

**PROFESSOR J. M. MUNYON.**  
 Professor Munyon is honored, today as the leading authority in the medical world. His new and humane methods of treatment have swept away all the old-fashioned ideas of doctoring with poisonous drugs that create a chronic disease in the effort to get rid of one. He does not claim that he has one remedy that will cure all complaints, but that he has prepared a specific cure for nearly every disease. He does claim that Munyon's Rheumatism Cure will cure rheumatism; that Munyon's Dyspepsia Cure is a positive cure for dyspepsia and all stomach troubles; Munyon's Cough Cure cures coughs; Munyon's Catarrh Remedies cure catarrhs; Munyon's Kidney Cure cures kidney troubles. The same may be said of all Munyon's different remedies. They may be obtained at all drug stores, mostly at 25 cents a bottle.

Personal letters to Prof. Munyon, 1505 Arch street, Philadelphia, Pa., answered with free medical advice for every disease.

 The case involving the Electric Railway Company and Borough Council. The ordinance was read and approved by the Council and Solicitor. He has been instructed to force a decision from the referee in regard to the case pending since 1905 between Council and the Traction Company.

 Chicago, March 13.—The Times-Herald publishes the following: "An effort is to be made to effect a permanent amalgamation of the factions which were allied in the support of W. J. Bryan. Several conferences have recently been held in which the situation was discussed. The April number of New Occasions, a radical magazine published in Chicago, reflects the sentiment of those who have been in conference in an address which calls for the abandonment of old party lines and a reorganization under the name of the American Silver party."

**Miss Sanger at Washington.**  
 Visitors to Washington from this county, during the inaugural ceremonies, were pleased to find Schuykill county at the capital, who shared in the honors of the occasion. Several years ago Miss Dol Sanger, a former resident of Shenandoah, youngest daughter of the late Thomas Sanger, who was murdered by the "Mollies," went to live with her aunt in New Jersey. Becoming acquainted with the family of Vice President Hoban, she subsequently accepted the position of companion to Miss Hoban, an invalid. After the death of the latter, about a year ago, the family became so greatly attached to Miss Sanger that she was prevailed upon to remain with them, and she is now enjoying the society of the great people of our land at the nation's capital, a position no other fair daughter of Schuykill has yet attained. Miss Sanger's mother is now living near Mt. Carmel.

**A Gigantic Coal Stripping.**  
 A Mahanoy City correspondent writes: A party of P. & E. officials had an important secret mission in this neighborhood Thursday. They spent several hours viewing the mountain back of the station in Schuykill colliery from which it is proposed by a gigantic scheme to strip off coal confined beneath the surface. The party was composed of Vice President Theodore Voorhees, General Superintendent L. A. Swigard, General Passenger Agent T. Weeks, Superintendent of Williamsport Division A. T. Dice, and Assistant Superintendent and General Engineer, A. S. Ward.

**FINANCE AND TRADE.**  
**The Commercial Exchanges Report Evidence of Coming Prosperity.**  
 New York, March 13.—H. O. Dun & Co.'s weekly review of trade says: It is a curious illustration of human nature this continued discouragement even while the increase of productive industries and of legitimate business steadily grows. No genuine or lasting improvement could come otherwise than slowly, and step by step after such a depression as the past four years have witnessed, and the most hopeful feature of the situation is that the gain is so nearly devoid of elements which involve uncertainty and probable reaction.  
 The first step toward prosperity is to get the wheels started and the hands employed, and the number of works which have resumed or increased force during the past week seems greater than in any other week since November. While the start has been secured in many cases by contracts at low prices, involving some reduction of wages, the hands are earning more money, and this more the general recovery than if not working at all, and thus far important strikes have been averted in many cases, though some are still threatened.

**Business failures continue to decrease.** The total for the week being 27, against 28 last week, 32 in the corresponding week a year ago, 25 in the week two years ago, and 28 compared with 21 in the like week of 1904. In the corresponding period in 1906, when trade was of large volume, the total was 21.  
 Bradstreet's review says: Continued activity in various industrial lines, based on an expanding consumptive demand, fairly steady prices for staples, further improvement in railway earnings, and widespread confidence that the volume of business will expand materially in the near future, constitute trade features of the week. Spring demand has begun to show itself with retailers. There is a better feeling for shoes, hats and clothing, and for light hardware and agricultural implements west and southwest. Industrial revival has been offset in instances by the closing of factories and mills, and in others by continued operation dependent upon paying reduced wages.

**Matthews Met Death Penalty.**  
 La Plata, Md., March 13.—George Matthews, who murdered James J. Irwin at Allentown, Pa., was executed by the electric chair at the State Prison, Md., last August, was executed in the La Plata jail yard yesterday. The wonderful nerve displayed by the prisoner throughout his trial and imprisonment continued until the drop fell.  
 A great deal of sympathy was expressed by the spectators for the condemned man as he was led to the scaffold, while Mrs. Irwin, who it is alleged, incited him to the crime, was denounced and cursed.

**The Foremost Athletic Trainer in America Recommends Paine's Celery Compound.**

John Graham is the foremost man in American athletics. It was he who managed the successful team from this country that attracted world-wide attention in the recent Olympic games at Athens. Formerly trainer for Columbia college, then for Princeton and finally for Harvard university, Mr. Graham had much to do with raising the standard of collegiate sports. A small army of gentlemen have been guided by him since he left Harvard and took his present position, superintendent of the famous gymnasium of the Boston athletic association. Three of his proteges, White, Brewer and McCarthy, have just won the New England championship at the mile, quarter-mile and five-mile run. He has trained Weeks of Brown university, one of the best college sprinters in the country. Many another student of what makes men and women strong has used and has recommended Paine's celery compound as the best known remedy for those who are weak and dispirited, the overworked and overburdened person who are most concerned in the general awakening of interest in outdoor exercise and indoor attention to the proper rules of health. It was the ablest professor of medicine and surgery in any college, that giant among men,

the breaking down in consequence of some particular organ. When Mr. Graham, writing Jan. 18, 1897, said: "I have used Paine's celery compound to my benefit, and I have no doubt that any person undergoing great physical and mental strain would find it of great service. For students especially it ought to be of great value."—When so prominent a student of bodily health, who has no equal, unless, perhaps, one mentions Dr. Sargent of Harvard, with whose methods Mr. Graham became well acquainted at Harvard—when Mr. Graham says bluntly that after his experience he believes others would find Paine's celery compound of great service, what man or woman out of perfect health can afford to neglect his well considered and expert advice? There is no doubt that Paine's celery compound cleans the blood of excess, salt rheum and such humors, not only in the spring, that is so favorable a time, but at any time during the year, so thoroughly that nothing further is ever heard of them. Paine's celery compound has been tested, tried, scrutinized and heartily approved by so many impartial physicians and men and women whose word in any matter would not be questioned for a moment, that one must be stubborn-minded indeed who prefers to mope around half sick instead of verifying these positive, straightforward statements.
