TILLMAN AND HAWLEY

Engage in Acrimonious Discussion in the Senate. A VERY SERIOUS ACCUSATION. The South Carolina Senator Intimates That the Armor Plate Manufacturers Have Their Paid Agents in the Senate, and Hawley Becomes Excited.

Washington, March 2.—The national senate passed standing forward on appropriation bills yesterday, making such progress that no further apprehension is felt as to the passage of these great fiscal measures.

Although a member of this naval committee, began Mr. Tillman, "and although I have given as much time to this question as I could spare from my other duties, I am not able to give the senator as much information as he wants."

Mr. Tillman took the words from his mouth. "I dare to say," he shouted, "that so far as I can see, there are things here that can be explained on no other theory."

Senator Tillman was unflinching. He thrust a hand in his trousers pocket nonchalantly and looking over to Senator Hawley, coolly retorted: "It is not only as if the gate had been closed, but it is."

Senator Hawley turned pale and trembled visibly. "If the senator applies that to me, I have a sufficient answer," he said.

Two or three other senators gathered around Senator Hawley, endeavoring apparently to calm him. They walked with them into the cloak room while Senator Tillman continued his tirade.

Going on with the subject of armor plate he said he could see no explanation for the state of affairs except that the manufacturers had their friends in the senate chamber.

LEE MEANS BUSINESS.

Our Consul at Havana Acted with Determination. IN THE CASE OF CHARLES SCOTT. The Prisoner was Arrested and Placed in Solitary Confinement in a Filthy Cell for Having Cuban Postage Stamps in His House.—The Cases of Scott and Canaves.

Washington, March 1.—President Cleveland yesterday sent to the senate correspondence relating to American citizens arrested in Cuba. The most important was that of Charles Scott, a citizen of the United States, arrested at Havana. No charges given have been with communication in full at Havana 24 hours. Cannot stand another 24 hours, and have demanded his release.

On the 24th he said in a cable message: "Situation simple. Experience at Guantanamo made it my duty to demand, before too late, that another American who has been incarcerated incommunicado, and did so in courtless times, if you support it and permit it to be released, the trouble will terminate. If you do not I must depart. All others arrested with Scott have been put in communication. Why should the only American in the lot not be? He has been incommunicado now 24 hours."

Later on the same day Mr. Lee wired: "Demand complied with. Scott released from incommunicado today on demand, after 14 days solitary confinement in a cell 5 feet by 11; damp; water on top of cell; no light; no ventilation; anything to sleep on or a chair. Charges of the body removed once in five days. Was charged with having Cuban postage stamps in the house. Scott says he went always 4 hours without water; only two days. He was an employee of the American Gas company."

The most voluminous correspondence is that in the case of Sylvester Scott, correspondent of the New York World, who was arrested on Feb. 5. The documents made it my duty to demand, before too late, that another American who has been incarcerated incommunicado, and did so in courtless times, if you support it and permit it to be released, the trouble will terminate. If you do not I must depart. All others arrested with Scott have been put in communication. Why should the only American in the lot not be? He has been incommunicado now 24 hours."

On Feb. 11 General Lee said that Scott was in a well ventilated cell, and that he had had food and a bed at Sancti Spiritus, to which he added: "Treaty rights have been respected. In hands of civil jurisdiction. I have sent messengers to report case."

General Lee tried to have Scott removed from Sancti Spiritus to Havana, but failed.

The remaining case covered by that of F. J. Canaves, arrested Feb. 13, on what charges does not appear. General Lee's first information to the state department was contained in a telegram of Feb. 13. In this dispatch he conveys the information of the arrest, which he says took place at Sagua, and says that Canaves's report will follow, adding: "Proceedings a great outburst. Similar cases have occurred here on the island. Redress can be obtained here."

On the 25th, General Lee stated in reply to a message from the state department that Canaves had resided at Sagua when arrested and that he had registered at Havana on an American in 1872.

The presence of the message on the clerk's desk was noted about before it was formally laid before the senate, and on the 26th the senate passed a resolution previous to the being laid by the clerk. There was especial interest in the case of Mr. Scott, the telegrams relating to whose case Mr. Morgan had read for the information of the senate. There was especial comment upon the original character of the charges against Scott, that of having Cuban postage stamps in his house, and General Lee's attitude was generally remarked upon by the pro-Cubans in most eulogistic terms. It was only the near approach of the end of the session prevented the precipitation of another Cuban debate.
