WEDNESDAY, APRIL 7, 1897.

PROFESSOR WILSON is in distress because his Southern Democratic brethren who are in Congress have repudiated free raw material and free trade.

A PROFOUND knowledge of grammar is not essential to success in civic affairs. Some authors have done very well without it. There was no such thing, for instance, as a grammar in Shakespeare's time.

AN English writer advises Americans to "leave Armenia and the Turks to be dealt with by the European powers and attend to their own Armenia," which means Cuba. The advice is not altogether superfluous.

WE most humbly pray, and beg the indulgence of Secretary Curtis, of the Board of Health, to inform that official that his books are public documents, and as such are subject to public inspection. The Secretary, however, thinks otherwise.

THE Philadelphia Inquirer says Senator Coyle is willing to resign his seat in the State Senate for a good consulship or a small foreign mission. An exchange is so unkind as to hint that the leaders are favorable to the appointment in order to get him out of the country.

THE new water superintendent, T. M Stull, is apparently the right man in the right place. He has already inaugurated several wished changes in the management of the plant, and if he continues in the same direction during his term the wisdom of his selection will be apparent to all.

THE Populists are broken up on the tariff question. One of them voted for the Dingley bill, and many of them refused to vote one way or the other. Probably some of them favored the measure, but were deterred from declaring for it by fear of their constituents. It is clear that the protection cause is gaining in strength all over the country. It is splitting all parties except the Republican, which solidly favors it.

AN exchange says: "You don't know how many people want to do business with you by telephone if you haven't got telephone service." Similarly, it doesn't take much of an experiment with publicity to convince a merchant that there are plenty of people ready to do business with him who may seem to have been waiting the heck and nod of a printed invitation. For example, a neatly displayed advertisement in the HERALD.

SECRETARY WILSON'S new plans for an intelligent distribution of seeds to the farmers of the country and a diversification of industries are meeting with universal commendation. Democratic as well as Republican papers approve them in unmeasured terms. The Atlanta Journal, owned by ex-Secretary of the Interior Hoke Smith, comments favorably upon the new Secretary's new plans in regard to the farmers, and numerous other Democratic papers join in the commendation of Secretary Wilson's work.

THE Hazleton Standard truthfully says: "The Lehigh Valley is now going into the wholesale use of bituminous, and it will not be long before Hazleton will be known as the 'smoky city' of the coal region. Does it not seem rather strange that this company, which is one of the principal producers of anthracite, should enter into competition with itself? Yet, that is exactly what they are doing. They cannot possibly expect to find a market for their product when they admit that bituminous coal is cheaper and answers the same purpose as anthracite coal."

FOR its size Ireland has made more of a stir in the world than any other country. The area of the Emerald Isle is 32,583 square miles, but within a territory less than half the size of Missouri this island has a population of more than double that state, the population of Ireland, according to the latest census, exceeding 4,500,000. Previous to 1847 the population of Ireland was nearly double what it is now, but the failure of the crops in that and two or three succeeding years produced untold misery, and, it is believed, thousands of deaths from privation and want. Emigration from Ireland began during the great famine, and since that time has been steady and almost uniform.

MR. BYRNES, the milk inspector of Philadelphia, has made a statement which is nothing short of startling. It is to the effect that 57,000 000 quarts of water, or more than one-half the whole milk supply of Philadelphia, are passed off on the unsophisticated Philadelphians. Naturally so sweeping and serious a charge has had the effect of arousing the milk dealers, who insist that Mr. Byrnes shall be removed from office. The anxiety on the part of the milkmen to have the inspector removed would seem to indicate that there must be some foundation for his charges, even if such a foundation is built only on water. An inspection of the milk consumed by the people of this town would probably also furnish some startling figures.

THE railroads are as much alarmed at anything that disturbs their agreements with one another as the great powers of Europe are at anything that threatens to turn the harmony of their "concert" into discord. And for the same reason. They fear they will be unable to restrain themselves from engaging in a general concert of the Donnybrook Fair variety, from which none will be likely to emerge with a whole head. The powers saw away industriously to keep up the concert or an appearance of it, while the railroads suspend association for the time being and assume an attitude favorable either for a resumption of fraternal relations or a spring at one another's throats as circumstances may seem to require.

MORGAN AND HALE

Indulge In a War of Words in the National Senate.

Washington, April 7.—Much bad blood was developed in the senate yesterday over the Cuban question, and there were numerous stormy passages and acrimonious personal charges. Early in the day Mr. Morgan, of Alabama, called up his resolution declaring that a state of war exists in Cuba, and recognizing both parties as belligerents. He spoke for some time in a dispassionate manner on the resolution, but was aroused by Mr. Hale, of Maine, to a series of sharp retorts. It led to the declaration by Mr. Morgan that instead of sending a lawyer to Cuba to investigate the case of Dr. Ruiz, as was contemplated, the administration would do well to send a ship of war to Havana and demand redress.

At another point Mr. Hale questioned Mr. Morgan's statement that Cuban prisons were "stuffed" with American prisoners, declaring that the information reaching him (Hale) showed that no such condition existed. Mr Morgan asked who this information came from, and then hotly asserted that he knew where it came from, and the world knew where it came from, as the senator from Maine had not denied the fact that he was in communication with the Spanish authorities. Mr. Hale indignantly denied that his information came from Spanish sources, and said it was furnished in every instance by American citizens.

The storm occasioned by this charge and denial was relieved by the expiration of the morning hour, which cut off the debate. The Morgan resolution lost its place and went to the calendar, but Mr. Morgan is continuing his remarks today, and has given notice that action is to be pressed with the Cuban question to a final vote.

Girl Graduate Charged With Theft.

Northampton, Mass., April 7.—Miss Caroline B. Nealley, of Dover, N. H., a member of last year's graduating class at Smith college, was arrested here yesterday on suspicion of being the sneak-thief who has been systematically robbing the various college houses for the past few weeks. She was discovered in the bathroom of one of Mrs. Barrister's houses, and was arrested as she was leaving the house.

Many cases of "Grippe" have lately been cured by One Minute Cough Cure. The preparation seems especially adapted to the cure of this disease. It acts quickly, thus preventing serious complications and bad effects which this disease often leaves the victim. C. H. Hagenbuch.

Gordy Indicted For Murder.

Georgetown, Del., April 7.—The Sussex county grand jury returned a true bill of indictment last night against James M. Gordy for the murder of his wife, formerly Mrs. Mary Lewis, of New York. The crime is alleged to have been committed near Milton, Del., on the 10th of last month. Gordy is at present in the county jail. The case will be called for trial Monday next. Miss. Grunert, sister of the dead woman, arrived here yesterday from her home in Brooklyn, and will testify at the trial. Important testimony, not yet generally known, will be produced when the case opens.

During the winter of 1895, F. M. Martin, of Long Beach, West Va., contracted a severe cold which left him with a cough. In speaking of how he cured it he says: "I used several kinds of cough syrup but found no relief until I bought a bottle of Chamberlain's Cough Remedy, which relieved me almost instantly, and in a short time brought about a complete cure." When troubled with a cough or cold use this remedy and you will not find it necessary to try several kinds before you get relief. It has been in the market for over twenty years and constantly grown in favor and popularity. For sale at 25 and 50 cents per bottle by Gruhler Bros., druggists.

Alleged Murderers Liberated.

New Brunswick, N. J., April 7.—On the recommendation of Prosecutor John Voorhees, of Middlesex county, Annello Spina and Joseph Aragio, two Italians, who have been in jail here for three years on the charge of murdering Antonio Prisco, an Italian contractor, were discharged from custody yesterday. On the first trial of the men the jury disagreed. On their second trial they were found guilty and sentenced to be hanged. A few days before the date of their execution a stay was obtained from the supreme court pending an appeal. Then a new trial was granted. Prosecutor Voorhees says he cannot secure any further evidence against the men.

SCRANTON TALK.

About the Little Wonder-Worker. A Personal Interview of Interest.

Our representative called on Mrs. Richard T. Roberts at No. 424 Thirteenth street, and her conversation as given below is but a sample of the Scranton talk that is going on about the little conqueror.

"Mrs. Roberts I am told you have been a sufferer from kidney complaint, how long did you have it?"

"For ten years at least."

"Can you tell what brought it on?"

"I can't just say how it came. I first noticed a slight pain in the small of my back which gradually grew worse."

"And of late years your trouble has increased?"

"Yes it was very bad at times. I had a dull pain in the small of my back with an occasional pain in the abdomen and groin."

"Was the bladder affected?"

"Yes I thought so as during passage of urine an awful scalding and burning sensation existed while there was a soreness in the abdomen as well."

"Was the passage of urine unnatural?"

"Indeed it was sometimes excessive and sometimes scanty, if I caught cold I was always worse."

"Were there any other symptoms?"

"My stomach constantly gave me trouble."

"I understand you are cured; what has brought this about?"

"I took Doan's Kidney Pills; they have cured my kidney complaint and the stomach trouble has disappeared as well. I have been relieved of my headache. I am truly happy to say I am entirely over it all now, and I will always find it a pleasure to recommend Doan's Kidney Pills to all who are victims of kidney troubles."

To Keep Out Immoral Women.

Washington, April 7.—Secretary Gage has taken steps looking to a more vigorous enforcement of the immigration laws against the admission into this country of alien women of immoral character. For a long time such women have been refused admission when their purpose in coming to this country was known, and in a number of instances the persons who were instrumental in their coming have been convicted and are now serving sentences in the penitentiary.

Love-lick Actress' Suicide.

New York, April 7.—Flossie Carpenter, 19 years old, a variety actress, known as one of the Garnet sisters, was found asphyxiated in her room yesterday, having committed suicide. A gas jet in the room was turned on. The girl's parents live in Philadelphia. She was playing an engagement in Jersey City. She told another actress a few days ago that she intended to take carbolic acid, because she was in love with a baseball player who was a married man.

Trenton, April 7.—The board of pardons met yesterday and considered the applications for commutation of sentence in the cases of Elmer Clawson and Jacob Johnson, both of whom were convicted in Somerset county of murder in the first degree. "Divine Healer" Schrader Again.

New Haven, April 7.—Schrader, the "Divine Healer," made his sudden appearance here yesterday afternoon, as he claims, after a fast of 40 days in the mountains of Mexico. During that time he declares that he tasted no food, and that water was all that passed his lips. Already several hundred men, women and children, most of them Italians and people of the laboring class, have crowded his quarters on Meadow street and had him pass his hands over them and give them his blessing.

Havana's Civil Governor Resigns.

Havana, April 7.—Senor Jose Porrua, who in February last succeeded General Suarez Valdez as civil governor of Havana and western Cuba, has tendered his resignation. Captain General Weyler is said to oppose the resignation because he considers Senor Porrua's presence in the island expedient for the time. Senor Porrua, however, is evidently resolved, and it is not impossible that the affair may bring about Weyler's own resignation. Senor Porrua gives up office cheerfully, he says, because it will bring an end of "compromises and distrust."

Salvationist Becomes a Catholic.

New York, April 7.—Susie F. Swift, one of the best known among the brigadiers of the Salvation Army, has announced her conversion to the Roman Catholic church. It is understood that this was brought about through the influence of Rose Hawthorne Lathrop, with whom Miss Swift became acquainted in the course of their work among the poor of this city.

Slavery Abolished in Zanzibar.

Zanzibar, April 7.—The sultan of Zanzibar has issued a decree abolishing slavery. It provides that existing rights over concubines shall remain as before, unless her freedom is claimed by a concubine on account of cruelty. But in general terms the concubines will be regarded as wives. The government will pay compensation for all slaves legally held.

Lewis is a physical wreck. He confined his forgeries to county and school district bonds. The forgeries amounted to about $300,000. There are 40 indictments pending in various Ohio courts against Lewis.

Ring's Fourth Finger Gone.

Chicago, April 7.—Edward Ring, the 10-months-old child of Richard Ring, had both its eyes burned out by a 20-year-old bro her named Dupuis. The children were playing together in the basement. Russell held a poker in a stove until it was red hot, and then put it in the infant's eyes. The mother, hearing the cries of the infant, ran into the basement, where she found Russell standing over the baby with the red hot poker in his hands laughing. On the floor lay the infant, with both eyes burned out. The little one will probably die.

The entire National Guard of New York, 13,000 men, will take part in the parade, having a place in the line directly following the United States troops. Ten vessels of Admiral Bunce's squadron will participate in the naval parade, besides five vessels of the revenue fleet and eleven of the lighthouse fleet. Italy, France and Spain will be represented by one warship each, and England will probably send two.

COMFORT AND KNOWLEDGE.

[Sent free by mail].

Set aside for twenty-four hours a bottle or common glass filled with urine. A sediment or settling indicates an unhealthy condition of the kidneys. When urine stains linen it is positive evidence of kidney trouble. Too frequent desire to urinate or pain in the back, is also convincing proof that the kidneys and bladder are out of order.

WHAT TO DO.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills every wish in relieving pain in the back, kidneys, liver, bladder and every part of the urinary passages. It corrects inability to hold urine and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to get up many times during the night to urinate. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists, price fifty cents and one dollar. You may have a sample bottle and pamphlet both sent free by mail. Mention EVENING HERALD and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee the genuiness of this offer.

Harris as a Presidential Candidate.

Topeka, Kan., April 7.—For some time the probable candidacy of United States Senator W. A. Harris of Kansas, for the nomination for president of the western fusion forces in 1900 has been mooted among Kansas politicians. The Daily Capital in this connection says: "A little political cloud no bigger than Senator Harris has risen over Mr. Bryan's chances for the leadership of the Democratic forces of 1900. The former is being urged by his friends to make the race."

A Padlocked Heart.

How many women lock their troubles and sufferings in their own hearts and silently endure misery and pain which would cause strong men to cry out in agony.

The sufferings of women are more than half unknown and unappreciated. The refined sensitiveness of their organism lays them liable to a thousand exquisite tortures which a coarser nature can never experience or comprehend.

The least derangement or disorder of the delicate special organism of their sex overwhelms the whole physical and mental being with weakness and wretchedness.

But it is a mistake to suffer these troubles in silence. They may be cured in the perfect privacy of home, without the repugnant ordeal of examinations and "local treatment," which the family doctor is sure to insist upon.

No physician in the world has had a wider or more successful experience in the treatment of woman's diseases than Dr. R. V. Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute, of Buffalo, N. Y. His "Favorite Prescription" is a positive cure for the most obstinate and complicated leucorrhea difficulties.

It is the only medicine of its kind prepared by an educated, skilled physician.

Dr. I. F. Sneed, of Comen, Texas, writes: "My wife was badly afflicted with female weakness. She tried three of the best physicians in the county without benefit, but at great expense. Her case grew worse, and we gave up in despair. She could not get to and out of doors without help; was not able to stand on her feet over a time, complained of dragging down pains in abdomen. Nothing but an untimely death seemed awaiting her, when — happy thought! — the name of Dr. Pierce came to my mind. I wrote to Dr. Pierce; received his advice, followed it, my wife improved perceptibly from the first two week's treatment, continued the treatment six months, and pronounced the cure complete, at a cost of less than one month's treatment by the last physician we employed before consulting Dr. Pierce. She used Dr. Pierce's Favorite Prescription and the lotions recommended by him. It has been two years since, and the good effect is permanent."

STOCK AND PRODUCE MARKETS.

An Unusually Dull Day on the New York Stock Exchange.

New York, April 6.—Interest in selling of stocks was very languid on the Stock Exchange today, and the market was apparently afflicted with an attack of spring fever. Many of the stocks which are usually dealt in had not a single sale recorded to their credit and others showed only a few odd lots, with not a single full share lot to make a quotation. Fluctuations in the main were very narrow, not offering a sufficient margin to invite operations even by the professional traders. Closing bids:

Philadelphia, April 7.—Colonel John B. Porter, chairman of the committee arranging for the dedication of the Washington monument on May 16, yesterday received a letter from Major General Nelson A. Miles, stating that he had thus far directed to participate in the parade two foot batteries of artillery from Fort McHenry, Md.; two foot batteries and one light battery of artillery and band from Washington barracks, D. C., and the band and four troops of cavalry from Fort Myer, Va. A letter has been sent to Governor Hastings, including resolutions adopted by the First troop, asking him to parade the full division of the Pennsylvania National Guard in this city on May 15.

Harrisburg, April 7.—A conference of the general officers of the National Guard was held here yesterday afternoon in the executive chamber, at which it was decided the entire division should parade in Philadelphia May 15, at the unveiling of the Washington monument, and that a provisional brigade be sent to New York to attend the unveiling of the Grant monument, April 27.

Starkweather Vindicated.

West Superior, Wis., April 7.—J. Starkweather was yesterday elected mayor under extraordinary circumstances. Two years ago, when the incumbent of an Episcopal pulpit, he was elected mayor. After occupying the office for four months he was impeached by the common council, being charged with extorting money from firemen and policemen, and was removed from office by a vote of 17 to 1. This judgment was affirmed by the supreme court. Starkweather ran as an independent. No newspaper supported him, and he had few helpers to make speeches for him. He carried on the campaign single handed, and has a majority over the combined vote of his two competitors.

Dr. Miles' Nervine Triumphs.

Excessive Nervousness from Childhood. La Grippe Brings on Heart Weakness.

REV. B. P. STANLY, pastor M. E. church, Buchanan, Ga., writes Dec. 10, 1896: "In childhood I was afflicted with excessive nervousness, which, almost developed into St. Vitus dance. I partially recovered, but as college it gradually grew worse. Close study aggravated the trouble; any unusual exertion caused trembling all over. In 1893 I had a severe attack of La Grippe which brought on heart weakness. I have been almost constantly under treatment for nervous troubles, and changed climates frequently without avail. Last February I began taking Dr. Miles' Restorative Nervine and Nerve and Liver Pills and since then I have been studying more and working harder than for years and the good effects that have resulted seem to be permanent."
