. LOUIS.

An Express Train Held Up Within the City Limits.

THE ROBBERS SECURED NO BOOTY.

The Work Done by Six Masked Men, Who Quickly Disappeared After Their Unsuccessful Effort, Leaving No Clue to Their Identity.

St. Louis, Dec. 10.—The Iron Mountain fast express train, out going, was held up one mile from the Union station, within the city limits last night at 9:30 by six masked men. The express safe could not be opened, and the bandits fled without booty.

One of the men stood in the center of the track and waved a red lantern, signifying that danger was ahead. The engineer stopped the train, and no sooner had he done so than two masked men jumped on the engine cab, and presenting revolvers told him to hold the engine still on pain of death. Two of the other robbers made for the express car, while the remaining two stood guard outside.

The two robbers who went to the express car demanded admittance, but Express Messenger W. J. Egan refused to let them in. They threatened to kill him if he did not, and this threat failing they placed a stick of dynamite at the car door and blew it to pieces, badly shattering one side of the car. Fortunately it was a through car, and the money was in a time locked safe. Finding their efforts useless to blow open the safe, the robbers jumped from the car and notified their companions on the engine that they had failed to secure anything. Conductor William Hall came forward to learn what had occurred. He was met by one of the thieves, who, pointing a revolver at his head, ordered him to go to the rear of the train. The robbers then left, and Engineer William Green started on.

As the train pulled away Express Messenger Egan came to the shattered door of his car intending to shoot at the rascals. No sooner did they see him, however, than they opened fire and he fled behind a pile of boxes. The noise of the shooting attracted the clerks in the mail car, and they opened the doors and a perfect fusillade followed.

The place where the robbery occurred was at Bates street crossing. There is a deep cut there and the noise of the exploding dynamite was smothered by the cliffs at each side of the track.

The passengers on the train were in no way disturbed, and it was half an hour before any of them realized what had happened.

In less than fifteen minutes the whole thing was over, and the conductor hastened to the nearest telephone and notified the police. As soon as the matter was reported every detective on hand was called into service and sent out on the cars. The conductor telephoned in a description of the men as near as he could, but owing to the fact that they all wore masks it was but meagre.

Word was sent to every police officer on duty in the city to be on the lookout for suspicious characters. Officers out duty were called in and sent out to search every tough resort in the city, where thieves are known to hang out.

The robbers had planned well the job, for within two minutes they had disappeared from view and were lost in the crowds of the city. For boldness, the robbery has no equal in the annals of train holdups in Missouri. It is believed by the police, that the three men who recently entered the office of the Home Brewing company in broad daylight, bound and gagged the employes and got away with \$1,000 were the leaders in this job.

A Submarine Electric Boat.

BALTIMORE, Dec. 10.—The Columbian Iron works, of this city, has contracted to build by March 1 next a submarine wrecking boat according to the plans of Mr. Simon Lake, a Baltimore inventor. This new boat will be the first submarine boat ever built for practical submarine engineering work. It will be used principally for searching the bed of the ocean adjacent to coastlines, and in locating and recovering sunken vessels and their cargoes. The boat will have a crew of six men. She will, Mr. Lake claims, be able to cruise around on the bottom for a day at a time before it will be necessary to ascend to the surface to renew the air supply and electrical energy.

THE SENATORIAL CONTEST.

Penrose Has Twenty of the Thirty-Eight Members from Philadelphia.

The contest for United States Senator, to succeed J. Donald Cameron, is assuming a phase in some quarters that is not pleasing to the friends of Wanamaker. The two leading candidates reside in Philadelphia, to which city is conceded the Senatorial plian. Recent events go to show very clearly that the people of that city do not favor the merchant prince, if one be allowed to judge from the preferences as expressed by the members of the Legislature from that city.

Twenty out of the thirty-eight state representatives from Philadelphia have signed a paper endorsing Hon. Boies Penrose for United States Senator. He has also received the endorsement of six out of the eight State Senators from that city. This is the hardest blow that the Wanamaker boom has yet received; if his home representatives fail to support him, Mr. Wanamaker can hardly expect others to do so.

The Philadelphia Hardware Association, the McKinley-Citizens Club, the M. S. Quay Club and the Southwest Republican club, all of Philadelphia, have adopted strong resolutions favoring Penrose and opposed to Wanamaker.

The resolutions condemning Wanamaker and the action of the Pottsville Republican Club and the Good Intent Fire Company endorsing Penrose, caused the Wanamaker supporters to make an effort to get the Central Republican Club, of Pottsville, to endorse their favorite. The club numbers about 370 members, and there were present last night 40, eight of whom voted and spoke against the resolutions endorsing Wanamaker. Among those who opposed it were W. John Whitehouse, Esq., Registrar C. C. Mattou, Capt. E. D. Smith, R. H. Koch, Esq., and others. The resolutions were accepted, however.

LOOKS LIKE A STRIKE.

The Joint Committee Fails to Agree and Are Discharged.

PITTSBURGH, Dec. 11.—The fourth day's session of the joint committee of the coal operators and miners adjourned to-day and reported that they were unable to agree upon a rate, and were discharged.

As a result the employers and their employes are still further apart, and a strike will surely follow.

The miners made a demand for 79 cents per ton and refused to recede. The operators are equally determined and stood by their offer of 69 cents a ton. When told by the operators that a strike meant continued suffering, the miners say that their condition could not be worse than at present.

Nothing can now prevent a long conflict, except the concessions on the part of the operators, which is not all likely.

ALMOST A SLEEP OF DEATH

The Close Call of John Rhoades and His Son.

WERE VICTIMS OF WHITE

Their Failure to Arrive Home Caused Search in the Mines and the Victims Were Found Unconscious in a Heading.

John Rhoades, aged 45 years, and Henry, aged 23, both residing on Chestnut street, had an almost miraculous escape from death in the mines of the Shenandoah colliery last night. They engaged in driving a heading in the slope, East Seven Foot Vein, and were working at about seven o'clock yesterday.

At about three o'clock in the afternoon Rhoades told his son to go down to the way and get some powder to prepare blast. Rhoades was engaged in drilling and his back turned to his son when he saw the order, and did not notice when the young man obeyed. It has since been learned that the son did not hear the order and was in a stupor. The father cut drilling for a few minutes and then a sleep.

Rhoades and his son generally arrive at about 5:30 in the evening. After their coming for about an hour at usual time Mrs. Rhoades sent a boy home of the inside foreman, David, to ascertain if her husband and son were working over time, or if an accident happened. Mr. Morgan was not at the boy went to the colliery. The father told him he was not at the colliery and had not seen anything of Rhoades, or his son. The boy returned and reported the father's visit and was sent to make inquiry of the elder Rhoades' brother-in-law, Dillman. The latter, accompanied by Benjamin Becher, went to the mine, and, obtaining no satisfaction, into the mines and to the heading, where they found Rhoades and his son in a deep slumber from which they were not awakened. The father had forwarded on the drill he had been using the tool was in the coal. The son stretched out in the heading about four behind him. It was learned for the time that the men were victims of a damp.

It was about 8:30 o'clock when the men were discovered. They were carried to the foot of the slope and hoisted to the surface as the removal could be made and taken to the colliery office, where Dr. W. N. Dillman was called to attend them. He found the son the worst of the two, and applications were applied to the body, heat stimulants administered. The son worked over the men for an hour but succeeded in causing a turn in their condition, but they still remained unconscious, were removed to their home in an ambulance. Again the doctor resumed his treatment, kept it up incessantly for over an hour before the victims gave signs of recovery. Dr. Stein says that had the men been minutes longer without attendance, sleep would have been to be about fatal, and his son would have been about fatal, and his son would have been about fatal, and his son would have been about fatal.

Death of John Wolf.

John Wolf, aged 52 years, brother of Sheriff Wolf, died suddenly at his home in Pottsville last evening. Mr. Wolf has been ill. Yesterday afternoon, at about 1 o'clock, he visited Howell's cafe in connection with John Weeks, of town, and afterwards started for his home. Soon after supper he was taken ill and died suddenly. Mr. Wolf was an old time painter of Shenandoah, and by trade painter. Mr. Wolf's first wife was Catherine Shuster. She died in Shenandoah in 1870. Two children, Barbara and John, and reside in Pottsville. The second wife and her son, Albert, survive. The funeral arrangements have not been completed.

Economy is Pain.

About a week ago Dr. W. N. Stein called upon to attend one Adam Stutz who had sustained a severe laceration of forehead while engaged in the mining. doctor dressed the injury and told the patient to call at his office a few days later, he failed to do so. Yesterday the doctor again called and he found the patient in a fearful condition, with danger of sepsis. Stutzki had got hold of one of the doctor's preparations for dressing injuries and attempted to treat himself.
