CHARGED WITH BURGLARY

One of The Alleged Robbers of Mann's Store in Custody.

Yesterday afternoon a young man well-known about town and named Patrick Stanton approached Constable Matt. Gibson and offered a pair of gold plated electric buttons for sale. He was taken into custody by the officer and arraigned before Justice Lawlor. Louis Mann, whose store on West Centre street was robbed on Sunday morning, was summoned and he identified the buttons as part of the goods which were stolen from his place. Stanton protested that the buttons had been given him, but later stated that he made a living by selling such articles, which were purchased at wholesale from a Harrisburg house. He was committed without bail and after spending the night in the lockup was taken to the Pottsville jail.

CARD TO VOTERS.

Facts For Consideration on S. Roll Beddall's Candidacy.

In presenting the name of S. Roll Beddall as a candidate for High Sheriff of Shenandoah county attention is called to the following facts: First.—He comes from a large family of lifelong Republicans. His father voted for William Henry Harrison for President in 1840 and from the organization of the party until his death a few years ago was an ardent, hard-working Republican, always contributing to the success of the Republican ticket. In like manner all of his brothers and family connections have always worked hard in hand for Republican success, and not once, from 1840 to the present time, has anyone, from father to son, held public office.

Second.—S. R. Beddall, having credibly served as Deputy Sheriff, thereby making himself thoroughly familiar with the many details that enter into the duties of High Sheriff, is eminently qualified to intelligently and efficiently conduct the affairs of the office with credit to himself and satisfaction to the public.

In view of the above facts, his friends are deeply interested in his candidacy, and have issued this card with the request that the voters of Shenandoah county instruct the delegates from their several districts to vote for him in convention, believing that if nominated he will be triumphantly elected.

The above candidate was born in New Philadelphia, Shenandoah county, January 29th, 1858, and has lived in the county ever since.

Probings at Work in Altoona.

Altoona, Pa., March 31.—An attempt was made late Monday night and early yesterday morning to destroy Altoona, four incendiary fires being kindled in different parts of the city between the hours of 11 and 1:30 o'clock. Prompt work by the fire department alone saved the town from possible destruction. The entire loss, however, will aggregate between \$50,000 and \$100,000. There is scarcely a doubt but that the fires were of incendiary origin.

Butterworth, Draper and White Placed.

Washington, March 31.—The cabinet meeting yesterday was short and not so far as can be learned was unimportant. Secretary Sherman, who is suffering from rheumatism, was the only absentee. It is expected that one or more nominations will be made today, among them that of Benjamin Butterworth, of Ohio, as commissioner of patents; General Draper, of Massachusetts, as ambassador to Italy, and Andrew D. White as ambassador to Germany.

Ex-Cashier Breder Located.

Bethlehem, Pa., March 31.—Acting President Leibert, of the First National bank of this city, makes a statement concerning the alleged embezzlement of funds by its former cashier, Cyrus E. Breder. Mr. Leibert says that the certain loss does not reach \$50,000, and the bank is in a healthy and prosperous condition. It is said that the detectives have located Breder, and his arrest may be expected at any hour.

Palmer for Public Printer.

Washington, March 31.—The president yesterday sent the following nominations to the senate: Frank W. Palmer of Illinois, for public printer; Alexander M. Thackara of Pennsylvania, consul at Havre, France. Mr. Palmer was public printer under the Harrison administration.

DR. ROBERTS IS VINDICATED!

Result of the Hearing Before the Board of Health.

THE SESSION WAS A LIVELY ONE

After Hearing the Accused Doctors the Board Went into an Executive Session. Dr. Phillips' Case Held Open for Further Investigation.

The Board of Health held a special meeting last night to set on alleged violations of its rules and regulations by certain physicians and the session was a very lively one. The members of the Board in attendance were Messrs. Spalding, Morrison, Holman and McAlle. Drs. J. Pierce Roberts, C. S. Phillips and D. J. Langton were also in attendance. The latter was present as a witness, while Drs. Roberts and Phillips were in attendance to defend themselves against charges. Dr. Roberts was allowed to speak first and he was called to attend a child on East Centre street and found it suffering from measles. The child had a short time before been brought from Shenandoah, where there was an epidemic of measles and in examining the child the doctor found that it had an eruption of a measles species. As the secretary of the Board of Health had informed him that cases of measles were no longer phrased Dr. Roberts did not report the case to the Board. After he had treated the case about ten days Dr. D. J. Langton was called in by the parents and he pronounced the case one of scarlet fever. Dr. Langton made an appointment to meet Dr. Roberts, but failed to keep it, the latter stated. At this point President Spalding said he could not allow permission to be indulged in.

Mr. Morrison asked Dr. Roberts whether the case was one of measles and the latter answered that it was, adding that the difference in the medicines used in cases of measles and scarletina was very slight.

During the discussion Dr. Roberts said the matter was one of personal animosity against him on the part of President Spalding, intimating that the cause was the appointment of Dr. Roberts to succeed Dr. Spalding as examining physician for an insurance company. This brought forth a remark by Dr. Spalding that he knew of a typhoid fever case in the First ward that Dr. Roberts had failed to report.

Dr. Langton made a statement in which he said he found the child Dr. Roberts had been treating was suffering from scarletina following measles. Dr. Roberts said he could not see any ill in the case.

In Dr. Phillips' case Dr. Spalding stated that he was called in the absence of Dr. Phillips to case in the First ward and found the child suffering from diphtheria. It was about to die and the case had not been reported to the Board. Another child in the house also exhibited symptoms of diphtheria.

In his behalf Dr. Phillips said he was not treating the case as one of diphtheria and, therefore, did not report it. He was treating for catarrhal pneumonia. The child showed continued improvement. Dr. Phillips said he had seen two other cases, and the child having grown worse towards the evening of that day, Dr. Spalding was called and pronounced the case one of malignant diphtheria and had the house placarded. The other sick child, Dr. Phillips said, was feverish, but did not have diphtheria. Dr. Phillips said he gave the same medicine to both children.

After the close of this statement Dr. Spalding announced that the Board would go into executive session and requested that the reporters and others not connected with the Board retire.

It has been learned that during the executive session Dr. Spalding said that he was simply performing what he conscientiously believed to be his duty as a sworn officer of the Board and he objected to personalities being injected into the proceedings. He also stated that he was willing to exonerate Dr. Roberts, as the diagnosis of the case showed that the child may have been suffering from measles, and as Dr. Roberts was under the impression that measles were not required to be reported, as the Board does not placard such cases, he was willing to overlook the case and accept the doctor's professional willingness to abide by the rules and regulations. Messrs. Holman, McAlle and Morrison took a similar view of the matter and a motion that Dr. Roberts' statements and explanations be accepted and the charge withdrawn was carried.

In the case of Dr. Phillips it was decided that the case be left open for further investigation.

A New Proprietor.

James C. Phillips, of Mt. Carmel, has taken charge of Michael Peters' old stand, on North Main street. To the people of town he is no stranger, having resided here several years ago, and is known among his acquaintances as a genial, all-around good landlord. His business is conducted on a square basis, and his place is one of amusement, where good music, singing and dancing may be enjoyed. HE TOOK A DROP.

A Passenger's Remarkable Escape at the Electric Railway Trestle.

About 7:30 last evening, when a car of the Lakeside Electric Railway was ascending the trestle on Bowers street and had got about half way up a Polish man, who was a passenger, stepped off the car and tumbled from the trestle to the street. The drop was about ten feet and the man went sprawling over the ground, but arose unharmed and walked away muttering. It is surprising that he was not killed, and very badly injured. There is no explanation of the affair other than the supposition that the man did not realize that the car had passed the corner of Centre and Bowers streets until after it started to ascend the trestle, and then he recklessly stepped off.

Cost of Statehouses.

Harrisburg, March 31.—The plans for the erection of a new capitol building are taking definite shape. The house buildings and grounds committee yesterday reported, recommending that the total cost of the proposed structure shall not exceed \$1,000,000. The report gives the following figures as to the cost of statehouses: Rhode Island, \$1,600,000; Connecticut, \$2,500,000; Indiana, \$2,000,000; Minnesota, \$4,000,000; Georgia, \$1,000,000. Among the bills passed finally was one to punish the forgery, sale or distribution of indecent and immoral writings, etc., and of all drugs for criminal purposes, and one punishing the sending of anonymous communications of a libelous, defamatory, scurrilous or seditious nature. The bill to establish a state bureau of geology and mines was defeated.

The Tobacco Trust's New Scheme.

New York, March 31.—The American Tobacco company, which embraces a large majority of the tobacco and cigarette firms in the United States, yesterday issued a circular wherein formal notice is given of the abandonment of its former agreement, which formerly existed between the company and its customers. The reasons for the change are the anti-trust laws passed in many states. A second circular says: "It is our hope that the success of our business will warrant our making donations of money or merchandise to our customers from time to time, in recognition of their interest in distributing our goods. The donations will be based upon the amount of our products purchased by you direct from us and upon the extent to us of maintaining the output brands in your state."

Dedication of School Building.

The dedication of the new school building at Girardville on next Saturday afternoon, promises to make quite a lively time in that town. A large parade of the different societies and the school children will take place in the afternoon. Prominent speakers from all parts of the state will be in attendance and will deliver addresses. A notable feature of the day's program will be the presence of the first School Board organized in Girardville, on May 17th, 1878. The board was composed of six members, five of whom are still living. The board will be present and take part in the exercises. A fitting program has been arranged.

Horse Thief Arrested.

J. H. Dabert was arrested at Applegate's hotel in Kingstown at 12:30 o'clock last evening on the charges of stealing a horse and larceny as a bailee. The charges were preferred by C. I. Klinger. It appears that Dabert had been arrested for stealing a horse in February. He was placed under \$2,000 bail and jumped his bail on May 17th, 1878. The horse was followed by officers armed with a new warrant.

THE LAW TO BE RETROACTIVE!

The Dingy Bill to be Enforced Before Its Final Passage.

TO TAKE EFFECT AFTER APRIL 15.

An Amendment to that Effect Agreed Upon by the Republican Members of the Ways and Means Committee—Precedent for Such Action.

Washington, March 31.—Chairman Dingy and his colleagues of the ways and means committee will attempt to have the duties imposed by the new tariff bill go into effect before the bill becomes a law. This novel and much discussed policy was definitely resolved upon at a meeting of the Republican members of the committee, and a sub-committee consisting of Representatives Grosvenor of Ohio, Tawney of Minneapolis and Datsell of Pennsylvania was authorized to report upon the proposition. They presented an amendment which they had written, and their colleagues instructed Mr. Grosvenor to offer the amendment today in the house. There is no doubt that it will be adopted by a party vote. The substance of the amendment is as follows: "The duties imposed by the bill shall be enforced and collected on all goods imported subsequent to April 15 and prior to the passage of the act, not purchased or in transit prior to April 1. It creates a lien upon the goods thus imported for the amount of the duties imposed, and also makes the importer and the person in whose possession the goods may be found, if not a retail merchant or a carrier, liable for the amount of the duties, or for the excess imposed by the bill above the amounts such articles may have paid. It also requires customs officers to retain samples of imported goods, to the end that the evidence of identification may be preserved. It provides for bringing suits to recover the duties, both against importers and wholesale dealers. Letters have passed in upon Mr. Dingy and his colleagues this week from importers, asking what was proposed to be done in the matter. The first intention was to have the amendment provide for enforcing the new rates on the 23 of April, two days after the bill is to be passed by the house, but this seemed distinctly unfair to dealers who might have ordered goods before that date. If importers can place their orders and receive goods through the custom houses before April 15 the amendment will not affect them, but they will be obliged to take their chances in such attempts.

White there is much doubt expressed by members of congress as to the validity of the proposed amendment, and as to its acceptance by the senate, it will doubtless have the effect of discouraging importations while the bill is pending before the senate. Importers will hardly care to run the risks of the litigation in which they might become involved.

The chief precedent on which the committee relies to sustain its action is a decision of the supreme court growing out of the Wilson act. That act did not become law until Aug. 23, 1894, although the bill stated that the duties therein imposed should be levied on and after Aug. 1. It was before congress, therefore, nearly a month after the time fixed for its beginning, and as the house accepted the senate amendments without sending the bill to a conference between the two houses the intention of the leaders to change the date of its enforcement in conference could not be carried out. The supreme court decided in effect, however, as its opinion is interpreted by the ways and means committee, that the rates of the act become operative on the date declared by the act, although that date was 28 days before it became law. There are also decisions by state courts in cases involving taxation which the committee will quote as authorities.

The theory of the amendment was explained by a member of the ways and means committee in these words: "It only relates to goods contracted for subsequent to the date on which the bill passes the house, and the importer will make all purchases with notice of the purpose of congress to impose and collect certain duties on merchandise imported after a certain date. In other words, he knows that goods which he imports will be liable for a higher rate of duty, and therefore he could not avail himself of rates usually applicable to bona fide purchases. The law when enacted would simply relate back to and impose duties upon goods purchased for import after the importer knew that the duties were to be imposed. This will not be retroactive, but retrospective legislation, active, but retrospective legislation."

Torpedo Boat Dupont Lanchoned.

Bristol, R. I., March 31.—The latest torpedo boat, the Dupont, also known as No. 7, was successfully launched at flood tide last night. The ceremony of baptism, with its traditional expression of good fortune, was performed by Miss Lettie Converse, daughter of Commodore Converse, of the torpedo station at Newport. Much interest was shown in the launching, and during the afternoon many people gathered in front of Herreshoffs, and when the gates were opened the wharves were filled. The work of launching was expeditiously accomplished.

Anna Dickson on the Stand.

Scranton, Pa., March 31.—Anna Dickson, the prosecutor in the now famous case to recover \$50,000 damages for her incarceration in the Danville asylum, occupied the stand yesterday. She rehearsed in a dramatic way her career as author, tragedienne and national political orator, and created the impression that she had lost none of her readiness of wit and bright mentality that awed the defendant counsel in the case last year.
