Use Daisy Flour. For Good Pies and Cakes, use Keiter's Pastry Flour. For Health, use Keiter's Old Time Graham.

California Oranges. Just received another lot. Fine, large and sweet.

At KEITER'S.

THE SPECIAL POLICE.

Chief Burgess Taber's Pointed Remarks at the Organization.

The special police appointed by Chief Burgess Adolph P. Taber met in the Council chamber last night for organization and elected ex-Chief Burgess Taber chairman and J. H. Kester secretary.

Chief Burgess Taber then delivered the following address to his appointees:

GENTLEMEN:—As Chief Burgess of the Borough of Shenandoah, by whom your appointment as special police officers was made, I deem it my duty, as you are about to enter upon your offices, to say a few words to you with regard to the services you may be called upon to render to the people of this community and the accountability to which I shall, as the Chief Burgess, feel myself called upon to hold you to for the discharge of your duties.

I need hardly say that you each and all appreciate the fact that you are police officers appointed as aids to preserve the peace and order of the community, not only when you may be called upon to make arrests and other officers to do so, but also whenever in the exercise of your good judgment you believe that disorder is being created and the peace and good order of the community disturbed.

By this of course I do not mean that any officer should look upon himself as having the right or authority to make arrests or interfere with citizens or their rights, without good and sufficient reason. I shall expect that, as my assistants, you will at all times carefully and impartially, but fearlessly, discharge your duties to the best interests of our people.

"I shall expect that you will not permit any officer to continue to use his office, or the privilege and power that his appointment gives him, solely for the purpose of money making, or imposing upon the liberties and rights of our people, no matter who they may be; the position of special police officer was certainly never created by law for any such purpose. I shall be careful whenever a well-founded complaint is made to me of the misconduct of any of you, whether in the discharge of your duties, or as private citizens, to immediately strip such officer of his star."

Upon the conclusion of the address the rolls of office were administered to the police, after which they formed the following organization: Captain, ex-Chief Burgess James Burns; 1st Lieutenant, John F. Jennings; 2nd Lieutenant, C. G. Hess.

THE SCHOOL BOARD MEETS.

Business Chiefly of a Routine Character Transacted.

END OF THE CLOCK BILL MUDDLE

A New Movement in Connection With the Public Library—Committee Instructed to Make Arrangements For an Organization as Required by Law.

A regular meeting of the School Board was held last evening with the following Directors in attendance: Messrs. Price, Hanna, Daugh, James, Morgan, Ogden, Lee, Devitt, Conners, O'Brien, Tressie, Higgins, and Edwards. With an exception the business transacted was of a routine character and most of the session was taken up in the reading of minutes of preceding regular and special meetings, which consumed forty minutes.

A communication from a survey company which furnished the bond for faithful performance of contract by the Peck-Williams Company was read. The survey company wanted to know what progress the contractors had made and the secretary was instructed to reply that the contract has not been fully complied with.

Superintendent Cooper read his monthly report on day school attendance as follows: Monthly enrollment—Boys, 132; girls, 143; total, 275. Average daily attendance—Boys, 112; girls, 115; total, 227. Percentage of attendance—Boys, 85; girls, 81; total, 83. Pupils present every day, 57. Visits by citizens, 107 by Directors, 10. In the night schools 230 pupils were enrolled and the percentage of attendance was 78. Present every session, 31; visits by citizens, 32; by Directors, 2.

Superintendent Cooper embodied in his report a recommendation that some means other than burning in the furnace be furnished for destroying waste paper in the High School building and the matter was referred to the building and repairs committee. The Superintendent stated that the residents in the vicinity of the school complain that the ashes are blown upon the porches and other parts of their properties, causing much annoyance.

The High school committee reported that Ferguson's theatre has been secured for the commencement exercises on June 17 and 18. In a report of the school committee the committee the payment of C. F. Halderman's bill for clocks was recommended and approved.

Mr. Treasler, of the finance committee, stated that \$9,000 of the new issue of bonds had been sold.

Attention was called to the law passed in 1905 governing school district libraries and suggested that the library committee be instructed to take up the matter and report on it, so that the affairs of the library could be put in better shape than they are now.

On motion of Mr. Hanna it was decided that the matter be referred to the library committee with instructions to draft rules and regulations in compliance with the law and report at the next meeting.

The law referred to provides that the trustees of each district shall be under the general management of nine trustees acting as the agents and appointees of the School Board, who shall approve all plans for its storage and accommodation, purchase and take charge of all books, maps, documents, relics and literary, historical, or other contributions, appoint all employees and make all regulations and do all things necessary to its government, preservation and maintenance, subject to the approval of the Board. The president and treasurer of the Board and the Superintendent of the schools of the district (or if there is no such officer the secretary of the board) shall be ex-officio members of the board of trustees. The other six members shall be elected by the School Board, two each for one, two and three years, and annually thereafter two members shall be chosen by said board for the term of three years. Each trustee shall serve until his successor is elected, and in case of a vacancy it shall be filled by the School Board for the unexpired term. The trustees shall make a report to the School Board once each year, and oftener if called upon, of such subjects and in such manner as may be required by said board. It is also provided that all such public libraries shall be under the general supervision and subject to the inspection of the State Librarian, who may require reports from the trustees whenever he may deem proper.

THE TARIFF IS IN DANGER!

Senator Chandler Fears the Dingley Bill May be Defeated.

WESTERN SENATORS' ATTITUDE!

They are Inclined to Urge Higher Duties on Wool, Hides, Coal and Lead Ore, and Fear the West May be Discriminated Against.

Washington, April 2.—A number of western Republican senators, more particularly those from the Rocky mountain states, have united in a movement to make sure of securing certain concessions in the tariff bill which they consider important to that section of the country. There have been several informal conferences recently, but up to date no conclusions have been reached.

The articles which the senators have especially in view are wool, hides, coal and lead ore. The tendency is to ask a change in the position of the wool schedule which relates to third class wools. The probabilities are that there will be a demand for specific instead of ad valorem rates in this class, and one senator said today that he would not be satisfied with less than 60 cents a pound on any wool.

There is quite a determined movement among these senators for a duty on hides. The finance committee, western senators say, did not manifest at first a disposition to grant this concession, but the western men say they now find reason to feel encouraged over the outlook. They probably will ask that the duty be fixed at two cents per pound, but some of them appear willing to compromise at one and a half or even one cent.

There will be a determined effort to increase the rate on the lead contained in ore from one cent a pound, as fixed by the Dingley bill as it passed the house, to one and a half cents, and to change the language of the provision. This would mean a return to the McKinley rate, but the language of the Wilson law is considered preferable to that of either the McKinley law or the Dingley bill.

There will be an effort also to prevent any reduction of the house rates on coal and lumber. The Wyoming and Colorado senators are especially interested in coal, and the Oregon and Washington senators in lumber. There are also many smaller items to which the western senators are giving their attention. Some of them are inclined to fear that the bill may be made to discriminate against western interests, and desire to organize to prevent that result.

Senator Chandler today authorized the statement that the passage of the tariff bill for high duties on wool, hides and other articles is a matter of great importance to the western states, and that the Republicans have not a majority without assistance from other parties, and the danger is that there will be such a general revision of feeling as will cause the outsiders upon whom we are counting to not cast their votes for the tariff bill, at least in the Senate, and to support the bill.

Some of them are inclined to fear that the bill may be made to discriminate against western interests, and desire to organize to prevent that result.

Senator Chandler today authorized the statement that the passage of the tariff bill for high duties on wool, hides and other articles is a matter of great importance to the western states, and that the Republicans have not a majority without assistance from other parties, and the danger is that there will be such a general revision of feeling as will cause the outsiders upon whom we are counting to not cast their votes for the tariff bill, at least in the Senate, and to support the bill.

THE TARIFF IS IN DANGER!

Senator Chandler Fears the Dingley Bill May be Defeated.

WESTERN SENATORS' ATTITUDE!

They are Inclined to Urge Higher Duties on Wool, Hides, Coal and Lead Ore, and Fear the West May be Discriminated Against.

Washington, April 2.—A number of western Republican senators, more particularly those from the Rocky mountain states, have united in a movement to make sure of securing certain concessions in the tariff bill which they consider important to that section of the country. There have been several informal conferences recently, but up to date no conclusions have been reached.

The articles which the senators have especially in view are wool, hides, coal and lead ore. The tendency is to ask a change in the position of the wool schedule which relates to third class wools. The probabilities are that there will be a demand for specific instead of ad valorem rates in this class, and one senator said today that he would not be satisfied with less than 60 cents a pound on any wool.

There is quite a determined movement among these senators for a duty on hides. The finance committee, western senators say, did not manifest at first a disposition to grant this concession, but the western men say they now find reason to feel encouraged over the outlook. They probably will ask that the duty be fixed at two cents per pound, but some of them appear willing to compromise at one and a half or even one cent.

There will be a determined effort to increase the rate on the lead contained in ore from one cent a pound, as fixed by the Dingley bill as it passed the house, to one and a half cents, and to change the language of the provision. This would mean a return to the McKinley rate, but the language of the Wilson law is considered preferable to that of either the McKinley law or the Dingley bill.

There will be an effort also to prevent any reduction of the house rates on coal and lumber. The Wyoming and Colorado senators are especially interested in coal, and the Oregon and Washington senators in lumber. There are also many smaller items to which the western senators are giving their attention. Some of them are inclined to fear that the bill may be made to discriminate against western interests, and desire to organize to prevent that result.
