THE DEMOGRATIC TICKET. The Democratic conferrers have met and parformed their work-und from a Democratic standpoint, it is anything but estialise tory. Never in the history of the horoughwere the Democratic primaries attended with the complyants of new at reduced rates. Such bitter partisan fusing, especially in the First and Fifth wards. party leaders was the nomination for Borough Justice. The name of ex-Squire Rynkiewicz was the only ous discussed and he was the transimous choice of his people. They did not want Chief Burgess, neither did they desire Tubor. It will be remembered ian church on the 7th of December, they demanded the nemination for Chief Burgers, Borough Justice and Councilman from the Fifth ward. The Democratic leaders conaldered they were justly entitled to these positions, and assured tham they would be accorded to them.

In proof of this statement, we take the following from the Democratic organ on Coal Grohler Bros., d.ug store. street, of December 11th;

This, so doubt sounded very well, and ap- purformance four escaped. peared nice on paper, but the result of the primaries shows that the Democratic party leaders have broken faith with the Polish and the Lithuanian voters of that party, and the nomination they have given them is that which they least desired. The ignominious turning down of Messrs, Rynkawicz and Onuszcznk, candidates for Justica and Council respectively, proves one of two things. Either the Democratic party had no intentions of carrying out their promises to these people, or they were using the committee to hoodwink the Pelish and Lithusnian voters in securing the nomination of certain candidates. It is plain, however, that the great bulk of these people realize that they can place little confidence in the promises of the party leaders, who conceded them so much and gave them so little.

Our Democratic friends are indeed between the davil and the deep blue sea. Their ward nominations give as little entisfaction as does the borough ticket. The Germans have not one representative. In the First, Fourth and Fifth wants, which are generally conceded to be Democratic wards and a chance for election, the nominees for Council and Hobbel Board are all of one nationality. Not one German is named. Neither door n representative of the Polish and Lithuanian people appear upon these tickets, notwithand Third wards, which always return a cafe | the Mes with \$1,000. malerity for the Citizens party, the tickets ars named by a committee in the bope of exiching a few votes for the borough ticket. The neminees on the berough ticket do tel come up the requirements of the positions

The term of Chief Burgoss is for three Utyrears, and there should be no mistake made selecting a man as the Chief Excentive of the largest town in the county. With a strict auforcement of the borough ordinances and attention to duty on the part of the Burgess many improvements can be made. It is also nacemary to use the same precaution in the election of a Receiver of Taxes. This position damands an energatic and positive man, who will so avalumatize the business of the effice that the exeneration lists will decrease rather than increase, so that the borough and school transuries will be benefited thereby. The Democratic numinees do not size up to the requirements, a fact comcoded by many of their own party.

The Citizens party, in view of the state of affairs that exists within the ranks of the local Democracy and the unpopularity of the numinees, has an excellent chance of recording a glorious victory. Much depends, however, upon the result of the primaries on Thursday. The interest manifested in the contests now on argues well for party success at the polls, and if this interest is followed up Is the One True Blood Purifier.
