General Agnus was not, said an intimate friend, and will not be an aspirant for a place in Mr. McKinley's cobinet, and is not interested in the naming of any particular man from the south to a cabinet portfolio, but would like to

To that end in his conference yesterday, when asked as to the Maryland situation he taid before the president-elect the mat-ter as outlined and expressed himself freely. "General Agnus has no ax to fresly. "General Agnus has no ax to grind," said the friend who spoke for him, "and hiavisit was in the interest of him, and hiavisit was in the interest of his party and not for any one man. Any good, vigorous man from Maryland or West Virginia or any southern state for that matter would please him."

The rumor to the effect that Cornelius

Sherman and the Cabinet.

WASHINGTON, Jan 7.—Gossip connecting Senator Sherman's name with the secretaryship of state under the McKinley adretaryship of state under the McKinley ad-ministration took a fresh start at the capi-tol today. It is understood that Mr. Shr-man has received an invitation to visit Major McKinley at his home and that he will heave for Ohlo within the next few days. There is little doubt that the sma-ter will on this visit be formally tendered the state portfolio, and the impression will accept. Indeed it is asserted that the scentor has already been informally made acquirited with Major McKiuley's desire to have him all this important office and that the latter has been advised of the senator's acceptance in the same manner.

The Entest Prench Consum Pauls, Jan 7 - Lie results of the Inst consus, which are just published, show that there is no sign of receivery in the last rate. The total increase in the popuhagain of France since 1834 is only 175,027, while the number of foreigners in France is decreasing. The large towns are growing slightly, at the expense of the smaller towns and the rural districts. The inhabitants have increased in twenty-four departments and have decreased in sixty three departments. The minister of the interior, M. Berthon, notes an increase of emigration, but he is compelled to confess to the marked tendency of the population to remain stationary.

Thousands of women are cast-up dead on the shores of life because of their own ignorance or neglect. No woman can be free from pain, or safe from the ever-threatening breakers of death, who neglects to take proper care of the organs that sonstitute her womanlood. A woman who neglects her womanly-self will be sickly, pervous, pain-tacked and fretful, and approaching maternity will be a menace of the grave. It is easy for a woman to avoid this suffering and danger.

Wise women know that Dr. Pierce's Paworite Prescription is a marvelous remedy for those troubles that make a woman's life miserable, and fill the period of prospective motherhood with fears. It is the discovery of an eminent and skillful specialist, Dr. R. V. Pierce, for thirty years chief consulting physician to the Invalide's Hotel and Surgical Institute, at Buffalo, N. V. Over 90,000 women have testified to the almost miraculous action of this wonderful remedy. It works directly on the organs distinctly feminine. It makes them strong and healthy. It cures all weakness and disease. It prepares for withood and motherhood it insures baby's health and makes its advent easy and nearly painless. Draggists sell it. Nothing else is "just as good."
