A MAJESTY man followed a deer track two miles and then found the deer had been traveling in the other way. He had not only very bad, for several thousand Schuylkill county Democrats considered the fact last November.

THE STATE BOARD of Charities, in their annual recommendations to the Legislature, have appropriated the following amounts to Schuylkill county institutions: Miners' hospital, \$113,250; Potomac hospital, \$24,500; Malvern City hospital, \$15,000.

THE NEWSPAPER thieves are multiplying. Complaints of thefts of Herald copies are becoming more frequent, and call for a greater amount of vigilance. The money value of a newspaper is very trifling nowadays, but the sin against the printer is just as much as though the stolen sheet had cost twenty or fifty times as much.

OUTSIDE of the low class of shows that appear at the local theatre, one of the most disagreeable features to theatre-goers is the apparent inattention of the management to the welfare of the patrons. Therein lies the cause of a secondary consideration. The gallery seats have full view, much to the discomfort of those who attend the plays.

THE Free Homestead Bill, passed by the votes of Western Senators, is a most generous offer to the government and will cost the citizens of the United States a trifle of \$30,000,000. But what's the odds? We want the star of empire take its way, and the semi-barbaric East must pay the bulk of the freight.

ALL sorts of political morality is shrouded in connection with the recent elections in the State of Delaware. What its politicians make up their minds to take a lead at ballot box debauching, they generally manage to demonstrate beyond all controversy that they are adepts at the business. An investigation of the matter in which things were done at the late election in New Castle county reveals the fact that frauds of a startling character were perpetrated.

THE proposition to amend the Compulsory Vaccination law of the state so as to provide that children who have been three times inoculated with vaccine matter without effect shall be deemed to have complied with the rule of the statute, and shall not thereafter be denied admission to the public schools because of failure to be vaccinated, seems to be a reasonable change. But the law in its general operation is of undoubted sanitary utility. It should not be repealed.

THE desire or hope has been expressed by a number of state journals that the present ballot law shall either be repealed entirely or amended so as to render it less difficult of easy comprehension by the average voter. That it should be amended goes without the saying, and that an attempt will be made by the Legislature to remove the objectionable points appears to be fully assured. The only objection to proposed amendments is that former efforts in the same direction have had the effect of rather increasing than diminishing the difficulties encountered by many of the voters.

THE selection of John Sherman as Secretary of State seems much speculation among Pennsylvania politicians and voters after the late election. It is well known that Senator Quay stood by Sherman in the convention when Platt gave Harrison the nomination. Much to the chagrin of Charles Emory Smith, Tom Cooper and others he held the Pennsylvania delegation almost solid for the Ohio man. We are wondering if Sherman will remember it when the time comes to distribute the State Department posts. But we should not forget that the story is that Mr. Sherman as the Premier is not to take a hand in the distribution, nor is he going to be pestered with the position of Secretary of State.

BUSHNELL'S AMBITION

May Himself Succeed Sherman as United States Senator from this State.
SPEAKING of Jan. 18-19, a close relative of Governor Bushnell, whose name cannot be used for advertising reasons, makes the statement, the authenticity of which there can be no doubt, that Governor Bushnell in so many words stated to him that he would not accept of a nomination to the vacancy in the United States Senate. The governor and the relative mentioned hereafter a talk on the subject, and the governor gave him to understand that Hanna's name could not be considered for the place at all. The relative further stated that a large newspaper man that there was no doubt what Governor Bushnell's desire to go to the senate himself. He stated that he was very ambitious politically, and the present situation afforded him an opportunity to go to a long cherished wish and get into the senate.

In connection with the above a relative of Governor Bushnell's friends are openly requesting him to resign as governor and then let Hanna's name appear, but Governor Jones, who would not accept of a nomination, but who would by that event, it is argued, be the Republican candidate for governor next fall by the turn of affairs. To strengthen the above statement, if strength is needed, all newspaper men who have been in contact with Governor Bushnell about Hanna's candidacy for the senate know that he always earnestly declined to talk about it. In view of this fact it is argued that if there was no objection to Hanna the governor would stand out.

Oyster Poisons in Maryland.
CHESLER, Md., Jan. 18.—The secretary of the State Board of Health, Mr. Bushnell, has announced that the oyster season is short and not very successful one, and a large number of the dredgers have laid up their boats for the winter. The packers complain about the scarcity of oysters. Few boats come to the Chesler market at present, and one boat would have handled all the oysters that have been brought here during the past two weeks. While local opinion and a variety of other reasons are advanced by some system for the dullness in the trade here, the fact remains that the decline of the industry upon which this town was built up is this mainly to the exhaustion of the natural oyster beds in the sounds in its neighborhood.

De-Moyer Magowan Married.
THEY, Jan. 18.—(By Mayor Frank A. Magowan, of this city, and his wife, who was formerly Mrs. J. A. Harney, together with the child of the latter, arrived here today for permanent residence. Mr. Magowan declares that the child of the amount paid Mr. Barnes for the settlement of the latter's \$20,000 claim for alienation of his wife's affections. He, however, gave out a statement that he and Mrs. Harney were married at Milwaukee, Wis., immediately after the divorce last year, and that they were remarried in Philadelphia on Saturday last, "in order to defeat any attempt of my political enemies to make trouble."

An Eight-Year-Old Witness.
MCKINLEY, N. B., Jan. 18.—At the trial of John P. Sullivan, an ex-railroad brakeman of this city, who is charged with murdering Mrs. Eliza Ditcher, at Mead, W. Va., last September, Maggie Hutchins, the 8-year-old daughter of the murdered woman, testified that the prisoner broke into the house in the middle of the night and killed her mother and brother, a boy younger than herself. He then attacked her and she was unable to tell what happened until she was rescued by a neighbor who had been called by the sound of the gun. She testified that she saw the murderer in several places. She was unconscious for nine days.

May Be a Bail in Delaware.
DOVER, Del., Jan. 18.—There is much talk here concerning the probability of either a bail or a refusal by some of the members of the general assembly to enter the cause. One contingency which may arise in case of either a failure to purchase bail or a refusal to enter the cause on the floor tomorrow John Biggs may be a formidable factor. If the caucus fails to agree upon a candidate, and the struggle is transferred to the floor in joint session, the question of the number of votes necessary to adjourn may be brought up, as it was two years ago.

Sixteen Children Burned to Death.
DALLAS, Tex., Jan. 18.—Fire completely destroyed the Backler's Orphan's home here early this morning, destroying 16 children were burned and nine injured, three of them fatally. The dead children ranged in age from 6 years to 17. All the dead except one were buried in the cemetery of the city. All the survivors in the building were rescued and are being treated in the city hospital. The orphanage was destroyed by a fire which broke out in the kitchen. There 17 boys and more than 100 girls in the home, but all are accounted for.

Three Youthful Skaters Drowned.
LEONIA, Mass., Jan. 18.—John Connaughton, aged 19; Annie House, aged 15; and Gertrude Crowley, aged 9, were drowned in the Nashua river at North Leonia Sunday, while skating. The boys were skating on the ice, and the girls were skating on the bank. The bodies were recovered.

Negligent Jail Officials Suspended.
NEW YORK, Jan. 18.—Sheriff Tamson has suspended Warden How and Keane for negligence in the handling of a convict, street jail, and designing to keep the convict Mulvaney in a temporary ward.

McKinley's Inauguration.
What would you think of seeing McKinley's inauguration on the 20th of your home on the fourth of next March, every word and every syllable of it, just as it falls from his lips, and as clearly and distinctly as if you were standing within fifty feet of the platform, in front of the Capitol, on which he will be standing on that momentous occasion? J. C. Wamberton, of Chicago, says it can be done, and what is more, he intends to see that it is done.

Mr. Wamberton explains his plan by which he hopes to accomplish this astonishing result. He is the inventor of a new sounding board, by which the volume of sound from any source can be immensely increased. He has a telephone receiver, so that he is attached to a telephone line, so that the other end of the line can be heard distinctly throughout a large room or hall. He is to be in front of the President, and to guarantee that everyone adjacent will hear the President's speech as well as if he were in Washington.

Mr. Wamberton is now in New York to make arrangements with the Bell Telephone people to fit up the necessary apparatus. The month, he says, can be placed on the stand in front of the President, and will not hinder or obstruct the view of the through in front of him to any degree.

If he can only arrange the necessary preliminaries Mr. Wamberton says he can give the people of the large cities an entertainment absolutely unique, as well as a remarkable exhibition of the possibilities of modern science.

Tones to California.
CALIFORNIA has been most fittingly termed the "Bible of America." All the delicious fruits, the cloudless sky, and the rich variety of the great bayesian peninsula are duplicated in this sunny land of the Pacific. Here nature looks in the morning of her own youth, and here she has established her own sanitarium, where eternal spring inspires everlasting youth. With the snow-capped peaks of the Sierras upon the one hand, the calm Pacific with its beautiful shores upon the other, and a veritable paradise of flowers, fruits and plants between, man can find and needs no lover land. To visit such a country is a privilege, a blessing.
