filvers Again Widing in the Recently Devancated Districts. Cincinnati, March 10.—Bata here all Monday night, Sollowed by an outpour of the Licking river, has caused some

apprehension. Last night the Dig Sandy, the Licking and the two Miamis were pouring freshets hito the Ohio. Other tributaries on the upper Ohio are falling. Up the Licking river within 90 miles of here the rainfall Monday night was one and one-third inches. Meager reports from south-ern central Indiana, especially along White river, announce a heavy rain fall Monday night. At all points above Cincinnati, except Cattletts-burg, the Ohio is reported there as rising slowly, or stationary where it was rising rapidly yesterday afternoon. At midnight the flood situation here

had become alarming. About 10 o'clock last night a thunder storm north and cast of Cincimuit, only a selvage of which passed over the city, added three-quarters of an inch to the rain-full here in less than an hour. Cap-tain Bassier, of the United States signal service, says Monday night's storm is now central over the lake region and an area of low pressure extends from Arkansas chair over the entire. Ohio valley. All streams south of the Ohio are teening full and the estuation now is altogether discouraging. At midco-15 inches above the danger line-and rising five inches an hour.

The outlook seems worse for the Ohio river between Cincinnati and ville and to the westward almost as far as St. Louis. The river is rising, but it is not thought it will go above the danger line. The rallroad situa-tion is somewhat improved. The Monon resterday used its own tracks for the first time in several days.

Washington, March 10.—There is quite a spirited contest going on among the house Democrats over the nomination for speaker in the Democratic caucus, because the position gives the successful man the leadership of the minority, a place on the commit-tice on rules and possibly ways and means. There is now a three cornered fight for the place, McMillin and Rich ardson of Tennessee and Balley of Tex as being the candidates. It was also said that Bland of Missouri would be a candidate, but if he is the fact is not known by the Democratic leaders. The present outlook is that Balley is in the lead.
