The local line and city trade is more active and both dealers and consumers are beginning to realize the determined attitude of the controlling spirits to keep the market in good shape. Consequently there is more disposition to buy coal and restock yards and cellars for future consumption.

THE refusal of the lower court yesterday to forthwith grant a writ of ouster against the Borough Justices in this town and Mahanoy City, was received with a great deal of dissatisfaction by the people of these two towns, who full to find the necessity for further delay in carrying out an order of court. Judge Pershing decided that Messrs. Lawfor and Cardin were filegally elected; that they have no right to hold the position of Justice of the Peace, because of ponstate. This decision has after a long and tedions delay, been affirmed by the Supreme Court, and it is reasonable to suppose that the lower court would sustain its fermer position in the execution of a writ of courte.
