

**FREE CURE FOR MEN.**  
A Michigan Man Offers to Send His Discovery Free.  
Claims to Be a Remedy for Weakness, Blanking.

There is always more or less suspicion attached to anything that is offered free but sometimes a man so overflows with generosity that he cannot rest until his discovery is known to the world, in order that his fellow men may profit by what he has discovered. It is upon this principle that a resident of Kalamazoo, Mich., desires to send free to mankind a prescription which will cure them of any form of nervous debility, reduce them to all the health and manliness which such men are peculiarly liable to and restore the same to natural size and vigor. As it seems that many are suffering with any of the nervous troubles that usually attack men who never stopped to realize what might be the final result, ought to be deeply interested in a remedy which will restore them to health, strength and vigor, without which they continue to live an existence of untold misery. As the remedy in question was the result of many years' research as to what combination would be peculiarly effective in restoring to men the strength they need, it would seem that all men suffering with any form of nervous weakness ought to write for such a remedy at once. A request to H. C. Oltz, Box 1712, Kalamazoo, Mich., stating that you are writing for the remedy will result in the medicine being given to you free of charge, and without any obligation on your part. The prescription is sent free and although some may wonder how Mr. Oltz can afford to give away his discovery, there is no doubt about the offer being genuine. One who has sent to Mr. Oltz so that he may know how you came to write him. 1828-79.

**MONETARY CONFERENCE**  
Hundreds of Millions Represented at Indianapolis.

**THE NEED OF FINANCIAL REFORM.**  
Hon. Charles S. Fairchild, Ex-Secretary of the Treasury, Gives Warning of the Danger That May Arise from Inaction by the Lawmakers.

INDIANAPOLIS, Jan. 13.—Chairman Hugh Hanna of the executive committee of the monetary conference, called that body to order at Tomlinson Hall yesterday afternoon. At that time there was seated in the auditorium over 300 delegates, representing business interests that run up in value to the hundreds of millions. It was a fine looking body of men, whose object it is to attempt a reform of the government's currency system.

The meeting was opened with a prayer by the Rev. M. L. Haines, of the First Presbyterian church, ex-President Harrison's place of worship. Then Mr. Hanna delivered a brief welcoming address, and temporary chairman Jacob W. Smith read the call sent out by the executive committee. Next came the recommendations of the committee for the temporary organization naming E. O. Stannard of St. Louis as temporary chairman, Jacob W. Smith of Indianapolis as temporary secretary and W. C. Golt of Indianapolis as sergeant-at-arms.

In taking the chair Mr. Stannard made a brief speech, and then the various committees were appointed as recommended by the executive committee.

After the committees retired there were calls for a speech from Hon. Charles S. Fairchild. In opening he said: "For the first time in the history of government a great scientific financial question was submitted to the people for popular consideration in our last election. It was a great test of our institutions, not alone in the way in which it was decided, because we were considering the adoption practically of a tool with which to conduct our business. Other men at other times in our history have considered similar questions, most differing as widely as possible in their political views. And yet to them there never entered an idea that party, section, race, nationality or worldly condition was involved."

After dwelling upon the defects of the present monetary system, Mr. Fairchild concluded with these words: "Before the work of this conference is finally concluded the business world, not only of the United States, but of all the world, will be looking at it and its result, and I feel you gentlemen, if it shall demonstrate (as God grant that it may not) that there is within this body not sufficient wisdom to arrive at something wise and conclusive, or if, having so come to a conclusion among yourselves, it is demonstrated that you are not prepared to influence from the banking power that results come of it, I feel you may tremble for the business and political future of this country."

John P. Irish, of California, was next called. Addressing the assembly, he said: "It is your business to suggest to the lawmakers the way out of the difficulty, to put simplicity instead of complexity to conform that system to the law of finance. I am aware that we have many wise men who will join us in the accomplishing of financial reform in this country, and who believe, perhaps conscientiously, that the way to strengthen the superstructure is to weaken the foundation."

The chairman then called for the report of the committee on currency. The total number of delegates whose names have so far been reported is 370. All parts of the country were represented, there being delegates from 35 states and 10 territories.

**TOURS TO FLORIDA.**  
No district in America presents during the winter season so many varied attractions as the State of Florida. Besides its delightful climate, which is one escaping from the cold and unhealthy changes of the North season, almost ethereal, it is presentment a land of sport and pleasure. Along its eleven hundred miles of salt-water coast and its twelve hundred fresh-water lakes are to be found every conceivable variety, from the migratory tribes common to Northern waters to the tarpon, pompano, and others of a more tropical character. Nowhere in all our broad land can the angler find a greater variety of game or better sport.

Here also the most enthusiastic hunter finds safety. Deer, turkeys, hawks, quail, and wild cat roam at large through the more sparsely settled regions, while birds of all kinds may be found in abundance throughout the State. The more novel sport of alligator and manatee hunting may also be indulged in by the more adventurous tourist.

With its matchless climate, its orange groves, its rivers and streams, its hunting and fishing, its fishing and hunting, and its extensive forests, Florida presents unrivaled attractions for the vacationist, the lover of nature, the sportsman and the explorer.

In this attractive state the Pennsylvania Railroad Company has arranged for a seasonally-completed tour during the season of 1907, leaving by special train January 20, February 3 and 23, and March 9. The first three tours will admit of a return of two weeks in this delightful land; tickets for the fourth tour will be valid to return until May 31 by regular trains.

For the round trip, \$60.00 from New York, \$45.00 from Philadelphia, and proportionate rates from other points.

**HEART DISEASE.**  
SOME FACTS REGARDING THE RAPID INCREASE OF HEART TROUBLES.  
Do Not Be Alarmed, But Look For the Cause.

Heart troubles, at least among Americans, are certainly increasing and while this may be largely due to the excitement and worry of American business life, it is more often the result of weak stomachs, of poor digestion.

Real, organic heart disease is incurable; but not one case in a hundred of heart trouble is organic.

The close relation between heart trouble and poor digestion is because both organs are controlled by branches of the same great nerves, the Sympathetic and Pneumogastric.

It is safe to say that the regular, persistent use of Stuart's Dyspepsia Tablets at meal time will cure any form of stomach trouble, except cancer of stomach.

**JOHNSON AND MAGUIRE**

IT WAS ALL ABOUT EDITOR HEARST

The California Members of Opposing Parties Indulge in Violent Language—Maguire's Speech Expounded, but Johnson's Remains—Political Debate in the Senate.

WASHINGTON, Jan. 13.—The House yesterday witnessed a sensational sequel to the remarkable attack made by Mr. Johnson, Editor Hearst, Mr. Johnson and Mr. Maguire, both of California, were the antagonists. Their words drew out of the publication in the Record, as a part of Mr. Maguire's remarks of comments on the former's speech of last week, which had denigrated Mr. Hearst, and without the mention of Mr. Johnson's name detailed some matters in the early life of the latter when he resided in Syracuse, N. Y.

Mr. Johnson got the floor on a question of privilege. He was very dramatic. He denounced Mr. Maguire's attack on him as wanton and cowardly, and told the story of his illustrious twenty-four years ago, in New York, for forgery, and how he had gone out to California to rear a new home and make a new name. He described his success, and the hard work he had done, and how he had been able to pay back every dollar he owed. He then explained that all this was an old story in California, where he had always avowed it when he ran for office. Then with his former invective he paid his respects to Mr. Maguire and Mr. Cooper, of Wisconsin, who last week characterized his attack on Mr. Hearst as cowardly.

Mr. Maguire replied to Mr. Johnson in a sarcastic vein. He told how he had attempted to secure time in which to reply to Mr. Johnson during the debate and had been unable to do so, and how he had printed his defense as a man unable to secure a hearing for himself. He sneered at Mr. Johnson for whining because his attack went home to him, and said he should think of the great and good work he was bringing to another before he assailed Mr. Hearst.

Mr. Poole, of New York, who represents the Syracuse district, made a brief statement in vindication of Mr. Johnson. He pointed out the fact that Maguire's remarks from the Record was defamatory and had been intended to injure Mr. Johnson's reputation. He also pointed out that Maguire's remarks were defamatory and had been intended to injure Mr. Johnson's reputation.

**MRS. SARAH BRADLEY.**  
Between the lines of Mrs. Bradley's statement as given below one reads something of the history of this devoted wife and mother. Surely she has passed through the furnace of affliction "heated doubly hot," and the joy that reigns in her household on account of her restoration will be shared by a large circle of acquaintances. Mrs. Bradley is a widely known pioneer resident of Brookway, Trumbull Co., Ohio. It is with a view to helping others who are sufferers from nervous disorders or disease of the heart, that she sends us the statement of her case, which is certainly one of the most complicated in medical history, and should convince the most skeptical reader that Dr. Miles' remedies cure when all other means fail.

"Twelve years ago the 25th day of last December I was compelled to take to my bed on account of extreme nervousness. My husband said he would rather go to the penitentiary than through another such siege as he had with me for a few years previous. Little did he suspect he was then on the eve of a twelve year campaign. We employed for all twenty-six different physicians, the best we could hear of, and it cost us over \$2,000.00, but I only grew worse. I became wholly unable to walk, and they carried me from one room to another. I became so nervous the doors and to be cushioned, the clocks were stopped and the family went about in their stocking feet. I was so miserable that life seemed unendurable, and all I asked for was death. The doctor said my extreme nervousness was caused by excessiveness of the urethra and performed four different operations, which nearly cost my life each time. I became wholly unable to walk, and they carried me from one room to another. The doctor said my extreme nervousness was caused by excessiveness of the urethra and performed four different operations, which nearly cost my life each time. I became wholly unable to walk, and they carried me from one room to another. I became so nervous the doors and to be cushioned, the clocks were stopped and the family went about in their stocking feet. I was so miserable that life seemed unendurable, and all I asked for was death.
