sands of babes are still-born every year because women innocently and ignorantly neglect, during the expectant period, to take proper care of the delicate and important organs that bear the hurdens of maternity.

There is just one known medicine that prepares a woman for capable motherhood. It is Dr. Pierce's Favorite Prescription. It acts directly and only on the organs concerned in motherhood making them strong and leasticity. It allays inflammation, heals ulceration, soothes pain and gives rest to the tortured nerves. It does away with the discomforts of the expectant period, and makes the coming of baby easy and almost painless. It insures the health of baby.
