Tine dontors tell us that the epidemie of grip which is again upon to covers a very wide area of territory, greater, in fact, than Its predecomors have done. While it appears to be more general, attacking in many cases almost every member of the household, or even of a community, it does not seem to be so severe as it was upon its first appearance which left him a mental week. years ago. It is not only militer, in its first attack, but recovery seems to be more rapid, while the after symptoms are not regarded as nearly so covere or dangerous.

Utah is now a state, and is about to take advantage of the right accorded, and it appears quite probable that Beigham Young will be one of the wurthies whose statue will be decided upon by the state legislature and considerable interest in the matter has been aroused among Congressmen, one of whom, Mr. Intrott, of Masmelmsetts, has introduced a bill probibit ing the erection of any statue in Statuary Hall except by a joint resolution of Congress no that if the measure passes ald Brigham's chances of getting into Congress will be about as slim as most people consider his observes of a front stat in husvon.
