THE New York Sun says that "Mr. Me-Kinley's selections for the more important 1899. diplomatic posts strike people generally as satisfactory." This is the verdict of all the Democratic papers of the country of the higher class. It confirms what Republicans who knew the President said about him before his election. His experience in politics, the level are constructed by the ways a matter of Lynchburg. Va. his large requaintance with public men, and had been suffering from consumption his general poles and balance admirably fit for several months, and returned home him to perform all the requirements of his in company with his nephew. Frank post to the satisfaction of the country. The Wysor, During the voyage he failed party has reason to behave that Mr. Me-rapidly, Consul Wysor's body was taken to his home in Lynchburg.

I'v is reported from the Western hims minous regions that the miners who tes tified before the legislative committee last week concerning the operations of the company store system and the way is which miners and others about the mines are treated, have already been discharged by their employers. This is manifestly done, says the Witkesharre Record, for the purpose of Intimidating others. The committee should promptly muse the arrest of any employer who discharges any man for testifying before that body. If the men should refuse to testify the committee would deem them guilty of contempt and treat

THE Secute at Harrisburg passed the bill which prohibits the payment of taxes by political committees or by any person or pursons except the man in whose name it is Issued. This is a capital measure. The practice indulged in by the two political parties of buying a number of thousand tax receipts to be given out about election time where they will do the most good, has been a most pernicions one, and has been a prolific source of ballot debauckery. If a man will not go to the tax office and pay for his tax receipt, he evidently values the privilege of voting so lightly that he would grieve but little if deprived of the right of the ballot.

FORMAL announcement was made Toesday by the Lebigh Valley Hailroad Company, of the completion of the sale to Drexel & Co. of \$5,000,000 of the benda of the company, under the conditional agreement of a monthago. The proceeds of the bonds and Tuesday will be used to pay off the floating debt of the company and to provide working capital. Provision is made in the mortgage for a further have of \$3,000,000, as needed for lasrevenents and equipment, and also for \$1,000,000 a year, for seven years after 1900, for new construction, &c., all of the new property to come under the mortgage. One of the conditions of the agreement thus simported was that an examination of the books and measurets of the company should be made by Expert Accountant Stephen Little. It is understood that Mr. Little's report has been automated and that he formed that there had been no effort to juggle the accounts. though he made some changes in the method of stating the accounts. The floating debt as determined by him wa not in excess of the amount stated by the accountant of the company. No changes in the Hoard of Directors or officers have yet been made, though it is umberstood that some are contemplated, espectally as several of the officials have now rearhed an age which makes them auxious to sotire from active business life, they having remained with the property of late only at the urgent solicitation of parties interested
