Both Houses of Congress Getting Down to Business.

MR, OULLOM SPEAKS FOR CUBA.

He Declares That the Logic of the Insurrection Means Freedom for the Island, and Urges Speedy Action on the Part of

WASHINGTON, Dec. 11.—The senate got into the regular channel of business yo terday, taking up the immigration bill and partly perfecting it, and also hearing the first of the speeches on Cuba, those of Mr. Cullom and Mr. Call. The disposition to put through the immigration bill tion to put through the immigration bill was shown by the defeat of a motion by Mr. Gibson, of Maryland, to postpone the measure until after the holidays. Only thirteen votes, all Democrats, were given in favor of postponement. The proposition served to involve Messrs Chandler Lodge and Gibson in several spirited percent sonal colloquies. The merits of the immi-gration question were discussed in a gen eral way on several proposed amendments Mr. Vest and Mr. Palmer suggesting that limits should be placed on the restrictions, while Mr. Lodge and Mr. Chandler urged that the restrictions be sweeping in char

The bill was not passed up to the time of adjournment, but the senate agreed to what is generally known as the Lodge bill as a substitute to the house measure. The substitute requires that all immigrants over the age of 14 years shall be able to read and write their native language, and read and write their native language, shall be required to read and write in the presence of a United States official at least five lines of the United States constitu-

The Cuban speeches of Mr. Cullom and and Mr. Call were listened to by crowded galleries, indicating the public interest felt in this subject. Senator Cullom's speech was a vigorous plea for immediate action. In the course of his address he said:

The logic of the insurrection means liberty for Cubs. What does the world care for the beauties of all the castles and palaces in Spain, enshrouded as they are in the cerements of war, which but recall an awful history instead of a glorious past? Shall it be that the nation where the inquisition found a congonial home and where the so called Holy Brotherhood was established for the crushing out of life and liflerty, and where manhood and womanhood were made the playthings of brutal might—shall it be that the incoming century will chronicle a longer con-tinuance of such power almost within sight of the unfurled Stars and Stripes? An Almighty God reigns still in the universe. All the petty subterfuges of princes and nobles, of kings and tyrants, will fail them in the day of their adversity.

"It is about time that this free country

ceased to be a police establishment for the aiding of the most outrageous warfare against a struggling people. The Spanish government three weeks ago bought and shipped for General Weyler numbers of mules and horses raised in this country and purchased in Missouri and other western states. Under present stringent rules every federal official is a spy to in-form against any attempt to convey arms or clothing or supplies to General Gomes or General Maceo or the Cuban army. Men are now under arrest in the United States for attempting to succor their friends and relatives in Cuba.

"Has Spain any sympathy with or friend-ship for this country? Americans have been imprisoned and punished in Cuba for even expressing sorrow for the poor young medical students who were cruelly shot and murdered in Havana a few years ago. There is not a family of any stand-ing in Cuba which has not lost one or more of its members by arbitrary arrest

'If other means fall we may consider the propriety of a fair purchase of Cuba. That method has had its share of consideration under previous administrations. It is not that we want the territory, but we mean that the trouble shall meet a just settlement and conclusion. Let the end come, and come quickly. Let the blood-shed cease, and let freedom and humanity be glorifled.

Pending the preparation of the next appropriation bill the house again yesterday devoted its time to the consideration of bills on the calendar, but only two were passed during the four hour session. One of them was a bill which the prominent day wrights and theatrical managers of the country have been laboring for some years to induce congress to pass. The pur-pose of the measure is two fold: First, to secure to musical compositions the same measure of protection under the copyright law as is now afforded productions of a strictly dramatic character; second, to add, by proper court injunction pro-cesses, this protection to the authors of dramatic and operatic works. The bill imposes a fine of \$100 for the first and \$50 for each subsequent unauthorized produc-

A bill to prohibit the sale of liquor in the Capitol building was also passed. A bill advocated by the delegates from the territories to modify the law forbidding the alien ownership of lands in the territories, so as to give them the right to acquire under mortgage and to hold for ten years real property, was defeated. An im-portant bill to transfer the rights of the Atlantic and Pacific railroad under its charter to the mortgagees when they re-organize the road was postponed until Tuesday next.

Rig River and Harbor Contract, PHILADELPHIA, Dec. 11.—The proposals for the construction of the harbor of refuge at the Delaware bay were opened yesterday. There were thirteen bids, the lowest of which was that made by Messpa-Hughes, Brothers & Bans, of Syracuse, N. Y., at \$1.18% per cubic foot. This firm being the lowest bidders, and having filed bonds in the sum of \$1,000,000 for the faithful performance of the work, will of course be awarded the contract. This is the largest single contract ever embraced in a river and harbor bill, involving an expenditure of nearly \$5,000,000.

Tours to California.

California has been most fittingly termed the "Italy of America." All the delicious baim, the cloudless sky, and the rich ver-dure of the great European peninsula are duplicated in this sunny land of the Pacific. Here nature basks in the sunshing of her own heauty; and here ahe has established her locality and acre and has established her own sanitarium, where eternal spring in-spires everlasting youth. With the snow-mantled peaks of the Sierras upon the one hand, the calm Pacific with its soft breezes upon the other, and a veritable panadise of flowers, fruits and plants between, man can find and needs no loyeller land. To visit

such a country is a privilege, a blessing.

The Ponusylvania Railroad Company, recognizing the need of a more comfortable and pleasant way of crossing the continent, inaugurated a series of annual tours to Califorula, running a through train of Pullman palace cars from New York to the Pacific Cosst, and stopping at the principal points of interest en route. The great popularity of these tours demonstrates the wisdom of the

INDEPENDENCE CLUBS FORMING.

In the Rural Districts Especially the Movement Is Gaining Ground Rapidly, and Organizers Are Traveling About to Arouse Sentiment on the Question.

MONTREAL, Dec. 11 .- The strong undercurrent of scuilment throughout Canada favorable to a separation from Great Britian and the establishment of an indesendent Canadian republic on this con-linent has begun to take tangible shape. The organization of independence clubs has been in active progress during the past five or six months, and a convention has been called to meet in this city in March next, with the object of federating all the groups and clubs of the Dominion. Until then the chief work will be to group individuals favorable to the independence movement throughout Canada-that is, o obtain the co-operation of all those w favor the securing of national independ-

ence by pacific means.

The Associated Press correspondent is informed that the movement is gaining ground rapidly in the rural districts, especially in Port Neuff, Drummend, Granby and the most remote districts. Two or gamizers are travelling in the interest of Canadian independence clubs through the Canadian centers, in the United States and eastern townships, where the idea seems to meet with great favor. An important meeting was held Wed-nesday night in Montreal. The meeting

was secret, but the Associated Press cor-respondent obtained possession of a resume of the by laws and legislation which was adopted at the meeting. The pream-ble, which is perhaps the most important

part of the document, reads as follows:
"This association will be known as Independence Club of Canada, and shall be composed of all persons desirons of ob-taining political liberty and the independence of Canada.

Its objects shall be: The study of the Canadian people and of the resources of the country. The encouragement of a true national spirit amongst the population. To obtain the liberty and independonce of Canada by legitimate and pacific meetings.

At the next meeting, in January next, eps will be taken to secure the incorporation of the club.

SPANISH STEAMER FOUNDERED. It Is Believed That 275 People Perished in the Wreck.

CORUNNA, Spain, Dec. 11.—The Italian teamship Saller, recently the property of the North German Lloyd company, is be-lieved to have been totally lost. She left this port on Dec. 7 for Villagardia, Spain, this port on Dec. 7 for Villagarcia, Spain, and is believed to have foundered in the heavy gale which recently prevailed off the Spanish coast. There were 210 passengers on board. Her crew was composed of sixty-five men. All on board, passengers and crew, have probably perished.
