A NEW FACE ON KELLY

UNIQUE SURGICAL OPERATION PER-PORMED IN BELLEVUE HOSPITAL.

Exclids Made to Order-Skin From His Perchand, Cur In the Shape of the Missing Alember, Winks Perfectly -Arm Cutiote Makes a Cheek.

Patrick Kelly is in Bellevne boudtal, New York, with a practically now face. When he went there, he had lost his left eyelid, and the sain of his check had been stem away. A new cyclid has been grafted on, and sidn has been taken from his gens and made to grow on his check, so that he is now as good looking as the average man in his station of life. Hardly a sur remains to hear evidence to the treat-

The unique and remarkable operation in facial surgery was performed by Dr. E. S. Pook, the physician in clarge of the oph-thaliale ward. Dr. Peek the other day pronounced Kelly cured. The patient will ave the institution within the next few

Kelly ben day laborer, 60 years of age and unmarried. About six years ago small tumors formal on the apper and lower lids

hal or face cancer developed on the parts operated on. In November, when Kelly entered the hospital, the disease had eiten away the greater parties of the upper lid, had attacked the lower lid and had spread

and attacked the lower-lid and had spread over a good portion of the check.

After treating the pure with antisepties for several days Dr. Peck removed the up-per-lid, to other with a portion of the cyc-brow, but retained a thin slice of the flesh that held the roots of the cyclashes.

Isginning at the root of the rese, he

then curs a leaf shaped piece of skin from Kelly's forehead. This was moded into the form of an eyelid, the flesh strip, with the half waits attached, was stitched to it kind the whole fitted into the place of the

Withdra a few days the new lid had not CLOSING OUT AT RELOW COST ! only formed a perfect junction with the old surface, but, in addition, it had developed

muscular action.

To his bugs deligit Kelly found that he could wtuk, a thing which he hadn't been able to do for years. Dr. Peck then turned libs of ention to

Dr. Peek hop turned his at suiten to the lower lift and cheek. The kulfe was used disparingly. Then a piece of skin, shaped something like a short, thick hockey sick and measuring 5 by 3 inches at is broadest pers, was cut off the inner and upper part of the patient's arm.

Defore the cuthde had lost its normal

warmth it was present on the raw check, A week later it had taken firm root, and the operation as a whole was pronounced Curiously enough, Folly's forchesd

shows no trace of the initial robbery of the

skin. The case is, from a medical standpoint, unique and inferesting, innermed as it suggests a nevel and apparently satisfactory method of treating a particularly leathsome disease and again because the feasibility of transplanting a large piece of live skill from one part of the body to another transplanting a large piece of live skill from one part of the body to another transplanting a large piece of live skill from the willow the skill from the particular transplanting and the skill from the skill from the particular transplanting and the skill from ether part, and that without the skin los-log its vitality in transit, has long been a arbject of dispute among physicians.— New York Evening Journal.

A SILVER PALACE.

Edward Resewater, chief of the bureau of malicity and promotion of the Transmissed apple exposition, to be held in Omalia from June to November, 1898, acting for the exposition directors, has approved and accepted the plans for a silver palace. This accepted the plans for a silver palace. This is to be one of the imposing feation and the central figure of the control of the central figure of the control of the central figure of the control of the central figure of

The building is to be 100 feet square, surmounted with mammeth ornamental towers, and the entire structure will be covered with rolled sliver. The sliver to be used in its external covering will be contributed by the miners of the great west. Over 200,000 square feet of external surface will be covered by the precious

The silver palace will be used entirely for the display of the mineral products and progress of the west. The amount of pure silver to be used in covering the walls and dome of this mammoth building has not been definitely estimated. It will largely depend upon the thinness of the sheets of pure metal that can be used for this pur-
