A half hour after the result had been known at Carson, our newsboys were on the street with their fivorite paper.

A creason is to be noted in the attitude 29 tariff. They are not as sure is they were four years ago that protective ideas are without porit. In the first place, their party, after distinctly pledging limit to enset a tariff for revenue only, shrank from fulfilling the promise when, it had possession. of all branches of the government. The impoverishes the treasury and clogs the in anstrice of the people, is acknowledged by all parties to be a nondescript. It is protective in spots to soit certain party interests.

naveful to avoid mention in his excellent. massing of any other subject to be considered beyond the provision of a sufficient revenue. That is the fundamental condition of national presperity. He has maintained it from the first, and has pledged himself to secure a return of good times through the agency of a well balanced and revenue raising tariff. To this line of action, moreover, or must be said the Republican party, now in such strong control of the government, is a so committed. The tariff is, for the time being, once more the theme of the hour, and to its earnest solution Congress must give full and, If possible, exclusive attention. By the time that subject is disposed of the business of the country will be ready to take full advantage of its improved surroundings and prepare for the great era of prosperity awaiting it.

PROPOSED INVESTIGATION.

The resolution introduced in the State Senate providing for the appointment of a committee to inquire into the condition of the mine workers of the bluminous and anthracity regions, passed that body and now goes to the House, and thouse to the Covernor for his signature. The fale of the information comes from Harrisburg to the affect that the Governor is opposed to the Investigation upon the ground that it can sysult in no benefit to the sufering miners and should it pass the House that it will not

receive his signature. The fast that the collieres In this region have been working but one and two days a week, for some time part, is sufficient evidence for the members of the Legislature is to the condition of the miners, without further investigation. The representatives from the coal regions have, or at least al said have, a personal knowledge of the con. Itim so their constituents, and they will learn nothing by a junkering trip at the expense of the tarpayon, who are already overburdened with taxes. The miners and business mun will welcome any movement tending to better the present condition of affaired but they fall to see maything in the proposed investigation tending to that end.

It is not necessary to inquire into the causes: they are generally known. The depression that exists effects the coul trade, as well as other industrial contres, and this in turn results in the miners' present condition. Speaking upon this subject the Wilkesterre accomplish any earthly thing that will bring relief to distressed labor; however searching fix inquiry it cannot give a day's work to the maemployed, nor add a penny to the compossistion of those who have employment. There was some terrific fighting, when suddenly Fitz shot his left glove on Corbett's body just below the heart. The blow was one that would have shivered a plank, and Corbett's face paid instantly. His arms fell to his sides, his eyes closed and he pitched forward to the ropes, catching at them with his right hand. His face bore a look of intense agony, and he was evidently suffering the most excruciating pain. He tried to rise, but Fitselmmons with his right caught him a jab on the chin. Corbett was not knocked out in the common acceptance of the word. He was not unconscious, but the pain resulting from the blow under the heart was so great as to make him careless of anything else. He tried several times to rise, but was unable to do so, and was counted out by the referee.

The Pimples That Bloom in The Spring

At no other season are Pimples and Humors so abundant or so annoying as in the Spring.

An unseasonably warm day, before change of winter clothing, heats the blood, and these Pimples and Humors itch and burn, and their annoyance, the suf tering they cause, is known only to those afflicted. At no time is a blood purifying medicine more

effective than just before and during this season. If your blood is not right (and whose is?) you are liable to be one of these sufferers this Spring. A course of Hood's Sarsaparilla begun now and

faithfully pursued will save you suffering and give you

rugged health, so that you can thoroughly enjoy all

Pimples on the Face.

"I have been troubled for three years with pinyples on my face and body I tried several remedies with only temporary relief, I am now taking Hood's Sarasparilia and it is do ing me a wonderful amount of good. My general health is greatly improved, and I feel very thankful for what Hood's Sarsaparilla has already done for me." MISS JANE JANEOSEV, Eurobam, Illinois.
