#### THE VOTE ON THE TARIFF BILL. Republican Objectors Will Not Cast

Their Votes Against It. Washington, March IL-Party feeling ran high doring the last day of the tariff debate in the house. Political speeches were wedged in at every op-portunity, and there was constant maneuvering for political advantage. The opposition directed their efforts, as far as possible, toward stirring up dis renation on the Republican side. they succeeded only in exposing a single instance of revolt. That was on the subject of the hides. The Democrais pressed the question of a duty on hides for the benefit of the farmer with such viger that Mr. Hepburn, an Iowa Republican, was drawn into the debate and made a strong ploa for duilable hiles. Mr. Cannen, of Illinois, also gave a qualified indersement to this demand. The Republican leaders defended

their bill with vigor. The ways and means committee held the floor with their amendments from 10 in the morn-ing to 4 in the afternoot, About 25 were offered and adouted. Among them was one admitting free of duty "hodes, scientifis, apparatus, charts, maps, etc." for scientific and educa-tional purposes. After that five more pages of the bill were read, making 20 pages in all of the bill pages of the bill The voting on the bill will begin at 2 o'cloch today. There is some talk of a number of Republican votes hering cast against the bill, but after investigation

It seems probable that there will be no break in the Republican runhs. Sometor Allen, of Neurosch, made a long speech in the senate on the un-constitutionality of tariif baxes beyond these requisits for revenue. Mr. Allen severely californed the trusts and combinations, which he declared reap-ed the main advantage of the tarial tates.
