

A 30 YEARS STRUGGLE.

And the Little Conqueror Appears. The Experience of a Wilkes-Barre Citizen.

Thirty years is a long time to struggle against an ailment, and this has been the experience of Mr. J. J. Miller, a citizen of Wilkes-Barre, residing at 43 Church street, much could be told about the circumstances attending Mr. Miller's case, how he endeavored during the years with the kind physicians, the exposure and hardships of the campaign, etc., right through to the receipt of his honorable discharge, a lifetime in itself, but this is not the object of this short story of human existence, and we will let Mr. Miller give the facts as he tells them to our representative. He said: "I have suffered for over thirty years from my kidneys. Exposure during the war was added to my complaint until it became a confirmed disease. As for remedies recommended and prescribed by physicians, I have used too many to mention. Doctors have had my back thoroughly blistered, and tortured me in many ways without any relief at all. I used to get up as often as twelve times in a night to pass urine, and it was a high red color, containing sediment. The urine burned in passage. I could not bend or stoop, and I could not turn in bed. I had a stinging pain in the back and most severe headaches. I got some Dr. Williams' Pink Pills of Dr. Williams' Pink Pills. They helped me the second day of use, and I went at them for weeks. I found I had a genuine kidney cure. I took nearly three boxes and I feel like a new born child, and thank God I am cured. I test my back every day and it is all right. No straining, and no trouble. I have had my back for 100 miles for them and pay \$10 a box. I recommend them everywhere, and an always afraid people won't test them thoroughly, and I will be glad to talk at least three boxes. Positively no such price cannot be credited to Dr. Williams' Pink Pills."

For sale at all dealers, price 50 cents. Mailed by Foster-McBreen Co., Buffalo, N. Y. Sole agents for the U. S.

OUR FOREIGN TRADE.

How It Will be Affected by the New Tariff Laws.

FOREIGNERS WILL RETALIATE.

Germany and Austria Will Doubtless Quickly Place Restrictive Tariff on American Manufactures, and France May Do Likewise.

Washington, April 5.—The foreign embassies and legations in Washington are watching the progress of the tariff bill with great care, as it materially affects all commercial nations. Reports are being forwarded to the various foreign offices, and these reports are being made public abroad for the information of the concerns shipping goods to the United States. Naturally the feeling among the diplomats is not favorable to the measure, as it will restrict many of the lines of foreign trade with the country. Among the representatives of the larger countries the expression is general that there will be a large decrease in imports, and that this, in turn, will be followed by an increase of duties against American goods. The representatives of nations which are most concerned with reciprocity do not regard the reciprocity of the present bill with favor.

Without exception, however, members of the diplomatic corps are refraining from exerting any influence towards keeping down the duties. The principle is accepted on all hands that this government has the right to frame its tariff as it sees fit, and that it is not a domestic affair, with which foreign ministers have no right to concern themselves. Up to the present time no protests have been filed from any source, although it is said certain representatives from the Argentine government are on the way to the minister here. Some of the ministers have talked unofficially with Secretary Sherman as to the general character of the bill, but they have become satisfied that the executive branch has no desire to exert influence on the legislative branch towards keeping down tariff rates.

The British embassy strictly adheres to the rule that it has no concern with matters of internal legislation. A full report on the bill is being made to the London foreign office, and the government will take steps to give the widest publicity to the measure, as a means of informing English manufacturers of the conditions with which they must deal. These steps, however, are entirely for the purpose of informing the home government and the people. Although English trade is more affected by the bill than that of any other country, no representations or protests of any kind have been made by the English government. Although Canada is a British colony, it makes its own tariff laws, which operate against England as well as the United States. The tariff of retaliation on the part of Canada is confined to Dominion quarters, and such retaliation, if resorted to, would not require the approval of the home government.

At the German embassy no instructions have been received from the home government relative to the tariff bill, and there is no deviation from the view that the formation of a tariff is entirely a domestic matter. At the same time the great strides made by Germany as an industrial nation give special interest to the present legislation, as it will affect many lines of German goods coming to this country. It is considered likely that a commercial warfare will result, which will lead to an increase of duties in Germany. As Austria-Hungary is closely allied with Germany in commerce, as well as foreign affairs, it is said that a tariff increase by Germany would be followed by Austria-Hungary and other central European countries.

The French officials here are waiting action on the bill by the senate, regarding the present condition of the measure as very imperfect. They take the same view as the British and German officials, that there is no ground for protest as the tariff is a domestic affair. It is felt that the effect of the bill will be particularly severe on the fine woolen goods and silks coming from France.

Spain's interest in the bill is due to the trade between Cuba and the United States on sugar, tobacco, etc. Thus far, however, the officials have too busy with affairs relating to the insurrection to give much time to the tariff. A report on the bill will be sent to Madrid mainly for the purpose of information.

The South American countries are most affected by the reciprocal features. But the ministers from these sections say that little is expected in the way of tariff reciprocity from the present measure.

The Japanese authorities feel that some of their industries, principally silks, silk handkerchiefs, straw mats, and late tape, will suffer from the bill. They have made no protest, however.

There is Nothing so Good.
This is nothing just as good as Dr. King's New Discovery for Consumption, Coughs and Colds, so demand it and do not permit the dealer to sell you some substitute. He will not claim there is anything better, but in order to make more profit he may claim something else to be just as good. Regular size 50 cents and \$1.00.

A PECULIAR FACT.

Thousands of People Have Dyspepsia in Its Worst Form and Do Not Know It.

A weak stomach is the cause of about nine-tenths of all disease, and in most cases the wrong thing is treated and the true cause overlooked.

This is because a weak digestion produces symptoms resembling nearly every disease because it weakens and disturbs the action of every nerve and organ in the body; poor digestion causes heart trouble, kidney trouble, lung weakness and especially nervous break down or nervous prostration, the nerves cannot stand the wear and tear unless generously fed by well digested, wholesome food.

Keep the digestion good and no one need fear the approach of disease.

Mrs. H. M. Lee of Rochester, N. Y., writes: "For the sake of suffering humanity I want to say that from a child I had a very weak stomach, the result of which was dyspepsia and after a few years nervous dyspepsia resulted and for more than twenty years I have suffered incessantly. I tried many physicians and advertised remedies with only temporary relief for nervous dyspepsia and until I commenced taking Stuart's Dyspepsia Tablets last September, six months ago, have I been free from suffering caused by the condition of my nerves and stomach; in short, chronic nervous dyspepsia.

I have recommended Stuart's Dyspepsia Tablets to many of my friends and now I want in a public way to say they are the safest, pleasantest and I believe sure cure for stomach and nerve troubles. I write my honest opinion and I will gladly answer any inquiry at any time and feel that I am, in my small way, helping on a good cause.

Stuart's Dyspepsia Tablets is not a patent medicine, but they contain only the fruit salts, digestive acids and pepsines necessary to help the weak stomach to promptly and thoroughly digest food.

All druggists sell Stuart's Dyspepsia Tablets at 50 cents for full sized packages and anyone suffering from nervous dyspepsia, sour stomach, headaches, acidity, gases, belching, etc., will find them not only a quick relief but a radical cure.

Send to Stuart Co., Marshall, Mich., for little book describing cause and cure of stomach troubles, the symptoms and treatment of the various forms of indigestion.

FREE CURE FOR MEN.

Michigan Man Offers to Send His Discovery Free.

aims to be a Benefactor to Weakened Mankind.

"There is always more or less suspicion attached to anything that is offered free but sometimes a man so overflows with generosity that he cannot rest until the prescriber is known to the world, in order that his fellow men may profit by what he has discovered. It is upon this principle that a resident of Kalamazoo, Mich., desires to send free to mankind a prescription which will cure them of any form of nervous debility; relieves them of all the doubts and uncertainties which such men are peculiarly liable to and restores the organs to natural size and vigor. As it costs nothing to try the experiment it would seem that all men suffering with any of the troubles that usually attack men who never stopped to realize what might be the final result, ought to be deeply interested in a remedy which will restore them to health, strength and vigor, without which they continue to live an existence of untold misery. As the remedy in question was the result of many years research as to what combination would be peculiarly effective in restoring to men the strength they need, it would seem that all men suffering with any form of nervous weakness ought to write for such a remedy at once. A request to H. C. Olds, Box 1718, Kalamazoo, Mich., stating that you are not ending for the prescription out of idle curiosity, but that you wish to make use of the medicine by giving it a trial, will be answered promptly and without obligation as to where information came from. The prescription is sent free and although some may wonder how Mr. Olds can afford to give away his discovery, there is no doubt about the offer being genuine. Cut this out and send to Mr. Olds so that he may know who you are to write him. 18-28-784

WILL BE WARNED AGAIN.

Turks and Greeks May Receive Still Another "Ultimatum."

POWERS' RIDICULOUS ATTITUDE.

Threats That Are Not Carried Out Do Not Terrify the Greeks—Turks May Be Induced to Retire from Crete, and Vassos May Follow.

London, April 5.—The Times publishes a dispatch from Vienna which says: "At least one power will not agree to a direct understanding being reached between Turkey and Greece, though it may be confidently stated that some of the powers would regard it as an acceptable issue out of the present embroiled situation. Both the Greek and Turkish governments are warning against a disturbance of the peace. This warning may be followed by a notification that in the event of hostilities the aggressor will not be allowed to reap the advantage of eventual victory. In behalf of the Turkish government it might seem superfluous, as in any event they can gain nothing by war, but it might serve to check the boldness of the Greeks.

"The next move is likely to be a proclamation by the admirals to the Cretons, intimating that the only obstacle to pacification is the presence of Colonel Vassos and the Greek troops. It will be made clear to them that their present intransigence is chiefly due to the armed intervention of Greece. It is evidently hoped that if the Cretons can only be convinced of these facts half the task of the powers will be accomplished.

The correspondent at Candia says: "Six Christians were killed—and 11 wounded on Saturday. The bodies of the dead were solemnly interred by Muslims. The garrison of Candia was under arms all night long, and the town was strictly patrolled because of fears of incendiarism. The blockade of the island continues to be forced closely. Already complaints are coming in that signs are not wanting of loss of hope by the insurgents in some sections of the island."

A dispatch from Rome says that private telegrams received there confirm the report that Colonel Vassos and his army in Crete. The powers insist on withdrawal, but neither King George nor the government care to comply. It is believed, however, that the difficulty may be surmounted by the withdrawal of the Turkish forces from Crete. This would not only remove the suspicions of the Cretons, but would make it possible for Vassos and his army to return from Crete with a certain amount of prestige.

The correspondent of The Daily Mail at Larissa says it is the general belief there that if no advance is made by the Greek troops on Ellassona by tomorrow the whole affair will end in a fiasco. The conviction is increasing, as the national day draws near, that nothing of importance will occur. The decorations and illuminations of all the public buildings and of many private residences has been arranged for.

A WARNING FROM RUSSIA.
Greece is Held Responsible for the Conditions in Crete.
St. Petersburg, April 5.—The Journal de St. Petersburg (official) says: "The aggressive and provocative attitude that Greece maintains with such deplorable obstinacy compels the powers to blockaded the Gulf of Athens. Greece, by keeping Colonel Vassos in Crete, is exposing the Cretons to all the disadvantages of the blockade there. She frustrates the restoration of peace, and prevents the powers from learning the real wishes of the inhabitants of Crete, which can only be recovered by the powers after the removal of the influence of an interested pressure. The reports of the consuls in Crete and of the international fleets show the utter impossibility of the present moment of communicating directly with the Cretons, who are subjected to the overwhelming influence of the Greek detachment in the island and kept back in places inaccessible to European negotiators."

Colonel Vassos has practically declared war against the powers. Moreover, certain extravagant and habitual fomenters of disorder hysterically advocate a declaration of war by Greece against Turkey on the 6th of April or on the day with a blockade of Greece commences. We refuse to believe that any such extraordinary act of folly will be committed, but in the event of it happening Greece will certainly have to endure the most serious consequences. If Greece wishes to win any price she can count on the support of no one, whatever the result may be of a conflict so wantonly provoked. The powers will never consent to the aggressors deriving the slightest advantage from victory in such a struggle."

That severe attacks of gravel and kidney trouble; and unable to get a medicine or doctor to cure me until I used Hop Bitters, is impossible to estimate the number of stock drowned, but it will go into the hundreds.

SPINAL DISEASE

And Painful Affections of Nearly all the Organs Cured by Dr. Williams' Pink Pills.

From the Journal, Detroit, Mich.

"Disease of the spinal cord and nervous system, was what the doctors called it at first," Mrs. Rosa Tapley, of No. 721 Harrison Street, Iowa, Mich., said yesterday to a reporter, "but it was not long before every organ and member of my body was affected. There was a continual heaving at the pit of my stomach, my head ached on all sides, I thought I should grow insane. I felt as if I should smother and my legs would become so weak that I had to drop when I felt my spells coming on. As for sleep, that was out of the question, except little cat naps, or in addition to the feelings I have attempted to describe, I had agonizing, and for six months I kept getting worse and worse, and at last was confined to my bed in October, 1894.

"I have nearly always thought it was jaundice, but I had," Mrs. Tapley continued, "though the doctor never would say so, but whatever it was it kept getting worse and worse, especially my head and nervous system, though I should die, but I clung on to a wretched existence until about one year ago, when, while I was reading the Detroit Journal and Scraps Weekly, I saw a long account of a similar case, to my own being cured by the use of Dr. Williams' Pink Pills for Pale People. I made up my mind to try these pills, and so procured a supply and began taking them according to directions.

"My experiences have been most happy. My heart's action is normal, my back and spine gave me very little trouble, all rheumatic and rheumatic pains have left me. I have no headache, whatever, and after the
