S. Dean company.

N. Y. The preprietors of this paper guarantee caused by the resignation of Senator Cockran. Johanner error. Thus the Semiter from this district but another opportunity of becoming a member of the committee, which was his by right.

Major Roserre, of Willesbarre, one of the members of the Mining Commisslim appointed to investigate the cause of distress among the workers in the anthracite region states that an organization will soon be affected and that the committee will then get to work. Though the selection of the committee was made several weeks sign they have not yet done anything that will lead the minure and laborate of this section to believe that this so-called investigation is to amount to anything. There is distress al over the land and, sessed previously, it is in the power of no legislative body to alleviate those conditions at the present time. It is the natural order of things and cannot be altered until prosperity again sheds its buildient mys from one end of the country to the other. The legislature cannot evolve a plan to secure a better market for coal and even if it were in the power of the \$1,500 p similar men at the state capital, they would be two indicient and anconcerned to do it, is the opinion of the Harleton Plain Speaker.

AT each succeeding term of court, the grand jury brings to the attention of our Judges same very wholesome advice in reference to the great volume of petty cases that come before that body. Judge Woodward, of Lowenn county, in his charge to the grand jury, gave expression to some partition views on this subject. He sorviers that all trivial and putty cases he ignored by Justices of the Peace, thus relieving the court, which is constantly to log overcrowded with a constantly increasing volume of eriminal business. He riter a rose that bud been continued affection times and was the fly ettled after each amounting to nearly \$4,000 had been saddled upon the country What is true of Lanarno is equally type of this comey, and there should be some kind of pressure brought to hear upon Justices of the Pence to constrain them to dispose of used there can be no substitute for it, as in order, and since I began taking it I these petty cases, thus saving cuermons bills a blood purifier." Miss C. A. ELLIOTT, can est anything I wish." H. STONE, of coats to the county. The suggestion is Grinnell, fows. made, to provide against this evil, that a law be enacted fixing a mlary for Justices of the Peace and requiring them to pay all fees into the county transury. This would dispuse of the luneative to turn cases over to court. It is only fair to state, however, that there are Justices who make an housal effort to have Hilgants cettle their cases, but they are greatly to the minority. If our legislators would turn their attention to matters of this kind, instead of quibbling over positions on insiless committees of investigation, etc., they would display greater interest in the public watfare.
