Tours to California.

California has been most fittingly termed the "Italy of America." All the delicious land, the splendid sky, and the rich verdure of the great European peninsula are duplicated in this sunny land.

The Pennsylvania Railroad Company, recognizing the need of a more comfortable and pleasant way of crossing the continent, inaugurated a series of annual tours to California, routing a through train of Pullman Palace cars from New York to the Pacific Coast, and stopping at the principal points of interest en route.

For the season of 1907 three tours have been arranged to leave New York, Philadelphia and Pittsburgh, January 27, February 24, and March 27.

The first tour will run direct to San Diego via St. Louis and the Santa Fe route, and return from San Francisco via Salt Lake City, Denver, and Chicago, following five weeks in California.

The second tour will run via the Mammoth Cave and New Orleans to San Diego, stopping at the "Crescent City" during the Mardi Gras Carnival. This tour will return via Salt Lake City, Denver, Omaha, and Chicago, following four weeks in California.

The third tour will run via Chicago, Denver, and Salt Lake City, allowing passengers to return by regular trains via different routes within nine months.

All of these tours, either going or returning, will pass through the famous Colorado region, Glenwood Springs, Leadville and the Garden of the Gods.

For detailed itineraries and other information, apply at ticket agencies, special booking offices, or address George W. Boyd, Assistant General Passenger Agent, Broad Street Station, Philadelphia.

Tours to Florida.
No district in America presents, during the winter season, so many varied attractions as the State of Florida. Its climate is so delightful, which is to be seen in the soil and undulating changes of the North, seems almost ethereal. It is pre-eminently a land of sport and pleasure.

Here also the most enthusiastic hunter finds plenty of deer, turkeys, bears, panthers, and wild cats roam at large through the more sparsely settled regions, while birds of all kinds may be found in abundance throughout the State. The more novel sport of alligator and minnow hunting may also be indulged in by the more adventurous tourist.

To this attractive state the Pennsylvania Railroad Company has arranged four particularly convenient tours during the season of 1907, leaving by special train January 26, February 9 and 23, and March 9. The first three tours will admit of a journey of two weeks in this delightful land; tickets for the fourth tour will be valid to return until May 31 by regular trains.

Rates for the round trip, \$50.00 from New York, \$40.00 from Philadelphia, and proportionate rates from other points.

For tickets, itineraries and other information, apply to ticket agents, special booking offices, or address Geo. W. Boyd, Assistant General Passenger Agent, Broad street station, Philadelphia.

The little daughter of Mr. Fred Webber, Holland, Mass., had a very bad cold and cough which he had not been able to cure with any thing. I gave him a 25 cent bottle of Chamberlain's Cough Remedy, says W. P. Holden, merchant and postmaster at West Brimfield, and the next time I saw him he said it worked like a charm. This remedy is intended especially for acute throat and lung diseases such as cold, croup and whooping cough, and it is famous for its cures. There is no danger in giving it to children; it contains nothing injurious. For sale by Grubler Bros., druggists.

THE X RAYS.
It Is Said They Will Show Whether a Person is Really Dead.
Quite a host of discoveries in connection with the Roentgen ray investigations has been reported from the European continent within a few days. That reported by Professor Friedrich to the Vienna Academy of Sciences is the most important. The professor discovered certain black rays that issue from the vacuum tube and pass through the human body. The photographs produced by means of these rays, which the professor calls "critical rays," are not the same when taken of a living body as from a dead one. Photographs of living hands show the skeleton as in the Roentgen photographs. A dead hand appears in full, showing all the bony integument, while the bones remain invisible. It is thought that by means of these rays it may be ascertained whether a person is really dead.

The use of the Roentgen rays as a hair extirpator is also reported. Dr. Freund, also of Vienna, tried them upon a boy whose spine was hidden by an abundant crop of hair. The hair is known to be the cause of hypertrichosis. Dr. Freund turned the rays upon the boy's back, and the superfluous hair vanished, roots and all. The boy, no longer an infant phenomenon, has been taken to the medical academy in Vienna, and photographs of his condition before and after are circulating in that city. The Prussian government has appropriated \$12,000 for Roentgen ray experiments during the current year. — New York Sun.

It pays us to lose— Sometimes!
Here's a case in point. We have left a small lot of those excellent, popular warm-lined shoes. We haven't the room, nor the disposition to keep them until next winter, and rather than run the risk of so doing we've cut the prices even below the money-saving factory prices.

It's positive loss to us, but we'd rather lose than carry them over. Factory prices were 65c., 75c., \$1 and \$1.25. The get-out-quickly figures are 50c., 60c., 75c. and \$1. If you want a taste of this best of all shoe chances, you must come quickly. Can't last long at these prices. Checks with every purchase; \$25 worth gets a handsome Parlor Lamp.

EXTRA!
Your attention is called to the fact that we have ordered a Special Sale of CLOTHING and OVERCOATS for the next 15 days, commencing to-day. We have decided that as our spring stock will soon be shipped we must have room to place it. Past experience has taught us that we must have room and we intend to uphold the old custom by marking all our CLOTHING and OVERCOATS at such low figures that the men, boys and children of Shenandoah should have at least one good suit. Note the following prices which is proof that we mean business:

SUITS.		OVERCOATS.	
\$5.00 Suit for	\$2.00	\$5.00 Overcoat for	\$2.75
6.00 " " " "	2.50	6.00 " " " "	3.00
7.00 " " " "	3.00	7.00 " " " "	3.50
8.00 " " " "	3.50	8.00 " " " "	4.50
9.00 " " " "	4.00	9.00 " " " "	5.00

All other goods proportionally low, and these goods are not shelf worn, but are the styles of last season; they must be sold. You may imagine that these prices are only a fake to draw custom, "but the proof of the pudding is in the eating," and we can prove it by our large show windows, which, if you will examine, are filled with goods at such marked down prices that were never offered before to the people of this county. It is a well-known fact that we are the largest and cheapest clothing house in this section of the State, and we will endeavor to always uphold that reputation.

Eczema All Her Life.
Mr. E. D. Jenkins, of Lithonia, Ga., says that his daughter, Ida, inherited a severe case of Eczema, which the usual mercery and potash remedies failed to relieve. Year by year she was treated with various medicines, external applications and internal remedies, without result. Her sufferings were intense, and her condition grew steadily worse. All the so-called blood remedies did not seem to reach the disease at all until S.S.S. was given, when an improvement was at once noticed. The medicine was continued with favorable results, and now she is cured, sound and well, her skin is perfectly clear and pure and she has been saved from what threatened to blight her life forever.

S.S.S. (guaranteed purely vegetable) cures Eczema, Scrofula, Cancer, Rheumatism, or any other blood trouble. It is a real blood remedy and always cures even after all else fails.

Afraid of Gibson. P. J. McEllis, of Centralia, has abandoned the fast carnival that was to be pulled off in Ashland on St. Patrick's day, March 17, owing to the refusal of some of the "pugs" to cooperate with him. The star event of this carnival was to be a limited contest of six rounds between Barry McDonald, of Mt. Carmel, and William Gibson, of Palo Alto, but the former seems to fear Gibson as he would not consent to any reasonable terms. Gibson was very anxious to meet him, however, and would agree to almost any terms.

Novel Showing of Easter Hats and Bonnets. A novel method of presenting the newest and freshest Easteride creations of Paris milliners has been adopted by The Ladies' Home Journal for March. In that magazine the new French styles and bonnets will be pictured, as they are worn. This unique display is useful, therefore, in pointing out clearly not only fashion's decrees, but the styles in headwear best suited to several contrasted types and faces.

Back Out Again. The Columbia Brewing Company's corps of employes were kept busy to-day distributing the company's back beer, the first of the season.

PIPERY POINTS.
Happenings Throughout the Country Chronicle for Hasty Perusal. Olinville wants a bicycle factory. Felix Kluck has been drawn as a juror for the March term of court. William O'Conner, a Reading harness, is said to be heir to \$65,000.

The Columbia Hose Company advertises its sprinkler for sale in another column. The employes of the Schuylkill Traction Company received their wages yesterday. Eastern buyers stole \$400 worth of wedding presents from Thomas Martin on Thursday night.

Mr. and Mrs. John Jacoby, of Myerstown, who died but a day apart, were buried yesterday. Reading has put a stop to Alderman and Justice releasing prisoners they did not commit. A Massachusetts editor celebrated the arrival of triplets at his house by printing his paper to red.

John Sifford, a well known grocer of Annapolis, has fallen. The judgments consolidated aggregate \$11,616.55. The Red Crook Burlesque Company is heading this way, and the newspapers are handling it without gloves. Mayor Gray, of the Reading Railway Company, will pay out \$80,000 to employes in Reading for wages for January.

FOUND THE TRUE REMEDY.
Paine's Celery Compound Brought Health to Prof. Shubert.

The incalculable amount of good that Paine's celery compound is doing in making sick and even despairing people well, should compel the attention of every judicious person who is out-of-health. The underlying cause of nervous debility, apparent in headaches, dyspepsia, sleeplessness and neuralgia, is faulty nutrition of the entire nervous system.

So long as the blood is pale, watery and impure by bad humors the nerves cannot assimilate from its proper nutriment, no matter how much food is taken into the system. Paine's celery compound restores a hearty appetite, regulates the bowels and brings about a normal action of the liver. It economizes the expenditure of nerve force and makes the blood a healthy medium capable of conveying nutriment to all the vital organs.

This is the sweeping and thorough manner in which Paine's celery compound from the system not only of rheumatism, eczema, salt rheum and other diseases due to impure blood, but also of neuralgia, sleeplessness and nervous headaches and dyspepsia that are brought about by a "run-down" state of the nerves.

Writing from his home, University Place, N. Y., on Dec. 9, Prof. J. W. Shubert said: "I am brought back to health through the use of Paine's celery compound, which I regard as by far the best and really the only true remedy for nervous troubles that I have ever used. I do not hesitate after my experience and that of several friends to recommend it for all forms of nervous troubles. I am indebted to Paine's celery compound for many a good night's rest, and if it produces no other effect than this, it is worth more than money."

Paine's celery compound, upon which so much praise has been bestowed, and which the wealthy and those in the highest positions unhesitatingly endorse, is still within reach of the humblest family in the land.
