MAHANOY CITY.

The Elmwood Colliery Workings to be Filled With Slush.

MAHANOY CITY, Dec. 11.—The scare which the people living in the vicinity of Third and Centre streets received some time ago through the appearance of cracks in the surface, supposed to have been caused by the settling of workings in the Elmwood colliery, appears to have been not entirely without reason and the P. & R. company has taken precautions to prevent any further damage from this source. This morning Mining Superintendent John Veith and Master Carpenter Christ. Muehlhof were in town and gave orders for the slushing of all the under ground workings of the Elmwood colliery in the vicinity of the affected houses. A scraper line will be built from the Mahanoy City colliery dirt bank to the timber way in the swamp behind Kaier's brewery. From this point the culm will be conveyed to the underground workings of the mines by chutes. The work will commence at once.

A pump has been placed at an artesian well on the mountian. Water is flowing from a depth of 175 feet and it will be used to feed the boilers furnishing steam for the second well, which is to be sunk about 700 feet. Both wells will supply the Primrose colliery with water.

Ralph Fowler, a carpenter, residing on West Mahanoy avenue, received a serious injury to the thumb of his left hand while at work on the Yuengling refrigerator.

The home of Stephen Bridgen was the scene of a pleasant gathering last evening in honor of the 11th birthday of his son, Chas. He was entertained by the Bishop Rulison class of the Episcopal church.

The Baptist Young People's Union of the English Baptist church, held one of its successful entertainments last evening in the church. It was well attended.

Severn Post No. 110, G. A. R., was inspected last evening by C. H. Barnard, of Joe Hooker Post, of Ashland. Several members of the latter post were in attendance.

The funeral of Joseph Hough took place this morning from the residence of his daughter, Mrs. Nathaniel Comley, on West Spruce street. Rev. H. A. Keiser, of St. Paul's Reformed church, officiated at the services.

THE FLYNN CASE.

Several Witnesses Examined in the Injunction Proceedings Yesterday.

Yesterday afternoon another session was held in the Council chamber to take testimony in the injunction suit of the borough against Authony Flynn, to restrain the latter from interfering with the borough officials in tearing down the wall which Flynn caused to be erected across the creek on his property in the First ward. J. H. Pomeroy, Esq., was present to represent the borough and John F. Whalen, Esq., represented Flynn. The following witnesses were examined: Michael Heffron, James McHugh, Michael Pribula, Michael Scanlan, Justice J. J. Cardin, Peter Quirk, William H. Shoemaker, John Begley, James Smith, John W. Curtin and W. J. Watkins. The two last named witnesses were called to testify to proceedings before the Board of Health and Borough Council in connection with the nuisance that existed before the erection of the stone wall and subsequent proceedings. The trend of Mr. Whalen's line of examination was to show that the stream in question is a public sewer, that at times the borough has performed certain acts in connection with it to make the stream a public sewer, that the borough has given permits for the connection of sewerage lines with the stream. Mr. Whalen's line of examination also tended to show that the stream has been changed from its original course.

James Smith swore that he was Chief Burgess during 1892 and Anthony Flynn, who was High Constable during the same year, called his attention to the property now in question. Smith visited the place and found that foul smell arose from that part of the stream flowing under Flynn's house. Smith did not do anything to abate the nuisance and he did not think Flynn complained to the Borough Council at that time. Smith also stated that the covering of that part of the stream flowing through John Robbins' White street property fell in and created a nuisance. As Mr. Robbins and his family were at Ocean Grove, Smith took upon himself the work of abating the nuisance and Mr. Robbins subsequently paid the bill.

Mr. Whalen stated that Mr. Watkins, the town clerk, had been called to establish by the minutes of Council that permits had been granted to connect sewer lines with the stream, but upon examination Mr. Watkins testified that he could find no such permit in the minutes and during his service as Town Clerk he did not know of the granting of such a permit.

John W. Curtin, secretary of the Board of Health, testified that the stream flowing through Mr. Flynn's property had been declared a nuisance by the Board of Health and the Borough Council had been asked to abate it, but failed to act. He admitted that if the stream was properly covered and sealed the nuisance would be abated, when cross-examined by Mr. Pomeroy, and also admitted that after the stone wall was erected the Borough Council had invited the Board of Health to co-operate with it in suppressing the nuisance caused by the wall. He also admitted that at a meeting of the Board of Health held immediately after, no action was taken further than a discussion of the matter and an adjournment for a few days to hold a joint meeting with the Borough Council to devise means for an adjustment of the matter, but the meeting was not held, the Council failing to appear, but he admitted that Solicitor Pomeroy appeared and read the resolutions the Council had adopted and the Board took no action.

Not in Accord With American Ideas.

From Mahanoy City Record.

The manner in which the Polish and Lithuanian people of our neighboring borough, Shenandoah, propose to demand recognition, politically, is not in accordance with American ideas. Undoubtedly this class of people have the right to demand recognition and share of public office and patronage, but the method of demanding it, not because they are citizens, but because they are of a certain class or nationality, should cause their overtures to be promptly rejected by both parties.
