

SHAKERS AND DOCTORS TALK TOGETHER.

In his able work entitled "Longevity," published a few years ago, Dr. John Gardner, of England, predicts that a vegetable soup will yet be found that shall so retard those changes that bring about old age as to prolong human life much beyond its present limit.

Acting, perhaps, upon the impulse produced by this thought, many eminent physicians have called from time to time upon the Shakers of Mt. Lebanon to inquire of them concerning the secrets of medicinal plants, in which these sincere, simple-minded and (not-for-profit) people are known to be wise and skillful beyond all other men.

The Shakers willingly told what they had learned, and in return received from their visitors much valuable information about disease; which they at once made practical use of. The most important point was that if a genuine and certain remedy could be found for indigestion and dyspepsia, and the ailments growing out of it, a long life would be taken in the right direction. Old age, said these physicians, begins in a failure of the digestion, and so do most diseases of any and all periods of life. The result of these consultations was the discovery by the Shakers of the desired specific, made wholly from herbs, and now known as the Shaker Digestive Cordial. Its action is singular and worthy of the origin.

When there is illness after eating, least-likely headache, bad taste in the mouth, biliousness, weakness and weariness, cold hands and feet, aversion to food, nervousness, or any other symptom of dyspepsia, the Cordial will prove its curative virtues. Be-cause it is the reputation of a people who have never defrauded or deceived their fellow men.

In order to test whether this remedy is adapted to your case, at practically no cost, you may procure a trial bottle for ten cents of almost any druggist.
