Dr. Hartley Remains.

The fact that Dr. G. S. Hartley has sequired sele ownership of the Albany Dental Rooms at Mahanoy City and has arranged to igive some of his personal attention to the catabilishment has given rise to reports that he has severed his connection with the Shenandeah Dental Rooms. This is not the case. Dr. Hartley continues as proprietor of the latter establishment and will give personal attention to both, but in order to meet the demands of the rapidly increasing business. Dr. J. W. Angles, of Rending, has been excured to act as manager of the local branch. Dr. Angles is an experienced dentist, as well as a gentleman of excellent personal qualifications and will undoubtedly fill his position as manager of the Shenandeah Dental Rooms with mutual attisfaction and sprofit to the business and the patrons of the Shenandeah Dantal Rooms.

ENTOMBED IN A MINE. The Terrible Fate of Four Michigan Mine

HOUGHTON, Mich., Feb. 3.-Four men are entomed in the burning North Tama-rack mine, which caught fire yesterday, and small hopes are entertained for their escape. It is thought probable that all are dead from breathing the poisonous gases. The missing men are: Peter Limpes and his 20-year-old son, William and William Temazhoaki and his 10-year-old son, Antonio.

Shortly after 7 o'clock in the morning announcement was made that a fire had broken out in the mine, which is sit-uated about a mile north of the famous Calciumet and Hecia. An alarm was immediately sent to a hundred men employed in this shaft, and all of them escaped. POLITICS ARE GROWING WARM

and Doing Effective Work With the Endorsement and Assistance of the Regular Republicans-Fruitless Democratic Efforts.

Politics have again floated to the surface of local topics and is the prevailing theme in nearly all public places. In some quarters the discussion grows so warm that personal shoomters have been brought about. The inter results, however, have only been dis-cernable in the Democratic circles, in which there are unuistakable evidences of bad feeling and revolution. One of the clashes took place in an East Centre street saloon yesterday, when a prominent Democrat of the Second ward who has been quite active lately in denouncing certain proceedings of his party in that ward, was assaulted by one of the Democratic leaders. The encounter was not attended by any serious results to either of the parties, however, and has been put on record with one of the "little family jars" which have become quite numerous in Second ward Democrafic politics this year.

There is a determined effort on the part of ome Democrats to whitewash the spirit of revolution and independence that exists in the party, but they have thus far failed to revolution and independence that exists in the party, but they have thus far failed to get the coating sufficiently thick and the bad color will show. As a sample of this effect the Coal street organ has tried to break the force of the "Fair Play" letter which appeared in the Hanald a few days ago by declaring that the communication was written in the Hanald and no other belief will be entertained unless the name of the writer is farmished. This statement has brought to the front the party who was responsible for the pathication with a declaration that if the newspaper raising the question will give good reasons for asking the name of the correspondent he will furnish his name for publication, but he will not do so to satisfy more carriedly. This party is evidently very determined in the stand he has taken and asy to has nothing to fear by the publication of his name. He adds that he first took the letter to the Coal street organ and select them to publish it. The person to whom he applied made a memoranda of the matter, but the paper failed to either publish the letter, or the memoranda, and the correspondent then submitted the letter to the Hilbard. If such are the facts the Coal street organ and street organ most know who the writer is the Henald.
