THE INVESTIGATIONS.

The authentic investigating committee has visited Shenandoah, and departed with no more knowledge as to the cause of the depressed condition of the coal trade than when they came here.

The question naturally arises right here, was not the condition of the miners in the Shenandoah region well known to the people throughout the state, including the members of the Legislature?

During the winter of 1916, F. M. Marvin, of Long Beach, West Va., visited a severe cold which left him with a cough.

FINANCE AND TRADE.

Undeclared War in Europe Affects the Markets Here.

New York, April 17.—H. G. Dun & Co.'s weekly review of trade says: An undeclared war between Greece and Turkey has been more important than any other single cause of changes in business this week.

The temporary decrease in exports and large increase in imports, at New York 203 per cent for the month, caused questions about the financial future which have not much influence as yet.

The wheat market, after its decline of 6 cents last week, was prepared to rise with prospects of European war and increased purchases for exports, and has risen 4 1/2 cents last Friday.

Exports for the week are very small, and for two weeks but little greater than last year, while corn exports continue over three times last year's.

BEAUTIFUL EASTER.

In the history of the Christian church there has never been any difference of opinion as to why Easter is observed, but there has been a good deal of controversy as to when it should be kept.

In the prayer book of the English church the following is given as a rule to find Easter: "Easter day is always the first Sunday after the full moon which happens upon or next after the 21st day of March, and if the full moon happens upon a Sunday Easter day is the Sunday after."

About the year A. D. 1582 a controversy arose as to the date of Easter which divided all Christendom. This difference arose originally between the churches of Asia Minor and the then so-called churches of the west, the former insisting on keeping Easter the same day as the Jews kept their Passover.

In the fourth century matters had gone to such a length that the Emperor Constantine thought it his duty to allay the controversy, so he got an ecumenical council passed that Easter should be observed on one and the same day, but the controversy continued until A. D. 680, when Pope Gregory III of Rome, determined to take the matter in his own hands, and called a conference, which he himself presided in.

At the conference the British party, while Agilbert, bishop of Dunelm, headed the British church. After much discussion the king finally decided the question in favor of the present existing method of keeping Easter, and from that day to this the date of Easter has depended upon the moon's changes.

All the movable feasts and fasts of the year depend upon Easter. The nine weeks before and the eight after depend upon it, and form, as it were, a sort of bodyguard to this great of religious festivals.

The Pimples

That Bloom in the Spring

The Spring

At no other season are Pimples and Humors so abundant or so annoying as in the Spring.

An unseasonably warm day, before change of winter clothing, heats the blood, and these Pimples and Humors itch and burn, and their annoyance, the suffering they cause, is known only to those afflicted.

At no time is a blood purifying medicine more effective than just before and during this season.

If your blood is not right (and whose is?) you are liable to be one of these sufferers this Spring.

A course of Hood's Sarsaparilla begun now and faithfully pursued will save you suffering and give you rugged health, so that you can thoroughly enjoy all the pleasures of the coming summer.

Pimples on the Face.

"I have been troubled for three years with pimples on my face and body. I tried several remedies with only temporary relief. I am now taking Hood's Sarsaparilla and it is doing me a wonderful amount of good. My general health is greatly improved, and I feel very thankful for what Hood's Sarsaparilla has already done for me." MISS JANE JANSOBY, Burnham, Illinois.

Clear Complexion.

"I have had a bad complexion owing to impure blood. I have been taking Hood's Sarsaparilla and my skin is now clear. Hood's Sarsaparilla has done me much good by purifying my blood." ARMIN D. McCOR, Watson, Pennsylvania.
