WASHINGTON, Jun. 18.-The friends of the Nicaragua canal tell expect it to be taken up early in the week and that it will retain its place at the head of the cal-ender until disposed of. The bill will lead to considerable debate before voted on, but its advocates are very hopeful of its passings. Seminor Morgan has charge of the measure in the semate, and will try to reach a vote before the end of the week. His success in that undertaking will de-pend upon whether there are many sena-tors who desire to be heard on the bill. So far very few have indicated an intention

to speak. Senator Perkins will make an effort, if opportunity offers, to get up the bill for a non-purtisan labor commission, and in this he likely will be antagonized by Sen-

ator Frye with the Hawatian cable bill.

Seinstor Chandler today introduced the caucus committee's bill for an interpational monetary conference, and asked to have it voted upon tomorrow without going through a committee. So far Senator Tettigrew is the only member of the senate who has announced an intention to oppose the bill by vote, though it is expected that others, while giving it no effective opposi-tion, will take the position that nothing can be accomplished by international action. Mr. Petrigrow will make a speach against the bill, taking the position that against the bill, taking the position that to seek an international agreement amounts to making this country a sup-pliant of England, which is, he says, the chief beneficiary of the present system.

The legislative, executive and judicial and the military academy appropriation bills were reported from the committee on appropriations today and their early coneration will be asked.

Efforts may be made in executive session to reopen the discussion of the extradition treaties, but this will be restated by the committee on foreign relations.

The coming week in the house is likely to be uneventful. There are no bills of great national importance on the house calendar which are to be debated, unless the supporters of the Nicaragua canal project should succeed in persuading the committee on rules to assign them one or nore days for consideration of that meas- Dyspepsia Tablets.
