Number</t alrable to scenre on a harblinger of sleep is infrare to scenario a singlifting of a born is producted by allowing three, balance right fing to root, for the subsidiation of all en-forced monthal activity. There should be at-least an hear's function between work, no matter what it may be, and sleep, for if work is pushed up to the host moment, sleep will be driven away, or will be, in he four weak most reasons on the first moment. first and most precision stages, broken and morefreeding. To turn resolutely from work at a fixed hour and plunge for a fit-tle time into a novel or a nowspaper, a game or music, will often make all the difference between a tool and a good night's rest. Position when in bod is a night a real, product scalar of the production of a large scalar in the product of the product of the product of the large discover that their plane of the large scalar is a large to the plane sc

The unistimuted to a small pillow for the integer one soon disposes of their wakes rainess. And so with entidiren. The post-tion in which they are placed when put to bad should be carefully attended to as nightly variations in this may at least postpane the sevent of sheep, which is so essential to the welfare of the growing brains. Very little things serve sometimes to induce sloep. Thus, the mere turning of a pillow and the application of the sold surface of the bend and face will, on occa-sion, prove the turning point in struggle with sloeplessness.—New York Ledger.
