ported-Many Houses Demotished-The Cyclone Eucceeded by a Flood of Bain,

Austin, Tex., March 29,-Yesterday afternoon this city and surrounding country was visited by a terrific cyclone, that did great damage to property. The wind came from the southwest, and blew about 50 miles an hour for nearly 50 minutes. Several large cleentic light towers were blown down, and a number of houses in the resi-dence portion of the city were demot-ished. In several cases parrow company will remove all impurities, tone up the system, and impart new life to the facered-out part new life to the fagged-out in one side of the building. Two little ma

The force of the elements lifted the roof of a dormitory, letting the rain drive with rail sfreet into the four story building. Great damage was done to the building and to the property of the 200 stugents therein, many of whom fled for experience. their lives when the crash came. The roof was carried a hundred yards, falling on and crushing in the top of a cet-tage in which were four people. None were even injured, though they were entombed by falling debris.

A church just to the north of the university had its entire east will destroyed and was unroofed, the debris being carried a block away. The rest-dence of Dr. Graves was lifted from its foundation, twisted completely around and set down in the same place, so badly damaged, however, that none of the doors could be opened to permit the escape of the frightened

The small town of Clarksville, near this city, was swept by the winds and many horses were killed by flying de-bris. A number of small houses were toppled over. Fortunately the inmaios were not killed, but many were badly injured. With the terrific wind came a driving rain that was little short of a drawing rain that was intic short of a flood, and swept eyerything before it. Persons arriving on the evening trains tell a story of ruin, and reports from the surrounding country are to the effect that the storm was general in this section. The small town of Enda, near here, was body handled by the etorm. Quite a number of houses were demolished and one or two persons idiled, though their names are not obtainable, owing to the fact that most

of the telegraph wires are prostrated, and nows is very meager.

The storm is the worst that has ever visited this vicinity, and it has laid waste everything in its track. The sun
