Any house physician will tell you that there is but one way to get increased flesh; all the patent medicines and cod liver oils to the contrary notwithstanding.

Nature has but one way to increase flesh, strength and vigor of mind and body, and that is through the atomach by wholesome food well digested. There is no reason or common sense in any other method whatever.

People are thin, run down, nervous, pale and leaky in their nerves, simply because their stomachs are weak.

They may not think they have dyspepsia. but the fact remains that they do not est enough food or what they eat is not quickly and properly digested as it should be

Dr. Harlandson says the reason is because the stomach lacks certain digestive neids and pertones, and deficient secretion of gastric

Nature's remedy in such cases is to supply what the weak stomach lacks. There are several good preparations which will do this, but none so readily as Steart's Dyspepsia Tablets, which are designed especially for all stomach troubles, and which cure all digestive weakness on the common sense plan of furnishing the digestive principles which the stomach lacks.

Stuart's Dyspepsia Tablets give perfect digestion. First effect is to increase the uppetite and increased vigor, added flesh, pure blood, and strength of nerve and muscle is the perfectly natural result.

Stuart's Dyspepsia Tablets is the safest tonic known and will cure any form of stomach trouble except cancer of the stomach. May be found at druggists at 50 cents for full sized package or direct by mail from Stuart Co., Marshall, Mich. Little book on stomach diveases mailed free

THE BANK FAILURES.

Comptroller of the Currency Eckels Feels No Apprehension.

HAVE NO GENERAL SIGNIFICANCE.

The Comptroller Declares That the Suspensions Are Wholly Due to Local Causes Not Connected with the Condition of Banks in the Country at Large.

Washington, Dec. 20.—Comptroller of the Currency Eckels said today that he feels no apprehension over the bank fall-ures which have occurred of late. Two more failures, the Commerce it am onal bank, of Roanoke, Va., and the item miss National, of Minneapolis, were added to the list yesterday. They are compacatively small institutions, however, and under ordinary

institutions, however, and under ordinary circumstances their fallure, it is said, would attract only passing attention. Mr. Eckels when asked today by a representative of the Associated Press as to the general banking situation, said:

"Of course bank failures are more or less disquisting, but those which have occurred recently have little or no general significance attached to their. They were due largely to local causes, wholly unconnected with the general condition of the nected with the general condition of the banks through the country at large. The case of the Atlas bank, of Chicago, was case of the Arias bank, of Chicago, was not a failure at all, but was a mere voluntary liquidation, every depositor being paid in full. The two failures yesterday are of minor importance, in each case the bank capital being only \$200,000. As against these few failures, based on local causes, the general condition of banks is verifient. The reports received under the

excellent. The reports received under the last call—that of Dec. 17—are uniformly favorable, and show an average reserve held of considerable above the 25 per cent. required by law. One of the last reports, that of the Brooklyn banks, shows the average reserve held to be \$4.02 per cent, and most of the reports run 5 or 10 per cent above the legal requirement. In each case, too, the assets in detail make an entirely different showing as compared with the liabilities.

"On the whole it is evident that the national banks today are as stable as they ever were, and the sporadic failure of a bank here and there through defects pe liar to the failing bank is of small importance, wholly without general signifi-cance. I am advised from Minneapolis that the failure there has occasioned no disturbance beyond the institution con

A Voluntary Assignment,

BATAVIA, Ills., Dec. 30.—The liquida-tion of the Atlas National bank, of Chi-cago, has precipitated the suspension of the Van Nortwick bank, of Batavia, and the assignment by William M. and John S. Van Nortwick of all their vast property interests, aggregating \$2,500,000, to the Equitable Trust company, of Chicago. Their counsel declares that they will meet all claims, and that the assignment is wholly voluntary.

Thousands of Tons of Coal on Fire. NEW HAVEN, Dec. 80 .- Fire is smouldering in the immense heap of bituminous coal at the coal supply station in the New Haven yards, where the locomotives of six divisions get their supply of fuel. There are more than 75,000 tons in the yard at the present time, and it is esti-mated that between 10,000 and 20,000 tons have been consumed by the fire, causing a less varying from \$49,000 to \$80,000. The fire was caused by spontaneous combus-tion and was discovered two weeks ago. Since then a number of men have been working day and night digging through

Both Companies Responsible. PHILADELPHIA, Dec. 30 .- Judge Dallas, under an opinion filed in the United State circuit court yesterday, overruled the de murrer of the West Jersey and Son Shor Reference company to the suit of Harry Laughlin, who was injured in the railroad accident, which occurred last July on the meadows near Atlantic City. Mr. Laugh-lin was a passenger on the train of the Atlantic City Hallroad company, and he brought suit jointly against that company and the West Jersey and Sea Shore Rail road contany. Under the ruling the suit | Cor against both companies. Leave was given to plead in eight days.

A well selected text is half of the ser-mon. Given a good text and a preacher who is in earnest, and the result is sure who is in earness, and the result is sure to be good. The text of this article is a plain simple statement that proves itself in the reader's own mind without argu-ment. The text is "Good health is bet-

ment. The text is "Good health is better than great riches."

Without health nothing really matters very much. A hacking cough takes all the beauty out of a landscape or a sunset. Ergsipelas or eczema will spoil the enjoyment of sprightly conversation, of a beautiful concert, of a wonderful painting. The biggest bank account in the world won't pay a man for his health, but a very small amount of money will make him healthy and keep him healthy.

Most all bodily troubles start in the digestive or respiratory organs. It is here that improper living first makes an opening for disease. The development differs as constitutions and temperaments differ. The causes are almost identical.

differ. The causes are almost identical To get at the root of the matter is simple

enough if you start right.

Dr. Pierce's Golden Medical Discovery is a medicine for the whole body. It works through the digestive organs on

all the others.

It cures the first thing it comes to and after that, the next. It puts health in place of disease in the stomach, and from the vantage ground thus gained, it reaches every fiber of the body and drives disease before it — indigestion, liver troubles, kidney complaint, biliousness, skin and scalp diseases, salt-rheum, tetter, eczema, and all the troubles caused by impure blood.

California has been most fittingly termed the "Italy of America," All the delicious balm, the cloudless sky, and the rich verdure of the great European paninsula are duplicated in this sunny land of the Pacific Here nature basks in the sunshine of her own beauty; and here she has established her own sanitarium, where eternal spring in-spires everlasting youth. With the snow-mantied peaks of the Sierras upon the one hand, the calm Pacific with its soft breuzes upon the other, and a veritable paradise of flowers, fruits and plants between, man care find and needs no levelier land. To visit such a country is a privilege, a blessing,

The Pennsylvania Railroad Company recognizing the need of a more comfortable and pleasant way of crossing the continent inaugurated a series of annual tours to Cali formia, running a through train of Pallman palace ears from New York to the Pacific least, and stopping at the principal points of interest en route. The great popularity of these tours demonstrates the wisdom of the movement.

Lawson, "The Terrible Swelle," appears to be in better condition than any of the men except, possibly, Hunter, the Frenchman. Lawsen is riding his usual heavy pace, which he seams able to make without great exertion. George Hall, the local favorite, is riding smothly, but besides suffacions from a solid it is artifant he is in fering from a cold it is evident he is in rather fast company. Hunter had a fall yesterday, but was not hurt, and con-tinued to ride. General satisfaction is ex-pressed at the results of the contest up to this time, and the figures show that five of the men have averaged eighteen miles or more for each hour. The score at the close for the sixteen hours ending at 10 o'clock last night was as follows:

Waller, 291 miles and 3 laps; Maddex, 201 miles; Aschinger, 2901₂; Lawson, 289; Hunter, 288; Chappel, 286; Foster, 286; Ball, 260%. In the exhibition riding Eddie Bald re-
