An exchange says: "Many people express surprise to been that the New York World was originally projected as a religious daily newspaper. The World is not the first 'saint that fell from grace.' It is now a fit remposiion for the Police Gazette." And there are others, not so far away.

TAMAQUA now has three newspapers-one tri-weekly and two weeklies. The butest addition is the Weekly Herald, which gives promise of a successful career. If the Herald can set the part of a peace-maker between in two contemporaries it will have "filled a long felt want," and receive the

The amost report of County Controller B. R Severn was presented to court ou Saturday. Heretofore the Amiltors have prepared the annual statement of the county's receipts and expenditures. Mr. Severn's report is a comprobensive one, covering sixteen pages of type-written matter, about three feet in length and over a foot in width. The Controller offers several important recommendations, the most important of which is that suggesting the assembling of grand juries prior to the halding of the regular sessions of criminal court. The Controller is of the ex controller opinion that it would be a saving to the county, and a great service to the public and would expedite business to have the grand Jury assemble previous to the regular ming, who murdered Mrs. Mary Deaning grand Jury assemble previous to the regular sessions of the court. A WINNER.

The prediction of the HEBALD, the day following the primary elections, that the Citizens ticket was a winner is made more apparent the nearer we approach the day of election. The popularity of the Individual candidates has caused consternation within in New York, and gave other words of the ranks of the coposition—they see the encouragement. Today she is visiting the the ranks of the opposition-they see the on handwriting on the wall, and know not prisoners in their colis. which way to turn for shelter from the forthcoming political deluge.

The honest voters of the Democratic party will resent the insult the self-constituted "bosone" have firing in their faces by refusing them a choice as to the personnel of the ticket. As a result of "bota" manipulations with headquarters in the First and Fifth wards-the most unpepular and incompetent of the many candidates of that party socking political preferment have been placed upon

The primary elections of the Citizens party present a result in direct contrast to that of our friends the enomy. The Crawford county system of voting affords no such opportunity for manipulations by scheming politicians the voters cast their ballot direct for the candidate, and the one receiving the non-Jerity of votes must of necessity be the popular choice. This is why the Citizens neurinations-both borough and wards-have been received with such popular approval. Their popularity is not alone confined to the horders of our town, as the following comment from the columns of the Pottsvilla Republican slearly shows: "The Citizens tinket of Sheundoub is constructed of such good material that there is a feeling of security amongst the masses of people of the town that it will go through to victory with a whosp and a hurrah. If any town in this great county stands in need of a good, strong horough government, that one is Shenandoah. Its greatest need, if the records of our Criminal Court are any criterion, is a hold fearless Burgess, basked up by a law-respecting Council and a strong police force and emistabulary composed of American citizens. This is a matter that has a bearing upon the unxpayers of the whole county, who are interested in seeing our count exponses reduced.
