

**A GOOD PRACTICE.**  
If You Want a Good Appetite and Perfect Digestion.

After each meal dissolve one or two of Stuart's Dyspepsia Tablets in the mouth and, mulling with the food, they constitute a perfect digestive, absolutely safe for the most sensitive stomach.

They digest the food before it has time to ferment, thus preventing the formation of gas and keeping the blood pure and free from the poisonous products of fermentation, indigestion.

Stuart's Dyspepsia Tablets make the complexion clear by keeping the blood pure.

They increase flesh by digesting the assimilating foods.

Stuart's Dyspepsia Tablets is the only remedy designed especially for the cure of stomach troubles and nothing else.

One disease, namely, indigestion, the successful physician of today is the specialist, the successful medicine in the medicine prepared especially for one disease.

A whole package taken at one time would not hurt you, but would simply be a waste of good material.

Over six thousands men and women in the state of Michigan alone have been cured of indigestion and dyspepsia by the use of Stuart's Dyspepsia Tablets.

Sold by all druggists at 50 cents per package.

Send for Free Book on stomach diseases to Stuart Co., Marshall, Mich.

**Are You Weary?**

Not one person in a dozen can withstand the Spring season without having the system pervaded by an unmistakable feeling of lassitude. The accumulated impurities of a year combat nature's effort to throw them off, resulting in a depressed, worn-out, good-for-nothing condition which takes possession of the system. It is now that a few bottles of S. S. S.

**Swift's Specific**

are needed to thoroughly cleanse the blood and build up the system. It removes all impurities, tones the stomach, and renews the appetite, imparting new life and vigor to the entire body, so that the trying period of Spring is passed without any unpleasant effects. S. S. S. is far ahead of other blood remedies because it is purely vegetable, containing no arsenic, potash or mercury, which are so injurious to the digestive organs. Insist on S. S. S.

**There is Nothing Half as Good!**

Tour to California via Pennsylvania Railroad.

In Southern California is found the realization of a dream of the ancients. Here are the "Golden Apples of the Hesperides," ripening beneath a sky more beautiful than that of Rome, and in a climate more perfect than that of Athens. Never in the wildest flights of his imagination did either Homer or Hesiod ever conceive of a garden richer in verdant beauty, more productive of luscious fruit, or set amid more picturesque and lovely surroundings.

**HOW TO FIND OUT.**

Fill a bottle or common water glass with urine and let it stand twenty-four hours; a sediment or settling indicates a diseased condition of the kidneys. When urine stains linen it is positive evidence of kidney trouble. Too frequent desire to urinate or pain in the back, is also convincing proof that the kidneys and bladder are out of order.

**WOLCOTT ON JAPAN.**

**His Explanation of That Nation's Attitude Toward Silver.**

**A STEP TOWARD BIMETALLISM.**

The Depreciation of Silver, the Colorado Senator Declares, Gives an Advantage to Japanese Agriculture and Japanese Industries.

Washington, March 18.—Senator Wolcott, who has interested himself so much in international bimetallicism, expressed the opinion today that the recent action of Japan in attempting to depreciate silver would hasten international action to restore the equality of the metals, and made the following statement giving his reasons for this belief:

"The monetary situation in Japan is not only interesting, but most far-reaching, and perhaps not generally understood. The result which Japan seeks is to equalize the value of the depreciation of silver in relation to gold, and to preserve thereby the advantages which this depreciation naturally gives to Japanese agriculture and Japanese industries, and it is not in any sense an attempt to equalize values. There has been a time in the history of the United States when we might have taken a step identical with that which Japan now proposes. If, during the years of our civil war, when our money was worth but 50 per cent of the gold dollar, we had declared that henceforth our dollar should be of the value of 50 cents only in gold, our legislation would have been parallel with that which Japan evidently intends. We should have followed a different path.

"It is not to equalize values. There is a measure, with that of Austria a few years since, and with the action projected in Russia, with this difference: Austria forced the permanent depreciation of its money, measured in gold, to the extent of some 10 per cent. Russia will establish a reduction of about 25 per cent in the value of its rouble, while Japan proposes to permanently depreciate its exchange, relative to gold, so as to lower the value of the yen to about 40 cents on the dollar. The action of Japan must not be construed as an attempt to establish and maintain a gold standard; it is simply an attempt to preserve the economic advantages which she at present enjoys because of the gold premium which exists in Japan and this at the expense of the great commercial countries of the world which have heretofore maintained the stability of their coinage as well as their financial integrity.

"Of course, at the present price of silver maintained by Japan, the result of the action of Japan would be to drive all its silver out of that country. It is premature, however, to attempt to forecast the full effect of her action in this respect. The course of Japan must, in my opinion, only serve to hasten the action of the great leading commercial nations of the world looking to a settlement of this question upon an international basis."

Senator Jones, of Arkansas, chairman of the Democratic national committee, has recently received two letters from the Japanese regarding the prospect of bimetallicism by international agreement. One of them says the gold standard is more firmly fixed in England now than ever before, and the other says that the times seem to be very favorable for bimetallicism, and expresses the belief that in case the United States should make the proper effort bimetallicism might be brought about.

If you have ever seen a child in the agony of a cough, you can appreciate the gratitude of the mother who knows that One Minute Cough Cure relieves their little ones as quickly as it is administered. Many homes in this city are never without it. C. H. Hagenbuch.

**FREE CURE FOR MEN.**

A Michigan Man Offers to Send His Discovery Free.

Claims to Be a Benefactor to Weakened Mankind.

There is always more or less suspicion attached to anything that is offered free but sometimes a man so overflows with generosity that he cannot rest until his discovery is known to the world, in order that his fellow men may profit by what he has discovered. It is upon this principle that a resident of Kalamazoo, Mich., desires to send free to mankind a prescription which will cure them of any form of nervous debility; relieve them of all the doubts and uncertainty which such men are peculiarly liable to and restores the organs to normal size and vigor. As it costs nothing to try the experiment, it would seem that any man suffering with any form of nervous weakness ought to write for such a remedy at once. A request to H. C. Olds, Box 1712, Kalamazoo, Mich., stating that you are not sending for the prescription out of idle curiosity, but that you wish to make use of the medicine by giving it a trial, will be answered promptly and without evidence as to where information came from. The prescription is sent free and although some may wonder how Mr. Olds can afford to give away his discovery, there is no doubt about the other being genuine. Cut this out and send to Mr. Olds so that he may know who you came to write him. 12-25-78

**FREE CURE FOR MEN.**

A Michigan Man Offers to Send His Discovery Free.

Claims to Be a Benefactor to Weakened Mankind.

There is always more or less suspicion attached to anything that is offered free but sometimes a man so overflows with generosity that he cannot rest until his discovery is known to the world, in order that his fellow men may profit by what he has discovered. It is upon this principle that a resident of Kalamazoo, Mich., desires to send free to mankind a prescription which will cure them of any form of nervous debility; relieve them of all the doubts and uncertainty which such men are peculiarly liable to and restores the organs to normal size and vigor. As it costs nothing to try the experiment, it would seem that any man suffering with any form of nervous weakness ought to write for such a remedy at once. A request to H. C. Olds, Box 1712, Kalamazoo, Mich., stating that you are not sending for the prescription out of idle curiosity, but that you wish to make use of the medicine by giving it a trial, will be answered promptly and without evidence as to where information came from. The prescription is sent free and although some may wonder how Mr. Olds can afford to give away his discovery, there is no doubt about the other being genuine. Cut this out and send to Mr. Olds so that he may know who you came to write him. 12-25-78
