

PECULIAR POISONS.

GENERATED IN THE HUMAN BODY. The Result of Imperfect Digestion of Food.

Every living thing, plant or animal, contains within itself the germs of certain diseases and death.

In the human body these germs of disease and death (which by scientific pronunciation, are usually the result of imperfect digestion of food) the result of indigestion or dyspepsia.

The stomach, from abuse, weakness, does not promptly and thoroughly digest the food. The result is a heavy, sodden mass which ferments in the first process of decay.

Bad digestion irritates the heart, causing palpitation and finally bringing on disease of this very important organ.

Poor digestion poisons the kidneys, causing Bright's disease and diabetes.

And this is so because every organ, every nerve depends upon the stomach alone for nourishment and renewal.

The great English scientist, Huxley, said the best start in life is a sound stomach. Weak stomachs fail to digest food properly.

Stuart's Dyspepsia Tablets will cure every form of stomach trouble except cancer of the stomach.

They increase flesh, insure pure blood, strengthen a bright eye and clear complexion.

Nearly all druggists sell Stuart's Dyspepsia Tablets at 25 cents a box.

ECKELS ON CURRENCY.

Gives His Views Before the House Committee on Banking.

WASHINGTON, Jan. 28.—The controller of the currency, Mr. Eckels, yesterday gave his views upon the financial condition of the country to the house committee on banking and currency.

He said that the chief feature of a banking bill would be to take from the government the issue of credit notes.

He said that the chief feature of a banking bill would be to take from the government the issue of credit notes.
