DESPITE all the advice poured in by peace societies to hurry up the ratification of the arbitration treaty, the Senate will take ittime deliberating over that important compact, and there is no reason for hurry. All the sentimental gook about the brotherhood redound more to his benefit than that of the other party mer that other fact that, of all the nations of Europe, England has been less friendly to the United States than any other. It is a community devoutly to be wished that war be done away with, but a treaty of this kind will not spoil for a few menths Wirch longer while It is being dissected by the Senate. Already some things are found upon which it is not as explicit as it should be and the nation can rest easy that John Bull will not rush to war with us while we consider his proposals.

The result of the Citizens primaries last evening, in direct contrast to the Democratic evening in direct contrast to the Democratic conferree election, is satisfactory to the reters of the party. The outcome of the vectors Senator John M. Thurston beyond contest places the result of the election in February beyond the shadow of doubt. What the exact legal status of the case may be, the people naturally think they should have a choice in saying who shall fill this most important office, especially so since the Schuylkill county court has declayed that the present Borough Justices were illegally elected.

Taken collectively the bloket nominated last evening is the strongest that the Citizens party has placed in the field for a number of years.
