# Then Cancer.

Probably no disease carries such terror in its path as Cancer-and well may this dreadful affliction be regarded with horror. In an alarming manner, it slowly but surely preys upon the life's blood, bearing the victim nearer the grave day by day. Beyond the use of the knife the physician is powerless, and too much cannot be said against the folly of resorting to the lenife for a cure of this terrible disease. Canver is in the blood, hence it is apparent to all that no relief can be expected from an operation. In ninety-nine cases out of a hundred the cancer promptly returns, if not in the same place, in the same locality, and is far more ma-lignant than before. The same is true of attempts to remove the cancer by means of caustic planters, etc., and all who have had this treatment claim that death cannot be more painful. But there is a cure for cancer—one which gets at the seat of the disease, and removes its cause. S. S. S. is the only real blood remedy, and cures cancer and all other blood diseases, even after other treatment has falled. One of the well-known residents of

Macon, Ga., is Mr. H. Powers, the con tractor and builder, who lives at 515 Ross atreet. For twenty years Mr. Powers has suffered intensely from a cancer on his face, which was treated constantly, but grew worse all the while. He sought the best medical skill in vain, and could see no hope of ever being cured. On June 22, 1896, he writes: "Twenty

years ago, while being shaved, a small

insignificant sore, to which I paid little attention at first. This sore refused to heal, and after a while became quite obstinate, and began to grow. I placed myself under the treatment of promineat physicians, who said I had cancer of the most stubborn type, and though I took their treatment faithfully, the cancer grew steadily all the while, increasing in size and severity. I also took nearly every medicine that was recommended for the blood, and applied various salves and ointments, all without the slightest benefit. Year by year, I found myself steadily growing worse, for the cancer was sapping my life away, although I spent hundreds of dollars with doctors, and as much more experimenting with various so-called remedies. I was strongly urged by the doctors to sub-

mit to an operation, which they claimed was the only hope for me.

"I had well-nigh abandoned hope of ever being cured, when I was induced to try S. S. s., and even the first bottle. afforded relief. The medicine caused the cancer to discharge, thus forcing terms to the American ambassador.
