## Evening Herald

FRIDAY, FEBILICARY DS, 1907.

THE high-hat hill has been plaund on the alendar again, and the Legislature our set take a fail out of it.

PARALYSIS may not pay, but it is becoming operations of the other trougs. The caller year by year. An lowed her invested a machine, which he hopes to have in open-tion by the next increal season, for entring core and separating the cars and staller at the rate of fifteen seres a day.

The new gan boats Reissan and Wilming- A. Stretch, C. Matton, N. Y., was nine ton, built at Newport News, are about ready in sectors in this result of the to take their places in Uncle Sam's Navy. The former made an uno field trial trip Tuesday and exceeded the contract speed of 13 knobs by two and one-touch knobs. It is expected the effected trip will develop a speed of nearly, if not quite, 10 knots, a high rate for vessels of that class. The former made an unofficial trial top rate for vessels of that class.

MY HEART HAS MANY FAULTS.

I own my boart has many fanita, Yet hook not cold on me,

For it has still one summy spot-It is a love for theo. Oh, thisk upers the happy hours We have together spent, And ponder not on tille words

My soul had never mount! The true the temptor gamed my heart By this delusive spars, But then they should t not have me to

A wild and dark despair. Oh, thus, I pray let not my have From its repose be driven! But give me thy dear hand and say,

Dear love, thou art forgiven." -New York Ledger. BALDNESS.

### A Dermstologist Says It May Be Unknown In Another Generation.

Now the real cause of baldness has been d'scovered, and a French dormatologist, Dr. Labourand, suggests a remedy. By the use of this remody, he says, haldness out be prevented, and in the next genera-

tion it may be unknown. It has been known for some time among medical men that heldness is a discose. It has even been supposed to be due to a specific microbe. In fact, such an extraordisary amount of syldence in favor of the theory has been accumulated that the idea is now generally accepted. Dr. Labour-and's investigation on the subject has been exhaustive and of such a conclusive enture as to add heavy re-enforcements to the al-ready existing microble theory. He believes that the discase is contagious and that the nume of contagion and the speculing of microbes is due to the barber's instru

mental He presents strong ovidence in support of this theory. According to Labourand, the typical diseased hair is found at the edge of a constantly enlarging hold spot. It is the stimp of what was once a long halr. It is shaped like an interrogation point. It grows less in diameter toward the root and has lost its color, being either gray or

white. The normal pith canal is wanting at the root, which is itself no longer bulb ous and hollowed for the papilla, but dis-torial in shape and hardoned. Within the root suck a fittle bulb may be seen developing if examined under the magnifying glass. It is this which is said to be the

enuse of the disease. In the good hair this balls or intricute is full and cloud and contains in its collicompact closures of microbes, a culture of the smallest bacillus known. As the ra crobe matures it may because one one-hun-dreith of an inch in width. It is bent or

The little daughter of Mr. Fred Webber, Holland, Mass., had a very ball cold and cong't which he had not been able to cure with any thing. I gave him a 25 cent bottle of Chamberlain's Cough Remedy, says W. P. Holden, merchant and postnummer at West Brimfield, and the next time I saw him he sold it worked like a charm. This remedy is intended especially for score throat and lung discuss-

## THE INUNDATED HAMLETS. Great Suffering of Flond Vintims Along

the Receding Sires. Chromesii Feix 22.-At all river points from Pitheburg to Maysville the river is folding very rapidly, Every-where above here mavigation is re-guage. Danger is over in all the in-Induced aparters towns. Suffering at Portaneuth where it was the greaters, is distinishing. The same may be said of Hustion on, Call Galary, flamping Root, Aberdoon and singuille, where the immunition drave out hundreds of

families. From Maysvillo down to Cincinnati, the flord is at He worst. Below Chr-chmati the tributaries are falling to connati the trifutions are calling to solve folly, and though the river is very full the high filds caro and of ten to twolve miles an hour is envirying the water down very rapidly. No environs dam-age or tenses of property and file have been reported from up river points within the tast 40 hours. Eight here in Command and manifes the allows In Cincinnail and vicinity the slipa-tion is at its worst, Uppper Cincinnati, at Pendleton, is proity hadiy flooded. At losst a hundred families are driven from dwellings. They are amply provided for by organized char-ity. Up Mill crick a few families have con driven from home, and many cellars are full of water.

Down the river, at Delhi, Rivewide Coal City and Addyston some Logida have been competied to attantion their homos. Newport, on the Renicolky sid of the river, suffers most propertion-ately. Over 300 families have been driven to higher ground. Large details of police are employed day and night giving relief, nous colliver provisions from besis to issue indging in the second story of their 1 meas. The vil-lage of Bremley, with almost rol in-habitants, is signed while flowed. The dam of the Great lake at Lud-

two Lagoon is in great danger. It is probably within the facts to say that along the Cincinnati river front on both sides of the river, 600 families have been driven from their home-

and as many more competied to it over flooded cellars. It may he error ed that toulaht or tomorrow more a new ration will be rescand at Chr "th and all other points above an
