In conclusion he culogized the efforts of Ambassa-dor Bayard in England in the interests

dor Bayard in England in the interacts of peace and good will. Ambassador Bayard was louidly cheered whan he rose to respond. He alluded in general terms to the uni-versality of science and the effect pro-duced by Dr. Nanaed's explorations, and the writings by Captain Mahan upon mivial subjects. He referred to the importance of the rule of the road at sea to come into operation next July. He made a direct allusion to the arbi-tration treaty, and inquired" whether, with this important measure and the with this important measure a whether, with this important measure and the matter of the rule of the read at sea actiled, it could not be believed that all other differences could be disposed of by arbitration. This was followed by loud and long continued cheering Continuing Mr. Bayard said: "We have been be received the lord

"We have here in person the lord chief justice of England, Earon Russell, of Killowen, the greatest livin advocate of that great principle. I d not for one moment believe that the spirit that moved him and animated the people behind him, and the spirit in which he has been received, can long be delayed. It cannot he perma-nently obstructed. It may be delayed, but it cannot be defeated. "I here way in the near and T here to

"I leave you in peace, and I hope to learn that you are always at peace with the world. I have labored for a better understanding between the well meaning man of both countries. I do not pretend to speak for others, for I am glad to say I am not their accredit-ed areas I have a better accredited agent. I have always worn my colors in my cap, No one can doubt colors in my cap. No one can doubt then, if plain speaking can make them believe, that the real heart of the American people, for which alone I pretend to speak, is for a manly trust between the people of bath countries." The architetop of Canterbury said in responding to Mr. Bayard's address: "Architetop the Mr. Bayard's address:

I. M. BUBKE, to Be Settled. ATTORNEY-AT-LAW. It is important, in the opinion of Pro-fessor Edinges, the well known savant of Frankfort on Main, to obtain an answer to the question, Do fish possess the faculty of memory? The result would settle an im-portant point in comparative psychology. The professor writes: Office-Egan building, corner of Main and J. H. POMEROY,

"It is widely accepted that fish possess a ourtain degree of memory; that they pose-nize persons and know what places to fre-quent and what places to avoid, according E. W. SHOEMAKER, duent and what places to avoid, according to the experience they have gained; that, having once been caught by a hook, they know one again when they see it, and so on. For scientific comparative psychology it is highly desirable that all evidence tend-Corner Market and Centre streets. NOF JOHN JONES,

the view that the function of memory is essentially connected with the existence of a coating to the brain. We know nothing about the capacity of the deeper portions of the brain in this connection. Now, it has the brain in this connection. Now, it has been successfully shown that fish have no trace whatever of a conting to the brain. If one can prove beyond question that these creatures really collect their experience and can utilize it afterward—namely, that they possess the faculty of memory—we shall have to drop the destrine hitherto as-cepted that is is only the conting of the brain that gives this faculty, and then the deer is once to an entirely new series of Cures general or special debility, wakeful-bess, spermeter tess, emistions, impotency, means, etc. Lorenz functional disorders, door is open to an entirely new series of experiments."
