PHILADELPHIA, MARCH 26, 1917.

SEVERAL "favorites" are already being groomed for the Congressional race in 1918. The names of the candidates are being discussed in the halls of the Capitol.

This county will see a member of the Legislature should the appointment bill pass—and not much of a fight that either.

The county bill was introduced in the House yesterday by Representative Powell, of Luzerne county. This is the same measure that passed the last session and was vetoed by Governor Hastings.

SENECA COUNTY has introduced a bill to prevent the sale of patent or proprietary medicines within the state unless the formula is registered with the Secretary of the State. The bill has been passed by the Legislature and is now before Governor Hastings.

The amendment to our local laws was defeated yesterday in Harrisburg. An effort will be made to have the vote reconsidered. The bill is the same that was passed by the Legislature in 1915 and is now before Governor Hastings.

The Legislature passed in this state a bill to amend the law relating to the appointment of judges. The bill was introduced by Representative W. M. Baughman, of Luzerne county, and was passed by a vote of 60 yeas to 15 nays.

The committee that will investigate the condition of the anti-trust law, composed of members of the Legislature, is now complete. It does not contain the name of Senator Caylor, much to the disappointment of that gentleman's friends. The personnel of the committee is as follows: Senators Meredith, of Armstrong, and Cochran, of Lehigh; Representatives Roberts, of Luzerne; Dunlap, of Philadelphia; and Campbell, of Fayette.

P. T. BARNUM once said: "If you have ten dollars to put to good use, put up one to the article and the other nine for advertising. I can get you any man on earth but the next morning talk to a thousand people while I am talking to one, is the only man I know of who can do this." This is the only man I know of who can do this.

THE HERALD publishes the news which it is news, and this fact is appreciated by its thousands of readers. One of our New York subscribers in appreciation of the Herald's efforts in this direction, writes as follows: "I noticed in particular the result of newspaper enterprise which was stamped upon the first page of the EVENING HERALD on the 17th inst., in reference to the Corbett-Fitzsimmons contest. Yours was an account of the fight by rounds, including each one of the rounds, while here in New York where all newspaper plants have advantages over the great majority, we could not get an account of the fight by rounds until long after six o'clock. All issues of the World, Journal and others simply stated in a one-line head that 'Fitzsimmons was victorious.' For once our Journalist leads, and I am pleased to see the HERALD in the forefront in this progressive age."

PRESIDENT MCKINLEY'S Cuban policy is proving extremely satisfactory and gratifying to the people of the United States. It is marked contrast with that of President Cleveland, and its effect in producing favorable action on the part of the Spanish authorities has been almost electrical. During President Cleveland's administration the doors of the Spanish prisons in Cuba closed upon scores of American citizens and remained closed. A few days before President McKinley's inauguration Senator Sherman, his prospective Secretary of State, announced in the Senate in clear, ringing terms that American citizens must and should be protected, and their full rights demanded at any cost, and this was followed by an equally explicit and vigorous expression by President McKinley in his inaugural. The result of these two expressions has been that the doors of the Spanish prisons in Cuba have been flying open to the imprisoned American citizens almost daily since President McKinley's inauguration. This has been accomplished without threat or bluster, but it has been accomplished.

A BILL is now pending in the legislature which is more than ordinary interest, not only to the publishers of newspapers in the several counties of the state but to the taxpayers as well. Provisions for the printing and publishing of all notices and advertisements authorized or required by law to be published by the county commissioners, county treasurer, sheriff, probate judge, register, recorder, and clerk of the courts. The principal provision of the bill is that all such notices or advertisements shall be published at regular current rates in at least three newspapers printed in the English language (if there be no newspaper published in the county), two of said newspapers representing as far as practicable the political party which at the preceding November election cast the largest number of votes, and the other one of said newspapers representing as far as practicable, the political party which at such election cast the next largest number of votes. It further provides that one of said

A PEOPLE OF FEW WORDS.

"Let your speech be as few words as you can, and say what you mean." This is the motto of the people of few words. They are a people of few words, and their motto is "Let your speech be as few words as you can, and say what you mean." They are a people of few words, and their motto is "Let your speech be as few words as you can, and say what you mean."

A TRADES UNION DISPUTE.

The dispute between the High Court of England and the House of Lords. London, March 25.—A rather unusual scene was witnessed in the house of lords yesterday. The case of "Flood and Taylor vs. Allen," which has occupied the various courts for two years past, was for the second time before the lords. The bench consisted of the lord chancellor, Lord Halsbury, and Lords Herschell, Watson, Ashbourne, MacNaghten, Morris, Shand, Davey and James of Hereford, the eight judges of the high court. This case is an important one to trades unions, as it involves the question as to what constitutes "intimidation" in labor disputes. After the first hearing of final appeal to the lords the judicial members of that body were equally divided. In consequence the whole of the judges of the high court were summoned to the rehearsal of the case. It was the first time in 17 years that the judges have sat as a total in the lords.

TO BE SETTLED BY THE HIGH COURT OF ENGLAND IN THE HOUSE OF LORDS.

The case was one brought by Flood and Taylor, who recovered damages against Allen, an official of the boiler-makers' union, for bringing about their membership in the union. The plaintiff alleges that the defendant threatened to withdraw all union men from those works unless the plaintiffs, who were non-union men, were dismissed. The Gt. Council, having important time contracts to fulfill, cancelled with the wishes of the union. Flood and Taylor were dismissed. They brought their action against Allen, and won. The verdict was confirmed by the court of appeal. Then followed the appeal to the lords.

THE KENTUCKY SENATORSHIP.

A. Probably that the Kentucky Senate will be broken. Frankfort, Ky., March 25.—The situation in the senatorial contest, as understood this morning, is that Hunter has reached the high water mark, and never get back. The other candidates are all behind him. The story goes that the administration is going to give Hunter something handsome—\$10,000—just to get him out of the way. However, the six Bradley Republicans will try to name the next nominee, who cannot be elected without their votes, and will insist that he be other than a Hunter man. This makes the Hunter majority of Bradley Republicans hold on tight, and they may never consent to vote for any one else, unless absolutely commanded to do so from Washington. The best judges say it is Hunter, Bradley or no election, and most probably the latter.

THE WEATHER.

For eastern New York, eastern Pennsylvania and New Jersey: Generally fair, northwesterly wind, decreasing in force; slight rise in temperature.

POISONING THE FOUNTAIN.

If the fountain of life is poisoned, there can be no health in the body. When a disease of the delicate organs of the human body, the fountain of life, is poisoned, the human body is poisoned. The human body is poisoned, and the fountain of life is poisoned. The human body is poisoned, and the fountain of life is poisoned.

Spring

Is made a necessity by the lun- Medicine pure condition of the blood after winter's hearty foods, and breathing vitiated air in home, office, schoolroom or shop. When weak, thin or lumpy, the blood cannot nourish the body as it should. The demand for cleansing and invigorating is greatly met by Hood's Sarsaparilla, which gives the blood its quality and vitality needed to maintain health, properly digest food, build up and steady the nerves and overcome that tired feeling. It is the ideal Spring Medicine. Get only Hood's Sarsaparilla. The One True Sarsaparilla. Prepared by Dr. J. C. Hood & Co., Lowell, Mass.

THE TRUMPET'S CLARION NOTE

Sounded by a Scranton Citizen. At first only the faintest note reached to the coal regions. It came in the onward march through the state awakening echoes of good cheer to many of our triumphal steps. Now 'tis here, and the trumpet's notes of truth are daily sounded and heard remains no more. This time 'tis in Scranton, the leading city of the mine. In 1899, the leading city of the mine. In 1899, the leading city of the mine.

WOULD-BE MURDERER'S SUICIDE.

Susquehanna Pa., March 25.—Frank Nielson, a resident of Oakland side, shot and seriously wounded his sister-in-law, Mrs. John Stahl, and then shot himself through the heart, dying instantly. Nielson had been living apart from his wife for some time, and she had been living with her sister, Mrs. Stahl. Nielson called at Mrs. Stahl's house yesterday to see his wife, but was denied admission, whereupon he fired at Mrs. Stahl. The shot had effect in her breast. Nielson is said to have been jealous of his wife.
