By the promotion of Mr. Thomsen the office of first vice pessident of the Pannaylvania Railrand company has become vacant, and whether the board will simply appoint a successor or move the second and third vice presidents to first and second respectively is entirely a matter of speculation at present. The popular conjecture is that John P. Green will become first vice president, Charles E Fugh second vice president, and that General Manager S. M. BTRANGE UTTERANCES OF A MAN IN NEW YORK.

He Says McKinley Will He Our Last President-The World Will Not End-But There Will Be a Wonderful Change. Fixes the Date as 1001.

In the Hible House, New York city, there is preaching now a man who speaks like an Englishman, and whose name is Beverly O. Kinnear. The subject of his talks is the end of the world, and, unlike PHILADELPHIA, Feb. 4.—Frank Thomson was elected president of the Fennsylvania Railroad company posterilay as anocessor to the late George H. Roberts, who died at his home in Hala on Saturday last. The board of directors hald a special meeting, and Mr. Thomson was the unablinous choice for the high office which he is now called upon to fill.

During the long illness of Mr. Roberts the duties of president were actively discharged by First Vice President Thomson in the capacity of acting president, and the affairs of the great corporation continued to thoursh under his management.

ance which extended over the middle and southeastern states was one of the prelim-inary throes of a great cataclysm.' "These undoubted authorities show that the time is near at hand. We know that the end of the age is within this genera-tion, but whether the present generation began in 1870 or in 1871 we do not know. That is where chronology is liable to eir. But the time is near, and we must be

watching for it.

It will be argued next week. The charge against Police Captain George S. Chapman, who raided the dinner, were dismissed yesterday by a unanimous vote of the police board.
