YORGRAMA, Jan. 12 - Great interest has been taken here in the trial of Mrs. Carew, a prominent society lady, on the charge of potsoning her husband with aromic, in a anner similar to that said to have been followed by Mrs. Florence Maybrick, now undergoing a sentence of imprisonment for life in England. Mr. Carew was taken ill on Oct. 15 last and died on Oct. 20. The impress certified that he died of arms potsoning and a verdict of murder was

endered against some unknown person. At the preliminary inquiry held in the British consular court here, the evidence showed that Mrs. Carew made large purchases of arsenic, the use of which, she said, was an old time habit of her husband. Throughout the proceedings there were references to a mysterious valled woman, and there was considerable excite ment here when it became known that Mary Jucob, the governess of the Carew family, was arrested on Sunday, and is re-ported to have confessed to committing the murder for which Mrs. Carew has

heart and tack of mother-love. There are other ways, than desertion, of exposing a child to a life of suffering. The mother who, through ignorance or neglect of the health and vigor of the organs that make mother-hood possible, brings into the world a sick and puny child is at fault for the life of suffering to which it is condemned. If a woman would have healthy, robust, happy children, with bright intures, she must take proper care of her womanly self.

The best of all medicines for women is Dr. Pierce's Favorite Prescription. It acts directly and only on the delicate and important organs that bear the burdens of maternity. It makes them strong and healthy. It prepares for wifehood and motherhood. Taken during the expectant period it ham ishes the must discomforts and makes baby's coming easy and almost painless. It insures a robust, healthy newcomer and ample, natural nourishment. Over 90,000 women have testified to its merits over their signatures. All good druggists sell it.
