FREE CURE FOR MEN.

A Michigan Man Offers to Send His Discovery Free. Claims to Be a Benefactor to Weakened Mankind.

There is always more or less auspicion attached to anything that is offered free but sometimes a man so overflows with generosity that he campt rest utili his discovery is known to the world, in order that his fellow men may profit by what he has discovered. It is upon this principal that a resident of Kalamazso, Mich., desires to sould free to mankind a prescription which will core them of any form of nervous debility; relieves them of all the doubt and uncertainty which such onen are peculiarly liable to and restores the organs to natural size and vigor. As it costs nothing to try the experiment it would seem that any man, suffering with the nervent troubles that manily attack men who never stopped to realize what might be the final result, sught to be deeply interested in a ramedy which will restore them to bealth, strength and vigor, without which they continue to live an existence of untold allowy. As the remedy in question was the result of many years remarch as to what combination would be peculiarly effective in restoring to men the strength they need, it would seem that all men suffering with any form of hervous weakness ought to write for such a remedy at once. A request to H. C. Olds Sox 1712, Kalamazson, Mich., stating that you are not sounding for the prescription out of title carriesty, but that you wish to make use of the medicine by giving its trial, will be answered promptly and without any long the proscription in sent free and although some may wonder how Mr. Olds can afford to give away his discovery, there is no doubt that the offer being genuine. Referring to the ill treatment of so-cialists, Herr Bebel complained that the men could only seek retress in civil courts after they left the army for acts of brutality. The rescript of Emperor William regarding the sub-ject of dueling conflicted with the law, as exceptions were permitted. General Von Gossler, the minister for war, might say what he liked, continued Herr Bebel, but humanity was advanc-

ing, and monarchy was certainly not the highest point of development.

The Socialists cheered Herr Bebel's remarks, which made quite a stir in the section of the right.

General Von Gossler replied that the Socialists were revolutionists, and that Herr Bebel's conduct at Hamburg in calling a captain an "ass" only excited contempt. He said that statistics showed that deaths from mickness in the army, due to maneuvers during hot weather, were steadily decreasing Suicides and cases of ill treatment were also on the decrease. If cases of ill treatment and due still occurred they must be regarded as being due to human nature. Concerning the matter of rescript, the minister for war thought that "honor and all are best safe guarded in the hands of the supreme war lord."
