**A Sanitizer's Kidney Death.**

New York, March 8.—Late Saturday night while leaving a carriage, a letter, was entering the door of his home on East 84th street, he was seized by blows from a man in the hands of a man who suddenly sprang from a hallway. Goldstein sprang justly, and the assailant fled, but was caught by two men who were passing in the street. The man asked Goldstein if he could identify the prisoner as the one who assaulted him, and he replied that he could not. Suddenly the prisoner became pallid, and he fell down from apparent illness. Before medical help could be summoned he died. The dead man has not yet been identified.

**Millions Lost by Floods.**

Cincinnati, March 8.—While the flood of last Friday is over, the effects of it will be felt in northern Kentucky, southern Ohio and western Indiana for weeks. The railroads are all running their trains here as usual, but most of them are in operation routes over other tracks. Roadbeds, as well as bridges, were washed away along the Big and Little Miami rivers. The damage to highways is also the greatest ever known, including thoroughfare bridges. The big manufacturers about the Mill creek valley will be crippled for some time. The damage here and within a radius of 100 miles of this city are now estimated in the millions.

**The Care of Books.**

When we were children, we were taught that it was next door to a crime to destroy books. Of course books are not as expensive or as hard to get now as they were a quarter of a century ago, but all the same, they are too valuable to waste or throw away.

Children should be taught how best to take care of books and ought never to be permitted to throw or hang them about or tear them in pieces. They should be encouraged to accumulate volumes, and to do this must have a place in which to keep them. Good, plain bookshelves cost but little, and every child should have a set.

In one well ordered household there are five youngsters, between the ages of 6 and 16 years. Each child has a bookcase, one of the ordinary, plain sort that cost \$4 or \$5. There are certain made from the skirts of worn-out dresses or of paper tinsel, for the family has but little of this world's goods to use, and every dollar that every cent has to be counted. But there is in this household a spirit of consideration that will not allow interference with private property, and each member is expected to take care of his or her own possessions, to be responsible for them and to exercise absolute control and ownership over them. Especially is it the case with books and toys. These are borrowed and loaned only with the owner's consent. New books are carefully covered and marked with the owner's name, not only on the cover, but also across the first page of the story or reading matter. Names on the flyleaf may be obliterated or torn off, but when placed across the beginning of the subject matter they are apt to remain and are easily identified.—New York Ledger.

Shortly after they visited the clothing store of Isaac Bofor, and carried away about \$200 worth of clothing and jewelry. The burglars also carried a parcel from the store and threw it into the basement of Peck's hotel, next door. The parcel was found half frozen, after the robbery was discovered.

**HER FIVE SONS FIGHT FOR CUBA.**

For This Reason Mrs. Agramonte Was Brutally Treated by Spasmodics.

Key West, March 8.—Mrs. Concepcion Agramonte was a passenger on board the Mascotte from Havana when the vessel touched here Saturday night en route for Tampa. She was accompanied by her daughter, Mrs. Agramonte is a widow, 52 years old, lives at Puerto Principe, and has five sons now fighting in the Cuban army.

She informed the correspondent of the Associated Press that the chief of police of Puerto Principe called upon her, told her the government had ordered her arrested, and conducted her to prison, where she was confined in a small cell with 11 other prisoners.

Her relatives, fearing on account of her advanced age, she would not be able to endure the severe treatment, offered to pay the authorities for better accommodations for her. These offers were received with sneers. Her relatives were told that anything was good enough for a Cuban, and they were asked why Mrs. Agramonte should get any better treatment than the rest. Her daughter's appeal to be allowed to see her was refused.

"My sufferings," said Mrs. Agramonte, "were intense. After remaining in prison 23 days I was sent to Havana, and there confined in a house of refuge for women of all classes. The crowded condition of this jail made it worse than the Puerto Principe prison. After three days' confinement there I was released, and, having been vaccinated and after undergoing the quarantine regulations, I was permitted to leave on the Mascotte. There was no chance preferred against me, and I can think of no reason for my arrest except that my sons are fighting for free Cuba."
