Senator John Sherman, at the Union depot

"The veteran statesman was on his way back to Washington from Canton, where he had a conference with Mr. McKin-ley and had accepted the portfolio of state in his cabinet, after stating that his posi-tion in the next cabinet had been determined. Senator Sherman said, in answer to a question: I think the United States government should not interfere with the Cuban war, either to aid in its settlemen or do anything which would make a peaceful government of the island a charge on this country. I understand on high authority that Prime Minister Canovas has outlined a program of governmental reforms which will be applied both in Spain and in Cuba. These reforms will give the Cubans practical autonomy and will, I hope, settle the question.

It is evident that the government wishes to indicate that it has acted spontaneously, even going beyond the powers have to grant a bill of indemnity for new decree. The reforms will show h far Spain is prepared to go in dece realization without surrendering a rights or prerogatives of the home g ernment and of the cortes, in which both Cuba and Porto Rico will have due representation. It will also be seen that in the reform of the tariff Spain is disposed to make sacrifice compatable with the needs of the Cuban budget. More can hardly be expected from a conservative cabinet and Spaniards will auxiously watch the effects of this change of policy

The plan owes its origin to Sener Cano vas, and it is a foregone conclusion that the council of state will approve the re-
