Hagenbach, druggist, Shen the great and ruinous competition of the bi- undouh tunninous coal market, but there is another and, as the Lodger believes a more potent reason, which is the extraordinary excess of the supply of later over the demand.

A MINING DEPARTMENT.

We take the following editorial from the columns of the Coiliery Engineer, published at Scranton by T. J. Foster, formerly proprictor of the HERALD :

"There are two bills before the Legislature stored to consciousness, of Pennsylvania providing for the formation of a Bureau of Mines in the Department of ably be passed and approved by the Governor. Mrs. Wm. Kirby, Akron, Erie Co., N. Y.

"When first introduced there was a marked rial ignorant of the technicalities of mining to impose on miners and operators burdensome and annaying regulations. The other bill, which was introduced in the House of Representatives by Mr. Mansfield, was, Iu the main, a reasonable and sensible one. Mr. Coyle's bill hus, however, been so amonded that it is now very similar to Mr. Mamifeld's, and in one respect it is slightly better as it provides for a more reasonable salary for the tias Commissioner of Mines. Mr. Coyle's hill, though better than Mr. Mansfield's in this respect, is also wrong. The man compotent to fill the office of Commissioner of Mines in the manner in which it should be filled is worth more than \$5,560 per year, the amount proposed in the bill. Mr. Mansfield's bill provides for but \$5,000 salary. "In Section 8, of Mr. Coyle's bill; as amended, there is a serious mistake. As originally amended this section read, "the superintendent of op rator of each and every coal mine subject to importion under the bottle of Hood's Sarsaparilla would do mining laws of this state, shall, within six months after the final passage and approval of this act, deposit in the lineau of Mines an meanate map or plan of each coal mine, etc." As finally amended this section is made to read that the mine inspector of each district is required to deposit in the Bareau of Mines au neertrate map or plan of each mine in his district. This is wrong. The mine inspectors | combined, which enables Hood's Sarhave not the facilities to furnish these supporting to reach simple as well as They reactive, under the provisions of the such mine in their district from the operators "C. T. Hood & Co., Lowell, Mass.: ar apperintenden's. These maps are brought up to date at stated times by the mining suginears amployed by operators. They cannot he originally made by the mine inspectors. por can they be amended from time to time by these officials. The proposed law should he worded the name as are the general mining laws of the state, and the operators or apportutandants should be required to farmish this maps for me in the office of the Commisslourr of Minns. hill, as finally amended. We do not think that the operators or superintendents acked that such an impracticable change by made. and it is doubtful if two percent of them would object to having this portion of the proposed has made the same as it is in the general mining have. It is true that it will start when complete tracings or blue-prints will be required. To amond these imps and bring thom up to date is a -matter of trilling expense and no reasonable operator will objust to it, especially since the proposed act has been so unrended as to require the appoint ment of an official so equipped as to make him of real value to the mining population.

NUCLETS OF NEWS The quistion of snading General Train Theorem From a Trestis-One Miks to the seat of war in the east has

tot yet been disland. Colonet John S. Mosky was thrown from a burgy in Lichmond and receive the band of wreckers which has play ed a cut which may scriously injure ed have with the roads in this state one eye.

Reduced Rates to New York.

THE TIMES is the most statemines, circulated and widely read now support pub-lished in Pennoyltwalls. Its discussion of pub-tioners and public measures is in the inforest of public integrity, honest generations and prosperous industry, and it knows no party or pensonal allegiance in breating public issues. In the broadest and best sense a family and general newspaper. For the dedication of the Grant Monu-mental Tomb, April 27, the Pennaylvania Railroad Company will sell excursion tickets to New York to the general public from all points on its line, exclusive of Pittsburg and Forms on its line, exclusive of Pittsburg and Eric proper, an April 20, and from Altoona and Willinmsport and intermediate points, and stations on other divisions within one hundred and fifty miles of New York, on April 26, and for trains reaching New York before noon on April 27, at rate of angle fare for the second trains are sets than \$1.000 for the round trip (no less rate than \$1 00), good to return until May 4, inclusive.

Prices 50 cents and \$1.00. Get a
