

MADANOV CITY.
No Change in the Lakeside Railway Management.
MADANOV CITY, Feb. 5.—Inquiries at the Lakeside Railway headquarters do not bear out the statement published by some newspapers to the effect that the road has been transferred to the management of E. W. Ash and that Mr. Ash is now managing that line in conjunction with his management of the Schuylkill Traction lines, although it is believed that changes will be made in the near future. At present Dallas Sanders, of Philadelphia, the president of the Lakeside line, is in full charge of the road, and his affairs are being conducted as in the past.

HIS ASHES SOLD.
The remains of banker Aroon bought at Public Auction For \$7.75.
The ashes of a human being were sold in the town at an auction in Bromberg, Germany, two weeks ago. They were sold without reserve and were obtained by the highest bidder for \$7.75. The highest bidder was not of the town, but he had been carried over the mortuary and his contents to his home with appropriate care and solemnity.

Without Hands, Yet Accused of Forgery.
The Rev. A. R. Fowler, who is minus both hands, was arrested at Amblinton, Ala., the other afternoon, being wanted in Elberton, Ga., on a charge of forging three rent notes and a mortgage on a farm. Fowler was pastor of the Elberton Presbyterian church for three months last year. Fowler lost his hands within a few weeks of each other about three years ago. He took out an accident policy for \$5,000, and seven days afterward one of his hands was shot off while hunting. When this wound healed and before the first policy was paid, another policy was taken out. Fowler went out hunting again, and his other hand came back with the other hand blown to pieces. The insurance company is fighting the payment of the policy on the ground that the loss of the hands was not due to accident. It is not explained how the alleged forgery was committed.—St. Louis Globe-Democrat.

Tours to Florida.
No district in America presents during the winter season, more attractive a prospect to the State of Florida. Besides its delightful climate, which to one so far up from the cold and unwholesome changes of the North seems almost ethereal, it is to be had in a land of sport and pleasure. Along its eleven hundred miles of salt water coast and in its twenty-four hundred fresh water lakes are fish of almost every conceivable variety, from the infatigable trout common to Northern waters to the tarpon, pompano, and others of a more tropical character. Nowhere in all our broad land can the angler find a greater variety of game or better sport.

Help Comes to Those Who Take Rail Play Oil—For sprains, burns, cuts. At Grubler Bros., drug store.
To Revise the Constitution.
Senator Bromley has introduced a resolution requesting congress to call a convention for the revision of the constitution of the United States and soliciting other states to take similar action. The preamble says:
"It is necessary that changes be made in the present constitution in order to adapt it to the present conditions and to protect the country against great and impending dangers, and to prevent any improper judicial encroachments and the abnormal growth of powerful corporations and influences that could not be foreseen at the time of the adoption of the constitution."

WHAT IS PAINE'S CELEBY COMPOUND?

Paine's celery compound is the one remedy that can be trusted to make a person well. It stops the drain on the nervous system; dispels harmful humors from the blood, and increases its volume and its nourishing capacity.

It is ability to relieve those ailments that seem to be peculiarly the misfortune of women is overwhelmingly proved by the many testimonials from women of the highest standing in the communities where they live.

Tours to California.
California has been most fittingly termed the "Italy of America." All the delicious fruits, the cloudless sky, and the rich verdure of the great Oregon peninsula are duplicated in this sunny land of the Pacific.

kindred troubles, are recognized and dealt with by Paine's celery compound, in a rational and scientific manner that embodies the most advanced medical ideas of this last decade of the century.

Paine's celery compound strengthens the stomach when it is irritable and inclined to indigestion, and prevents dyspepsia; it regulates the action of the heart that results from irregular nerve supply to that vital organ, and puts new life into the entire nervous system.
